Dacia Plant

We started out of passion, a seed of light in an ocean of disbelief. We gained strength and shined stronger and stronger, conceiving natural products which brought comfort, peace and health to people. We knew that we could fly higher and higher and today we can look to the horizon with the hope and the belief that our wings will take us to the infinite.

Health starts with our own souls, and the soul can be healed through love. Humans are whole beings and this is why we treat them as a whole. In everything we do, we follow the idea that man is a unitary creation and that you cannot treat the eyes by disregarding the head, the head by disregarding the mind, and the mind by disregarding the spirit and the soul.

We know that health is the natural state of man. Through our products, which are 100% natural, we want to offer the human organism the possibility to manifest its natural intelligence and regain the health balance. Medicinal herbs are real wonders that help us maintain our physical and emotional health, and this is why we devote them all our passion.

We maintain the tradition and we get inspired from it. We look deep into the soul of

the Romanian people and we always nurture ourselves with authentic values. This is why we want to create new valuable things, this is why we have chosen valuable people who put a lot of passion in their job and work day and night in order to create products with no room for compromise.

We are guided by simple, yet essential ideas: love towards humankind, faith in the power of the medicinal plants and passion for all that we do.

We wish to return a part of nature to the modern man. We've searched and found the best, most efficient and handiest methods of doing this. Dacia Plant products are based on original recipes and are perfectly adapted to the modern lifestyle. We have concentrated the essence of nature in innovative products, specially created for you.

Bun de Tot

Natural juices and jams,
sugar-free, chemicals-free

Sugar-free products

We chose to sweeten our products with natural grape juice to avoid the harmful effects of sugar. Grape juice is extracted by pressing freshly picked fruits. The grape peel contains a large amount of resveratrol which is one of the most effective naturally-occurring antioxidants, that neutralizes the effects of free radicals produced by your body on daily basis.

Mild pasteurization

Is the type of pasteurization that allows the preservation of the nutritional quality and vitamins in our products. Moreover, the **Bun de Tot** range is not subject to any additional treatment during the production process and no additional ingredients such as water, sugar, preservatives, concentrates, flavors or dyes are added thereto.

Glass packaging

We chose glass packages because they provide the best protection for both juices and jams. The most important factors that led to our decision were the maintaining of unaltered flavor, as well as the high level of hygiene that this type of material ensures compared to plastic, cardboard or aluminum packaging.

The natural
choise

Discover natural juices and jams from Dacia Plant,
sugar-free, chemical-free, sweetened with grape juice.

Beverages

An extra flavor for the most greedy! Products in this category do not contain dyes and preservatives and they are sweetened with sugar.

brand *Dacia Plant*

The flavor of these products is due to fresh fruits and manufacturing processes that manage to preserve their vitamins and minerals, giving us extra health in addition to an incredible taste!

APPRICOAT NECTAR

Dacia Plant Nectar

500 ml

DACIA PLANT®
THE HEALTHFUL POWER OF HERBS

Energy and health!

Sports lovers who are particularly active will be delighted by the new Dacia Plant products! Not only are they made from fresh fruit and retain the aroma and taste of the delicious fruit, but they have a carefully measured amount of sugar, which will give them exactly that energy boost they need at the start of a challenging day.

Mild pasteurization

Is the type of pasteurization that allows the preservation of the nutritional quality and vitamins in our products. Simple herbal tea

Our herbs have not been thermally or chemically treated.

Our teas comply with the European quality standards and do not contain any artificial colours, preservatives, flavours or sweeteners.

Dacia Plant brand

The therapeutic efficiency of our herbal tea is greatly amplified by the synergic action of their ingredients. All ingredients are of Romanian origin.

ALDER BUCKTHORN

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- laxative or purgative (according to dosage).

EFFECTIVE FOR:

INTERNAL

acute and chronic constipation.

INGREDIENTS:

alder buckthorn bark.

ANISE

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- antispasmodic,
- digestive tonic,
- stimulates the exocrine secretions (salivary, gastric, intestinal, biliary),
- carminative,
- eupeptic,
- estrogenic,
- emmenagogue,
- galactagogue,
- expectorant.

EFFECTIVE FOR:

INTERNAL

intestinal colic, bloating, baby colic, anorexia (lack of appetite), pancreatic insufficiency, indigestion, increased lactation after childbirth, bronchitis, spasmodic cough.

INGREDIENTS:

anise seeds.

ARTICHOKE

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- cholaretic,
- cholagogue,
- hepatoprotective,
- regenerates liver cells,
- lowers cholesterol levels,
- decreases hyperlipidemia,
- antiatherosclerotic,
- uricosuric diuretic (triggers the elimination of uric acid),
- digestive tonic.

EFFECTIVE FOR:

INTERNAL

gallbladder disorder (biliary dyskinesia), acute and chronic inflammation of the gallbladder (cholecystitis), inflammation of the bile ducts, hepatic insufficiency, chronic hepatitis, steatosis (fatty liver), hypercholesterolemia, hypertriglyceridemia, obesity, atherosclerosis, gout.

INGREDIENTS:

artichoke leaves.

BITTER MELON

Simple herbal tea 30 g

ACTIONS/BENEFITS:

INTERNAL

- hypoglycemic.

EFFECTIVE FOR:

hyperglycemia, diabetes.

INGREDIENTS:

bitter melon fruits.

BLUEBERRY

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- astringent,
- antidiarrheal,
- antihemorrhagic,
- intestinal antiseptic,
- hypoglycemic,
- capillary protector,
- capillary regenerative (regenerates the capillary blood vessels),
- anti-inflammatory.

EXTERNAL

- astringent,
- antiseptic.

EFFECTIVE FOR:

INTERNAL

capillary fragility, increasing visual sharpness, vascular diseases of diabetics, diarrhea, enteritis, enterocolitis, fermentation and putrefaction colitis, haemorrhoids, diabetes mellitus, gout, hyperuricemia (excess of uric acid in the blood), diabetic retinopathy.

EXTERNAL

hemorrhoids, anal fissures, various wounds.

INGREDIENTS:

blueberry leaves.

CARAWAY

Simple herbal tea 100 g

ACTIONS/BENEFITS:

INTERNAL

- antispasmodic,
- digestive aid,
- stomachic,
- carminative,
- galactagogue.

EFFECTIVE FOR:

intestinal colic, enterocolitis, slow digestion, dyspepsia, anorexia, intestinal gas.

INGREDIENTS:

caraway fruits.

CALAMUS

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- antispasmodic,
- bitter tonic,
- gastric and intestinal secretion stimulant,
- cholaretic,
- nervous tonic.

EFFECTIVE FOR:

INTERNAL

anorexia nervosa, hypoacid gastritis, spastic colitis and enterocolitis, gastrointestinal colic, biliary dyskinesia, slow digestion, neuro-vegetative dystonias, anxious and depressive neuroses.

INGREDIENTS:

calamus roots.

CHAMOMILE

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- gastroprotective,
 - antiulcerous,
 - anti-inflammatory,
 - antispasmodic,
 - stomachic,
 - cholaretic,
 - cholagogue,
 - antiallergic,
 - immunomodulator,
 - radioprotective,
 - antitoxic,
 - antiseptic.
- EXTERNAL
- capillary tonic (tonifies the hair and the root of the hair, making it shine; especially efficient for blond and brown hair).

EFFECTIVE FOR:

INTERNALLY

hyperacid gastritis, gastric and duodenal ulcer, enterocolitis, abdominal colic, diarrhea, respiratory diseases (flu, colds, acute bronchitis), dysmenorrhea, radiotherapy.

EXTERNALLY

hair care.

INGREDIENTS:

chamomile flowers.

CHERRY STALKS

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- diuretic,
- urinary antiseptic,
- astringent,
- antidiarrheal,
- depurative.

EFFECTIVE FOR:

disorders of the urinary tract (renal lithiasis, urinary infections), edemas, diarrhea.

INGREDIENTS:

cherry stalks.

COMMON COMFREY

Simple herbal tea 50 g

ACTIONS/BENEFITS:

EXTERNAL

- anti-inflammatory,
- cicatrissant and haemostatic.

EFFECTIVE FOR:

EXTERNAL

contusions, sprains and dislocations, fractures, tendinitis, arthritis, rheumatism, eczema, hemorrhoids, anal fissures, psoriasis, insect bites.

INGREDIENTS:

common comfrey roots.

COMMON MARIGOLD

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- cicatrissant,
- anti-inflammatory,
- choleric and cholagogue,
- antispasmodic and antiseptic.

EXTERNAL

- cicatrissant,
- anti-inflammatory,
- antiseptic,
- antibacterial.

EFFECTIVE FOR:

INTERNAL

hyperacid gastritis, peptic and duodenal ulcer, gallbladder disorder (biliary dyskinesia), inflammation of the gallbladder (cholecystitis) and enterocolitis.

EXTERNAL

wounds, mild burns (grade I), dermatitis, venous ulcer, skin ulceration, diaper rash, hemorrhoids, frostbites, insect bites, leukorrhea.

INGREDIENTS:

Calendula officinalis flowers.

CRANBERRY

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- urinary antiseptic,
- diuretic,
- anti-inflammatory,
- astringent and antioxidant.

EXTERNAL

- antiseptic at the oral cavity level.

EFFECTIVE FOR:

INTERNAL

urinary infections (cystitis, urethritis, pyelonephritis), urogenital inflammation and diarrhea.

EXTERNAL

for sanitizing the oral cavity.

INGREDIENTS:

cranberry leaves.

DANDELION

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- bitter tonic,
- choleric,
- cholagogue,
- stimulates exocrine secretions,
- diuretic,
- laxative,
- hypoglycemic.

EFFECTIVE FOR:

INTERNAL

anorexia, gallbladder disorder (biliary dyskinesia), cholecystitis, stimulating pancreatic secretions, difficult digestion, hypoacid gastritis, obesity (eliminates edemas and stimulates bowel transit if used during weight loss diets) and constipation.

INGREDIENTS:

dandelion leaves.

DILL

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- estrogenic,
- emmenagogue,
- galactagogue,
- digestive tonic,
- stomachic,
- carminative,
- antispasmodic.

EFFECTIVE FOR:

INTERNAL

amenorrhea, dysmenorrhea, hypomenorrhea, female infertility, premature menopause, breastfeeding (increases lactation), mammary hypoplasia (for growing small breasts), difficult digestion, meteorism (bloating), digestive spasms.

INGREDIENTS:

dill seeds.

ECHINACEA

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- immunostimulant,
- hyaluronidase inhibitor (stops the invasive action of bacteria),
- inhibits virus replication, effective against flu virus, AH5N1 virus (bird flu virus), AH1N1 virus (swine flu virus), Herpes simplex viruses type 1 and 2.

EFFECTIVE FOR:

INTERNALLY

immunodeficiency, respiratory infections, urinary infections, influenza, recurrent infections, infections with AH5N1 and AH1N1, herpes.

INGREDIENTS:

echinacea aerial parts.

ELDER FLOWERS

Simple herbal tea 50 g

- ACTIONS/BENEFITS:**
INTERNAL
- expectorant,
 - diaforetic,
 - diuretic,
 - slightly laxative,
 - detoxifying.
- EFFECTIVE FOR:**
flu, cold, bronchitis, catarrh, cough, light fever, edema, dropsy.
- INGREDIENTS:**
elder flowers.

FENNEL

Simple herbal tea 50 g

- ACTIONS/BENEFITS:**
INTERNAL
- anti-colic,
 - intestinal antiseptic,
 - antispasmodic,
 - digestive tonic,
 - carminative,
 - stomachic,
 - expectorant,
 - estrogenic,
 - galactagogue.
- EFFECTIVE FOR:**
INTERNAL
intestinal colics, abdominal cramps in infants, spasmodic colitis, dyspepsia, meteorism (bloating), indigestion, breastfeeding (increases lactation) and mammary hypoplasia (for growing small breasts).
- INGREDIENTS:**
fennel fruit.

FENUGREEK

Simple herbal tea 100 g

- ACTIONS/BENEFITS:**
INTERNAL
- vitalizing,
 - general tonic,
 - body strenght increase,
 - aphrodisiac and sexual tonic (both for men and women), libido and male potency increase,
 - lactation stimulant,
 - lowers blood sugar, cholesterol and triglycerides.
- EFFECTIVE FOR:**
physical and mental asthenia, fatigues, exhaustion, convalescence, malnutrition, sexual impotence, libido increase (both men and women), milk hyposecretion, hyperglycemia and diabetes, hypercholesterolaemia and hypertriglyceridemia.
- INGREDIENTS:**
fenugreek fruits.

GINGER

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- reduces adipose tissue and body weight,
- hypocholesteremic and lipid lowering,
- antiemetic and antivertiginous,
- improves digestion and reduces flatulence (bloating),
- increases appetite,
- improves peripheral circulation.

EFFECTIVE FOR:

INTERNAL

overweight, obesity, hypercholesterolemia, hyperlipidemia, obliterant arteriopathy, nausea and vomiting, motion sickness, difficult digestion, digestion disorders, flatulence (bloating), anorexia, peripheral circulation insufficiency (cold hands and feet), cold intolerance.

INGREDIENTS:

ginger – roots.

GREEN TEA

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- diuretic.

EFFECTIVE FOR:

weight loss cures, overweight by water retention, edema.

INGREDIENTS:

green tea leaves.

HAWTHORN FLOWERS

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- ardiotonic,
- coronary vasodilator,
- antiarrhythmic,
- antihypertensive,
- β -blocker,
- sedative.

EFFECTIVE FOR:

INTERNAL

arrhythmia (tachycardia, palpitations, extrasystoles), cardiac insufficiency, ischemic heart disease, angina, heart attack, high blood pressure, nervous cardiovascular disorders.

INGREDIENTS:

hawthorn flowers.

HAWTHORN FRUITS

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- antiarrhythmic,
- cardiotonic,
- coronary vasodilator,
- antihypertensive,
- β -blocker,
- sedative,
- vitaminizing,
- tonic,
- improves cardiac irrigation,
- restores circulation in necrotic areas after myocardial infarction.

EFFECTIVE FOR:

INTERNAL

heart rhythm disorders (tachycardia, palpitations, extrasystoles), heart failure, ischemic heart disease, angina pectoris, myocardial infarction, hypertension, cardiac sclerosis, cardiovascular disease.

INGREDIENTS:

hawthorn fruit.

HIBISCUS

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- antihypertensive,
- diuretic,
- antiseptic,
- expectorant
- antioxidant.

EFFECTIVE FOR:

INTERNAL

high blood pressure, edemas and respiratory disorders.

INGREDIENTS:

hibiscus flowers.

HORSETAIL

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- diuretic,
- haemostatic,
- urinary antiseptic,
- anti-inflammatory,
- remineralizer,
- lowers acid levels,
- bronchodilator,
- stimulates the synthesis of collagen.

EXTERNAL

- anti-inflammatory,
- cicatrizing,
- haemostatic,
- antiperspirant,
- antimicrobial,
- stimulates hair growth.

EFFECTIVE FOR:

INTERNAL

edema, urinary infections, haemorrhages, osteoporosis, chronic polyarthritis, arthritis and bone fractures, hyperacid gastritis, gastric ulcer.

EXTERNAL

contusions (swells, bruises), venous ulcer, wounds, eczema, frostbites, hemorrhoids, nosebleed, osteoarthritis, bone fractures, excessive sweating, dandruff and hair loss.

INGREDIENTS:

horsetail - aerial parts.

LADY'S BEDSTRAW

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- regulates thyroid activity,
- mild sedative,
- antispasmodic,
- diuretic and urinary antiseptic.

EXTERNAL

- antiseptic
- cicatrisant.

EFFECTIVE FOR:

INTERNAL

hyper- and hypothyroidism, thyroid nodules, vocal cord paralysis, laryngitis, laryngeal tumors, thyroid and parathyroid, neuroses, hysteria and urinary diseases.

EXTERNAL

wounds, dermatitis, psoriasis.

INGREDIENTS:

lady's bedstraw aerial parts.

LADY'S MANTLE

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- antihemorrhagic,
- female hormone regulator,
- antispasmodic,
- antidiarrheal,
- tonifies the uterine muscles.

EXTERNAL

- astringent,
- haemostatic,
- cicatrisant,
- antiseptic.

EFFECTIVE FOR:

INTERNAL

hemorrhages, uterine hemorrhages, heavy periods, premenstrual syndrome, dysmenorrhea (menstrual pain), infertility in women, diarrhea.

EXTERNAL

leukorrhea, anal fissures, hemorrhoids, nosebleed.

INGREDIENTS:

lady's mantle aerial parts.

LAVENDER

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- sedative,
- antidepressant,
- anxiolytic,
- antispasmodic,
- antimicrobial,
- antifungal (on Candida albicans).

EXTERNAL

- analgesic,
- anti-inflammatory,
- antimicrobial,
- stimulates hair growth.

EFFECTIVE FOR:

INTERNAL

anxiety, agitation, irritability, psychic tension, panic attacks, depression, migraines, headaches, nervous cardiovascular disorders, intestinal disorders caused by stress, diarrhea caused by stress.

EXTERNAL

wounds, burns, oral hygiene, acne, mycosis (especially candidiasis), eliminating the pains that occurs after birth (perianal pains), anal fissures, leukorrhea, muscle spasms, dandruff, hair loss, alopecia.

INGREDIENTS:

lavender flowers.

LEMON BALM

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- psycho-emotional regulator,
- sedative,
- antispasmodic
- antithyroid
- memory stimulant,

EFFECTIVE FOR:

INTERNAL

nervousness, stress, anxiety, heart neurosis, neurovegetative dystonias, headaches, migraines, vertigo, hyperthyroidism.

INGREDIENTS:

lemon balm aerial parts.

MILK THISTLE

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- prevents hepatotoxicity (toxicity of the liver),
- regenerates the liver cells,
- hepatoprotective,
- antitumoral
- antioxidant.

EFFECTIVE FOR:

INTERNAL

acute, chronic, viral, toxic and metabolic hepatitis, liver cirrhosis, hepatic insufficiency (liver failure), hepatic tumors, mushroom poisoning or hepatotoxic poisoning from medication

INGREDIENTS:

milk thistle fruit

MINT

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- intestinal and respiratory antiseptic,
 - astringent,
 - antidiarrheal,
 - antispasmodic,
 - digestive tonic,
 - choleric and cholagogue,
 - carminative,
 - antiemetic,
 - secretolytic,
 - decongestant of the airways and bronchodilator,
 - light anesthetic,
 - light sedative.
- #### EXTERNAL
- decongestant of the sinuses,
 - anti-inflammatory, analgesic,
 - light anesthetic,
 - disinfectant,
 - antipruritic, antimycotic, anti-infective.

EFFECTIVE FOR:

INTERNAL

diarrhea, gastrointestinal infection, fermenting dysentery, slow digestion, intestinal colics, enterocolitis, respiratory disorders (bronchitis, laryngitis, tracheobronchitis, whooping cough, influenza), halitosis, nausea and feeling of vomit.

EXTERNAL

pharyngitis (as analgesic), pruritus (itching), urticaria and for the hygiene of the oral cavity.

INGREDIENTS:

mint aerial parts.

NETTLE

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- antianemic,
- haematopoietic,
- diuretic,
- depurative,
- haemostatic,
- 5- α -reductase inhibitor,
- general tonic.

EXTERNAL

- stimulates hair growth.

EFFECTIVE FOR:

INTERNAL

anemia, asthenia, edemas, gout, hyperuricemia, prostate adenoma, convalescence, geriatrics.

EXTERNAL

dandruff, hair loss and alopecia.

INGREDIENTS:

nettle aerial parts.

PLANTAGO

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- antitussive,
- emollient and expectorant,
- respiratory tract decongestant,
- anti-inflammatory and antiseptic,
- gastroprotective and antiulcer,
- antidiarrhoeal,
- diuretic.

EXTERNAL

- cicatrising,
- anti-inflammatory,
- emollient,
- vulnerary.

EFFECTIVE FOR:

INTERNAL

various coughs, acute and chronic bronchitides, tracheitides, tracheobronchitides, bronchial catarrh, hyperacid gastritides, gastric ulcer, diarrhoea.

EXTERNAL

skin disorders (wounds, ulcerations, furuncles), insect bites, haemorrhoids, anal fissures, oral cavity and pharyngeal disorders (stomatitides, pharyngitides), eye disorders (conjunctivitides, blepharitides).

INGREDIENTS:

Plantago leaves.

RASPBERRY TREE

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- hypoacidifying,
- cicatrisant,
- astringent,
- antidiarrheal,
- haemostatic and diuretic.

EXTERNAL

- astringent,
- antiseptic,
- cicatrisant.

EFFECTIVE FOR:

INTERNAL

diarrhea, enterocolitis, hyperacid gastritis, gastric and duodenal ulcer.

EXTERNAL

eczema, rash, superficial wounds, stomatitis.

INGREDIENTS:

raspberry leaves.

ROSEHIP

Simple herbal tea 50 g

ACTIONS/BENEFITS:

- general tonic
- vitaminizing
- helps increasing body strenght,
- antioxidant.

EFFECTIVE FOR:

- hypovitaminosis,
- asthenia, anemia,
- fatigue, exhaustion and tiredness,
- convalescence,
- undernourishment.

INGREDIENTS:

rosehip fruits.

SAGE

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- reduces menopause symptoms (night sweats and hot flashes),
- estrogen and emenagogue,
- anti-inflammatory and antispasmodic,
- antilactagogue (stops milk secretion),
- antiperspirant,
- mental stimulant, improves memory,
- choleric and carminative,
- antitussive,
- antioxidant.

EXTERNAL

- anti-inflammatory,
- antiseptic,
- local hemostatic,
- antiperspirant,
- cicatrising.

EFFECTIVE FOR:

INTERNAL

menopause, dysmenorrhea, irregular menstruation, to stop milk secretion (weaning), hyperhidrosis (excessive sweating), mental and intellectual overwork, memory disorders, gastrointestinal colic, biliary dyskinesia, flatulence (bloating), chronic bronchitis, respiratory viruses.

EXTERNAL

gingivitis, stomatitis, aphthous ulcers, bleeding gums, wounds, dermatitis, palmoplantar dyshidrosis, hyperhidrosis (excessive sweating).

INGREDIENTS:

sage aerial parts.

SEA-BUCKTHORN

Simple herbal tea 50 g

ACTIONS/BENEFITS:

- vitamin booster due to its content rich in vitamin C, as well as other vitamins: B1, B2, E, P, PP and provitamins of vitamin D;
- remineralization effect, due to mineral salts of: Ca, Mg, K, Fe, Na, etc.;
- antiasthenic;
- increase body strenght;
- strong antioxidant - neutralizes free radicals due to the following bioactive substances: vitamins (C, E, PP), carotenoids, flavonols, phenolic acids and trans-resveratrol.

EFFECTIVE FOR:

- vitamin and mineral deficiencies;
- asthenia, anemia;
- fatigue, weakness and exhaustion;
- convalescence and geriatrics

INGREDIENTS:

Sea Buckthorn fruits.

SMALLFLOWER HAIRY WILLOWHERB

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- anti-inflammatory and decongestant at the prostate level,
- diuretic,
- depurative,
- tissue regenerative, especially for the prostate and kidneys.

EFFECTIVE FOR:

INTERNAL

prostatitis, benign prostate hypertrophy (prostate adenoma), disorders of the kidneys and the urinary tract, urinary disorders.

INGREDIENTS:

smallflower hairy willowherb aerial parts.

SPINY COCKLEBUR

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- anti-inflammatory (decongestant) at the level of the prostate,
- cicatrisant,
- diuretic,
- urinary antiseptic (acts against colibacillus and Proteus vulgaris).

EFFECTIVE FOR:

INTERNAL

benign prostate hypertrophy (prostate adenoma), prostatitis, urinary infections with colibacillus and Proteus vulgaris.

INGREDIENTS:

spiny cocklebur aerial parts.

ST JOHN'S WORT

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- anxiolytic,
- antidepressant,
- cicatrisant,
- cholaretic,
- cholagogue,
- stimulates the hepatic functions,
- antispasmodic,
- anti-inflammatory
- antidiarrheal.

EXTERNAL

- cicatrisant,
- anti-inflammatory,
- disinfectant,
- antimicrobial,
- haemostatic.

EFFECTIVE FOR:

INTERNAL

anxiety syndromes, depression, night terror (fear, horror), nightmares, hyperacid gastritis, peptic and duodenal ulcer, gallbladder disorder (biliary dyskinesia), colitis, enterocolitis, cholecystitis, acute and chronic hepatitis, hepatobiliary colics, abdominal cramps, diarrhea, neurovegetative dystonia.

EXTERNAL

gingivitis, dental abscess, wounds, superficial (1st degree) burns, dermatitis, superficial injuries, hemorrhoids, irritated facial skin.

INGREDIENTS:

St John's wort aerial parts.

VIOLA TRICOLOR

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- antiallergic,
- depurative,
- expectorant,
- diuretic.

EXTERNAL

- antiallergic,
- antipruritic,
- emollient,
- anti-inflammatory.

EFFECTIVE FOR:

INTERNAL

allergies, asthmatic bronchitis, allergodermia, catarrh of the airways, nephritis, edemas.

EXTERNAL

wounds, ulcers, psoriasis, eczema, acne.

INGREDIENTS:

viola tricolor aerial parts.

YARROW

Simple herbal tea 50 g

ACTIONS/BENEFITS:

INTERNAL

- anti-inflammatory,
- antispasmodic,
- antimicrobial,
- haemostatic,
- digestive tonic,
- stimulates the hepatic and digestive functions.

EXTERNAL

- anti-inflammatory,
- cicatrisant,
- haemostatic,
- antimicrobial,
- antipruritic.

EFFECTIVE FOR:

INTERNAL

anorexia, indigestion, gastrointestinal diseases with a spasmodic component (abdominal cramps, biliary colics), colitis, enterocolitis, gallbladder disorder, meteorism (bloating), hyperacid gastritis, peptic and duodenal ulcer, menstrual pain, internal bleeding, pelvic inflammatory disease.

EXTERNAL

wounds, superficial (1st degree) burns, bleeding hemorrhoids, anorectal lesions, nosebleed, venous ulcer, vulvar itching, insect bites.

INGREDIENTS:

yarrow aerial parts.

PREP MODES

POWDER

Finely grind the herbal powder with an electric grinder and then sieve it through a fine sieve. Take a teaspoon of powder four times a day on empty stomach. The powder should be kept under tongue for 10-15 minutes and then swallowed with water.

COLD MACERATE

Is prepared by adding a spoonful of herb to 250 ml of water; keep it for 6-8 hours at room temperature, then strain it and drink it on empty stomach. For therapies, take 3 cups of macerate per day, 30 minutes before meals.

INFUSION

Is prepared by adding a spoonful of herb to 250 ml of boiling water; keep it for 15 minutes at room temperature, then strain it and drink it on empty stomach. For therapies, take 3 cups of infusion per day, 30 minutes before meals.

DECOCTION

Is prepared by adding a spoonful of herb to 250 ml of boiling water; simmer it for 15 minutes, then leave it to cool, strain it and drink it on empty stomach. For therapies, take 3 cups of decoction per day, 30 minutes before meals.

Discover Dacia Plant's medicinal teas

- No termical or chemical preparation.
- No dyes, preservatives, flavours or artificial sweeteners.
- Best therapeutical efficiency due to the sinergical action of the plants in the composition.
- Plants taste and properties are kept unaltered, due to a cutting technique instead of grinding the plants.

DACIA PLANT®
THE HEALTHFUL POWER OF HERBS

Herbal mixtures tea

Our herbs have not been thermally or chemically treated. Thanks to our special technique of chopping the herbs instead of grinding them, they maintain their taste and therapeutic qualities unaltered. Our tea mixtures comply with the European quality standards and do not contain any artificial colours, preservatives, flavours or sweeteners.

Dacia Plant brand

Our recipes were created and tested along the years by Dr. Ovidiu Bojor, Romania's top expert in phytotherapy. The therapeutic efficiency of our herbal teas is greatly amplified by the synergic action of their ingredients.

EXPECTORANT

Herbal mixture tea 50g

Respiratory tract decongestant

ACTIONS/BENEFITS:

- expectorant,
- antitussive (cough suppressant),
- antispasmodic,
- anti-inflammatory,
- antiseptic,
- respiratory tract decongestant.

EFFECTIVE FOR:

Productive cough, dry cough, bronchitis, asthmatic bronchitis, bronchial catarrh, common cold and flu.

INGREDIENTS:

Common marshmallow – root (20%), pine – buds (20%), mint – aerial parts (15%), anise – fruit (10%), liquorice – root (10%), Iceland moss – thallus (10%), flat sea holly – aerial parts (10%), lavender – flowers (5%).

GLICEMONORM

Herbal mixture tea 50g

Glycemia within limits

ACTIONS/BENEFITS:

- decreases blood sugar and cholesterol levels.

EFFECTIVE FOR:

Type 1 and type 2 diabetes, diabetes complications (diabetic retinopathy), diabetic arthritis, diabetic peripheral neuropathy, etc.), hyperglycemia and hypercholesterolemia.

INGREDIENTS:

Mulberry – leaves (20%), blueberry – leaves (20%), dandelion – aerial parts (20%), greater burdock - root (10%), nettle – aerial parts (10%), common bean – pods (10%), birch – leaves (10%).

GLICEMONORM FORTE

Herbal mixture tea 50g

Glycemia within limits

ACTIONS/BENEFITS:

- decreases blood sugar level.

EFFECTIVE FOR:

Hyperglycemia, type 1 and type 2 diabetes mellitus, complications of diabetes mellitus (diabetic retinopathy, diabetic arthritis, diabetic peripheral neuropathy, etc.).

INGREDIENTS:

Bitter melon – fruit (30%), blueberry – leaves (20%), black mulberry - (20%), olive – leaves (20%), common bean – pods (10%).

HEALTHY GALLBLADDER

Herbal mixture tea 50g

Healthy gallbladder

ACTIONS/BENEFITS:

- choleric (stimulates biliary secretion),
- cholagogue (stimulates biliary flow),
- triggers the contractions of the gallbladder in order to release the bile,
- antispasmodic,
- anti-inflammatory,
- protects the liver and regenerates the liver cells.

EFFECTIVE FOR:

Gallbladder disorder (biliary dyskinesia), acute and chronic inflammation of the gallbladder (cholecystitis), hepatobiliary colics, inflammation of the bile ducts, hepatic insufficiency (liver failure), hepatitis and liver cirrhosis.

INGREDIENTS:

Chicory - root (25%), artichoke – leaves (20%), boldo – leaves (20%), dandelion – leaves (20%), greater celandine – aerial parts (10%), common centaury – aerial parts.

HEALTHY HEART

Herbal mixture tea 50g

Better coronarian flux, tonus and cardiac function

ACTIONS/BENEFITS:

- coronary and peripheral vasodilator,
- antianginal,
- antiarrhythmic,
- heart tonic,
- antihypertensive,
- sedative,
- anxiolytic,
- antidepressant.

EFFECTIVE FOR:

Stress related cardiovascular diseases, neurovegetative dystonia with palpitations, anxiety, fluctuating blood pressure and insomnia, ischemic heart disease, angina, cardiac arrhythmia and high blood pressure.

INGREDIENTS:

Hawthorn – fruit (30%), valerian – root (20%), lemon balm – aerial parts (10%), motherwort – aerial parts (10%), marjoram – aerial parts (10%), lavender – flowers (10%), horehound – aerial parts (10%).

HEALTHY KIDNEYS

Herbal mixture tea 50g

Healthy kidneys

ACTIONS/BENEFITS:

- diuretic,
- uricosuric, urinary antiseptic,
- antispasmodic,
- anti-inflammatory,
- urinary lithotriptic.

EFFECTIVE FOR:

Edema, anuria, oliguria, infections and inflammations of the urinary tract (cystitis, pyelonephritis), urinary microlithiasis, gout and the entero-renal syndrome.

INGREDIENTS:

Cherries – stalks (20%), horsetail – aerial parts (20%), juniper – fruit (20%), cranberries – leaves (20%), birch – leaves (20%).

HEALTHY LIVER

Herbal mixture tea 50g

Hepatic functions aid

ACTIONS/BENEFITS:

- protects the liver,
- stimulates the hepatic functions,
- antiviral,
- immunostimulant,
- stimulates the secretion of interferon.

EFFECTIVE FOR:

Acute and chronic hepatitis, viral, toxic and metabolic hepatitis, hepatic insufficiency (liver failure) and liver cirrhosis.

INGREDIENTS:

Astragalus – root (30%), greater burdock – root (20%), dandelion – root (20%), ganoderma – mycelium (15%), elecampane – root (15%).

HEALTHY PROSTATE

Herbal mixture tea 50g

Healthy prostate

ACTIONS/BENEFITS:

- prostate decongestant and antitumoral,
- 5- α -reductase inhibitor,
- antiandrogen,
- regenerative of the prostate tissues.

EFFECTIVE FOR:

Benign prostatic hyperplasia, prostate adenoma and prostatitis.

INGREDIENTS:

Smallflower hairy willowherb - aerial parts (50%), saw palmetto – fruit (30%), spiny cocklebur – aerial parts (20%).

HEALTHY RESPIRATORY TRACT

Herbal mixture tea 50g

Respiratory function aid

ACTIONS/BENEFITS:

- antiseptic and respiratory tract decongestant,
- expectorant,
- liquefies bronchial secretions,
- bronchodilator,
- antispasmodic,
- anti-inflammatory.

EFFECTIVE FOR:

Bronchitis, tracheitis, tracheobronchitis, bronchial catarrh, coughs of various causes, common cold and flu.

INGREDIENTS:

Pine – buds (20%), wild thyme – aerial parts (15%), eucalyptus – leaves (15%), hyssop – aerial parts (15%), poplar – buds (15%), star anise – fruit (15%), long pepper – fruit (7%), mint – aerial parts (5%).

HEALTHY STOMACH

Herbal mixture tea 50g

Gastric secretion normalization

ACTIONS/BENEFITS:

- decreases acid levels,
- cicatrissant,
- antiulcerous effects,
- antispasmodic,
- anti-inflammatory.

EFFECTIVE FOR:

Hyperacid gastritis, gastroduodenitis, reflux esophagitis, gastric and duodenal ulcer.

INGREDIENTS:

Acacia – flowers (30%), lemon balm – aerial parts (20%), yarrow – aerial parts (10%), calendula – flowers (10%), camomile – flowers (10%), St John's wort – aerial parts (10%), raspberry – leaves (10%).

HEALTHY VEINS

Herbal mixture tea 50g

Vein tonus improvement

ACTIONS/BENEFITS:

- increases the resistance of the blood capillaries,
- increases the venous and lymphatic flow,
- reduces liquid retention,
- vein tonic,
- anti-coagulant,
- antiplatelet agent,
- anti-inflammatory,
- diuretic.

EFFECTIVE FOR:

Vascular diseases (varicose veins, haemorrhoids, phlebitis, thrombosis, thrombophlebitis, chronic venous insufficiency, capillary fragility), edema at the level of the lower limbs, lymphatic congestion.

INGREDIENTS:

Yellow melilot – aerial parts (40%), meadowsweet – aerial parts (30%), citrus fruit – zest (10%), ginkgo biloba – leaves (10%), buckwheat – seeds (10%).

HEPATIC TEA

Herbal mixture tea 50g

Hepatic cells regeneration

ACTIONS/BENEFITS:

- tonifies and protects the liver,
- regenerates the liver cells,
- prevents hepatotoxicity (toxicity of the liver),
- choleric (stimulates biliary secretion),
- cholagogue (stimulates biliary flow),
- lowers cholesterol levels,
- decreases hyperlipidemia (the production of lipids in the blood),
- antispasmodic,
- anti-inflammatory,
- digestive tonic.

EFFECTIVE FOR:

Chronic and acute hepatitis, hepatic insufficiency, cirrhosis, steatosis (fatty liver), biliary dyskinesia (gallbladder disorder), acute and chronic cholecystitis (inflammation of the gallbladder), hepatobiliary colics, gastrointestinal spasm, anorexia, hypercholesterolemia and hyperlipidemia.

INGREDIENTS:

Artichoke – leaves (20%), St John's wort – aerial parts (20%), anise – fruit (10%), milk thistle – fruit (10%), yarrow – aerial parts (10%), mint – leaves (10%), greater celandine – aerial parts (10%), dandelion – leaves (5%), common knotgrass – aerial parts (5%).

HIPOSENSIN

Herbal mixture tea 50g

Blood pressure within limits

ACTIONS/BENEFITS:

- antihypertensive,
- coronary and peripheral vasodilator,
- antiarrhythmic,
- cardiotonic,
- sedative.

EFFECTIVE FOR:

Arterial hypertension, fluctuating blood pressure, arterial hypotension, cardiac arrhythmia, angina pectoris, ischemic heart disease, cardiac insufficiency, stress related cardiovascular diseases.

INGREDIENTS:

Hawthorn – fruit (30%), melilot – aerial parts (20%), mistletoe – leaves (10%), lemon balm – aerial parts (10%), motherwort – aerial parts (10%), shepherd's-purse – aerial parts (10%).

LAXEN

Herbal mixture tea 50g

No constipation

ACTIONS/BENEFITS:

- laxative.

EFFECTIVE FOR:

Acute and chronic constipation.

INGREDIENTS:

Alder buckthorn – bark (50%), chicory – root (10%), fennel – fruit (10%), liquorice – root (10%), lemon balm – aerial parts (10%), senna – aerial parts (10%).

NORMOCHOLESTEROL

Herbal mixture tea 50g

Cholesterol within limits

ACTIONS/BENEFITS:

- lowers cholesterol and triglyceride levels.

EFFECTIVE FOR:

High cholesterol levels, high triglyceride levels, atherosclerosis and obliterating arteritis.

INGREDIENTS:

Artichoke – leaves (20%), birch – leaves (20%), dandelion – leaves (20%), garden angelica – root (10%), greater burdock – root (10%), chicory – root (10%), melilot – aerial parts (10%).

PERFECT DIGESTION

Herbal mixture tea 50g

Digestive function aid

ACTIONS/BENEFITS:

- increases digestive capacity,
- stimulates gastric and intestinal secretions,
- carminative (prevents flatulence),
- choleric (stimulates biliary secretion),
- cholagogue (stimulates biliary flow).

EFFECTIVE FOR:

Poor digestion, bloating, dyspepsia, indigestion and anorexia.

INGREDIENTS:

Coriander – fruit (30%), caraway – fruit (20%), fennel – fruit (20%), bay – leaves (10%), ginger – root (10%), mint – aerial parts (10%).

SOMNOFORT

Herbal mixture tea 50g

Better sleep quality and duration

ACTIONS/BENEFITS:

- sedative,
- anxiolytic,
- antidepressant,
- psycho-emotional stabilizer and papaverine-type spasmolytic.

EFFECTIVE FOR:

Nervous tension, irritability, neurosis, depression, anxiety, insomnia, emotional disorders, panic attack, tics, convulsions, muscular spasm, neurovegetative dystonia, stress, neurotic-based cardiovascular diseases, stress-based gastritis and gastric ulcer, gastrointestinal spasms, trembles of various origins.

INGREDIENTS:

Passiflora – flowers (30%), hop – cones (20%), valerian – root (20%), lavender – flowers (10%), lemon balm – aerial parts (10%), verbena – aerial parts (10%).

SWEDISH BITTER

Herbal mixture tea 50g

Universal remedy

ACTIONS/BENEFITS:

- tonifies the liver and the digestion,
- protects the liver,
- stimulates biliary secretion,
- cholagogue,
- anti inflammatory,
- antispasmodic,
- antimicrobial,
- diuretic,
- depurative,
- lowers cholesterol levels,
- lowers lipids level,
- digestive antiseptic.

EFFECTIVE FOR:

Anorexia, indigestion, difficult digestion, gallbladder disorder (biliary dyskinesia), inflammation of the gallbladder (cholecystitis), hypercholesterolemia, hyperlipidemia, obesity, intestinal infections, flu, viral infections (coughing, sore throat, runny nose, sneezing), chronic intoxication, acne, skin diseases, tiredness, convalescence, geriatrics.

INGREDIENTS:

Hyssopus – aerial parts, garden angelica – roots, milk thistle – fruit, greater burdock – roots, basil – aerial parts, cardamom – seeds, caraway – fruit, wild thyme – leaves, coriander – seeds, cloves – buds, bay – leaves, fennel – fruit, ash – leaves, calendula officinalis – flowers, gentiana – roots, spiny cocklebur – aerial parts, lemongrass – aerial parts, juniper – fruit, marjoram – leaves, chamomile – flowers, dandelion – leaves, wormwood – aerial parts, black poplar – buds, greater celandine – aerial parts, rosemary – aerial parts, flat sea holly – aerial parts, Chinese cinnamon (cassia) – bark, senna – aerial parts, common knotgrass – aerial parts, common centaury – aerial parts, nettle – aerial parts, ginger – root.

WEIGHT LOSS TEA

Herbal mixture tea 50g

Body weight control

ACTIONS/BENEFITS:

- maintain body weight within normal limits,
- maintain food appetite and assimilation within normal limits.

EFFECTIVE FOR:

It is used as an adjuvant in obesity.

INGREDIENTS:

basil - aerial parts (25%); green tea - leaves (25%); lemon grass - aerial parts (20%); hibiscus - flowers (15%); Lovage - leaves (10%); black elder - flowers (5%).

The therapeutic teas are carefully-dosed mixes made of the best-quality curative plants, designed to support the health of the body. All teas were studied, created and tested by **Acad. Farm. Dr. Ovidiu Bojor**, the founder of modern phytotherapy in Romania. Their high efficiency is due to the synergic action of the plants in their structure; moreover, plants are not thermally or chemically treated and are not ground.

The teas are made of 100% natural ingredients; they do not contain colouring agents, preservatives, artificial flavours or sweeteners.

Dacia Plant teas support the body during longer periods and improve certain nutritional imbalances. Used since the oldest of times, curative plants still enjoy a large-scale use, being preferred by the connoisseurs and by all those seeking regular and gentle methods of health maintenance.

Dacia Plant teas are the guarantee of quality medicinal teas.

Dr. O. Bojor

Tablets

Produced according to traditional recipes combined with clinical research and the latest scientific discoveries.

brands: *Citonat*,
Interferonat and *Dacia Plant*.

Tens of kilos of carefully selected herbs, concentrated in standardised extracts of the highest quality, have yielded these most powerful and effective tablets. Our tablets guarantee consistent efficiency, while retaining the qualities of the active ingredients found in the fresh herbs, which have not been treated chemically or thermally.

CITONAT

150 tabs

Natural cell protection

ACTIONS/BENEFITS:

antitumor (inhibits tumor growth, inhibits nuclear kappa B cell factor), antimutagenic, immunostimulant, radioprotective, antioxidant, stimulates the secretion of: interferon, tumor necrosis factor (TNF- α), interleukins 1,2,8, B lymphocytes, cells NK (natural killer), suppressor T cells and macrophages, reduce the side effects of chemotherapy.

EFFECTIVE FOR:

tumors of various location, chemotherapy and radiotherapy, viral infections (especially viral chronic hepatitis), irradiation, immunodeficiency.

INGREDIENTS:

cordyceps extract - 200 mg, ganoderma extract - 200 mg, agaricus extract - 100 mg, ashwagandha roots - 100 mg, astragalus extract - 100 mg, oldenlandia extract - 100 mg, greater celandine aerial parts - 100 mg, goji extract - 50 mg, coriolus extract - 50 mg.

BIOACTIVE SUBSTANCES:

cordycepin, triterpenic lanostanoids, polysaccharides, flavonoids.

INTERFERONAT

120 tabs

Natural stimulant for interferon synthesis

ACTIONS/BENEFITS:

stimulates the secretion of: interferon, TNF- α , interleukin IL -1 β , IL-8, IL -10, IL -12, B lymphocyte, NK cells (natural killer), regulatory and macrophage T cells; normalizes the function of the liver for persons with B hepatitis; balances the level of transaminases; reduces the liver's tendency to fibrose; immunostimulant, antiviral, hepatoprotective, regenerates the liver cells, prevents hepatotoxicity.

EFFECTIVE FOR:

A, B, C, D and E hepatitis, fatty liver, toxic hepatitis, cirrhosis and liver tumors, hepatic insufficiency, viral infections, immunodeficiency.

INGREDIENTS:

milk thistle extract - 200 mg, astragalus extract - 150 mg, schisandra chinensis extract - 150 mg, agaricus extract - 100 mg, ganoderma extract - 100 mg, noni extract - 75 mg, aloe extract - 50 mg, fennel essential oil - 0,11 mg. One tablet contains 160 mg silymarin.

BIOACTIVE SUBSTANCES:

silymarin, isoflavones, astramembranins, astragalans, schisandrins, flavonoids, polysaccharides.

Strong points of Dacia Plant products:

- Invented, tested and manufactured in Romania.
- 100% natural, no preservatives, dyes or artificial sweeteners.
- No side effects.
- The natural ingredients are scientifically studied and tested.
- Help the body quickly rebalance and return to a proper functioning state.
- Optimal amount content of active substances for immediate and lasting effects.
- Plants are harvested and kept in maximum safety and standardized extracts.
- Based on complex recipes created by phytotherapy specialists.
- Structured in brands dedicated to different categories of people, for a fair and fast choice.

120
TABLETS
AT THE PRICE OF 60

AGARICUS

60 tabs

Natural cell protection

ACTIONS/BENEFITS:

powerful immunostimulant (stimulates the secretion of interferon, TNF- α , interleukina IL-8, B lymphocyte, natural killer cells, macrophage and regulatory T cells), antitumoral (produces the apoptosis of tumoral cells and inhibits angiogenesis), antimutagenic, antiviral, normalizes the function of the liver for patients with B hepatitis.

EFFECTIVE FOR:

tumors of various location, low immunity, viral infections and viral hepatitis.

INGREDIENTS:

Agaricus blazei extract with 20% polysaccharides - 500 mg.

BIOACTIVE SUBSTANCES:

polysaccharides (α -1,4-D-glucan, α -1,6-D-glucan, β -1,3-D-glucan), steroids (ergosterol, blazein), glucomanan, proteoglucans, riboglucan and amino acids.

ALOE VERA

60 tabs

Detox and regeneration

ACTIONS/BENEFITS:

laxative, detoxifier of the gastrointestinal tract, hepatoprotective, cellular regenerative, immunostimulant, antitumor.

EFFECTIVE FOR:

hepatitis, hepatic cirrhosis, constipation, tumors.

INGREDIENTS:

Aloe extract 20:1 - 450 mg.

BIOACTIVE SUBSTANCES:

Aloin A and B, aloeresin A and B, aloe emodin, polysaccharides, polypeptides.

ANTISTRES

60 tabs

Smiling and relaxed

ACTIONS/BENEFITS:

adaptogenic, mild sedative, mild anxiolytic and antidepressant, fortifier, psycho-emotional regulator, psychic rejuvenation.

EFFECTIVE FOR:

states of stress with anxiety, agitation, nervousness, depression, overexertion, irritability, insomnia.

INGREDIENTS:

siberian ginseng - 15: 1 hydroethanolic extract with 0.8% eleutherosides from the roots (75 mg); passiflora - 4: 1 hydroethanolic extract from flowers (60 mg); St. John's wort - hydroethanolic extract with 0.3% hypericin from aerial parts (60 mg); motherwort - 10: 1 hydroethanolic extract from aerial parts (50 mg); lavender - 10: 1 hydroethanolic extract from flowers (50 mg); linden - 10: 1 hydroethanolic extract from flowers (50 mg); essential oils [lavender (5 mg), lemon (5 mg), lemon balm (5 mg)].

BIOACTIVE SUBSTANCES:

hypericin, ginsenosides, maltol, Ethyl maltol and essential oils.

ANTIVIRAL

60 tabs

Maximum protection

ACTIONS/BENEFITS:

antiviral and immunostimulant.

EFFECTIVE FOR:

common colds (coughing, sore throat, runny nose, sneezing), viral hepatitis, relapsing urinary infections, viral genital infections (papillomavirus, herpes simplex type 2), viral skin infections (herpes simplex type 1, condyloma, herpes zoster), meningitis, immunodeficiency.

INGREDIENTS:

astragalus - 10: 1 hydroalcoholic extract from the root (150 mg); anise - fruit (125 mg); propolis (100 mg); seagrass - roots (75 mg); echinacea - 10: 1 hydroalcoholic extract from aerial parts (50 mg); essential oils of [tea-tree (4 mg), thyme (1 mg)].

BIOACTIVE SUBSTANCES:

astragalans I, II, III, astramembranins I, II, bassorin, tragacanthin, polyholosides.

WARNINGS:

contains propolis and lactose.

**ARTICHOKE**

60 tabs

Healthy gallbladder

ACTIONS/BENEFITS:

choleretic, cholagogue, hepatoprotective, lowers cholesterol levels, hypolipemiant.

EFFECTIVE FOR:

biliary dyskinesia, cholecystitis, angiocholitis, hepatic insufficiency, hepatitis, fatty liver, hypercholesterolemia, hypertriglyceridemia.

INGREDIENTS:

artichoke leaves 150 mg, artichoke extract 5:1 - 150 mg.

BIOACTIVE SUBSTANCES:

cynarine, cynaropicrin, grosheimin, cynarotriol.

**ARTICHOKE, WILD GARLIC AND BLACK RADISH**

60 tabs

No fat!

ACTIONS/BENEFITS:

reduces body fat, lowers cholesterol levels, hypolipemiant, antiatherosclerotic, choleretic, cholagogue, hepatoprotective, liver detoxifier, antioxidant, diuretic (with elimination of uric acid), depurative.

EFFECTIVE FOR:

overweight, obesity, hypercholesterolemia, hyperlipidaemia, fatty liver, atherosclerosis, gallbladder disorder (biliary dyskinesia), chronic cholecystitis, bile-caused constipation.

INGREDIENTS:

artichoke extract with 2,5% cynarine - 250 mg, wild garlic extract 6:1 - 200 mg, black radish extract 6:1 - 50 mg.

BIOACTIVE SUBSTANCES:

cynarin, cynaropicrin, grosheimin, cynarotriol, thiosulfinate, ajoene, flavonoids, steroidal saponin.

**ASTRAGALUS**

60 tabs

Maximum immunity

ACTIONS/BENEFITS:

strong immunostimulant and antiviral.

EFFECTIVE FOR:

immunodeficiency, common colds (coughing, sore throat, runny nose, sneezing), viral hepatitis, recurring urinary infections, viral genital infections (papillomavirus, herpes simplex type 2), viral skin infections (herpes simplex type 1, condyloma, herpes zoster), meningitis.

INGREDIENTS:

astragalus extract 10:1 - 500 mg, juniper essential oil 1 mg.

BIOACTIVE SUBSTANCES:

isoflavones, astragalans I, II and III, astramembranins I, II.

**BOSWELLIA**

60 tabs

For healthy joints

ACTIONS/BENEFITS:

anti-inflammatory and analgesic, lithotriptytic (dissolves gallstones and kidney stones), reduces gastrointestinal inflammation and tissue damage that occur in ulcerative colitis and Crohn's disease.

EFFECTIVE FOR:

rheumatic, joint and muscle pain; back pain; chronic degenerative rheumatism, neuralgia, gallstones and kidney stones, ulcerative colitis and Crohn's disease, brain tumors.

INGREDIENTS:

boswellia extract 10:1 - 500 mg.

BIOACTIVE SUBSTANCES:

α and β boswellic acids.

CALMINDOLOR

60 tabs

No pain

ACTIONS/BENEFITS:
anti-inflammatory and analgesic.

EFFECTIVE FOR:
headache, cold, osteo-articular pain, back pain, neuralgia, menstrual pain, dental pain, rheumatism, spondylosis, contusions, sprains, dislocations, muscle pains, neuralgia, torticollis.

INGREDIENTS:
boswellia extract 10:1 - 125 mg, harpagophytum extract 4:1 - 125 mg, meadowsweet 75 mg, willow 75 mg, ginger 50 mg, rosemary 45 mg, juniper essential oil 5 mg.

BIOACTIVE SUBSTANCES:
 α and β boswellic acids, iridoids (harpagoside, procumbide, harpagide), glycosides of salicylic alcohol (salicin, salicortozidă) and of salicylic acid derivatives (monotropitocide).

WARNINGS:
lactose content.

CO Q10 FORTE

60 masticable tabs

Fortified heart

ACTIONS/BENEFITS:
energiser, increases the ATP level, antioxidant, prevents the oxidation of "bad" cholesterol (LDL cholesterol), neutralises free radicals, stops the evolution of degenerative processes, normalizes heart function.

EFFECTIVE FOR:
cardiovascular disease (chronic heart failure, cardiac arrhythmias, myocardial infarction, angina pectoris, mitral valve prolapse, coronary heart disease, high blood pressure), chronic fatigue syndrome, convalescence, geriatrics.

INGREDIENTS:
coenzyme Q10 (ubiquinone) 100 mg, buckthorn extract 10:1 - 150 mg, hawthorn extract 10:1 - 150 mg, bilberry 100 mg, lemon balm essential oil 1 mg, compressible sugar - 600 mg.

BIOACTIVE SUBSTANCES:
ubiquinone.

WARNINGS:
sugar content.

COMMON HOGWEED

60 tabs

Vigour and fertility

ACTIONS/BENEFITS:
increases the vitality and resistance of the body, aphrodisiac, secretory activity stimulation of reproductive glands.

EFFECTIVE FOR:
sexual dysfunction, impotence, frigidity, male and female sterility, menstrual disorders due to deficiency (amenorrhea, hypomenorrhea, oligomenorrhea) ovarian failure, premature menopause, devitalization, fatigue and exhaustion, geriatrics.

INGREDIENTS:
common hogweed 10:1 extract from roots (250 mg); common hogweed aerial parts, roots and seeds (150 mg).

BIOACTIVE SUBSTANCES:
furanocoumarins (bergapten, isobergapten, pimpinellin, isopimpinellin, sphondin).

CRANBERRY

60 tabs

Heathy urinary tract

ACTIONS/BENEFITS:
urinary antiseptic.

EFFECTIVE FOR:
urinary tract infections.

INGREDIENTS:
cranberry leaves and sprouts 350 mg, cranberry fruit extract with 25% anthocyanidins - 100 mg.

BIOACTIVE SUBSTANCES:
arbutoside, methyl arbutoside, arbutin, fraxin, flavonoids, anthocyanidins, tannins.

DETOXIFIER

60 tabs

Maximum detox

ACTIONS/BENEFITS:

detoxifying, depurative, diuretic, laxative, diaphoretic.

EFFECTIVE FOR:

body detox, constipation, edema, gout, various chronic intoxications.

INGREDIENTS:

burdock 150 mg, Viola tricolor 150 mg, senna 75 mg, elderflower 75 mg, garden angelica 25mg, cardamom 25mg, juniper essential oil 2 mg, sage essential oil 2 mg.

BIOACTIVE SUBSTANCES:

senosides A and B, flavones (rutosides) and saponins.

ECHINACEA FORTE

60 tabs

Maximum immunity

ACTIONS/BENEFITS:

immunostimulant, inhibits hyaluronidase and viral replication.

EFFECTIVE FOR:

immunodeficiency, influenza, respiratory infections, infections that are resistant to antibiotics or relapsing.

INGREDIENTS:

echinacea extract 5:1 - 400 mg, echinacea aerial parts 200 mg, pine essential oil 5 mg.

BIOACTIVE SUBSTANCES:

cichoric acid, polyholosides, essential oil, glycinebetaine, echinacein, echinolone.

FARINGOPLANT

60 masticable tabs

Easy swallow

ACTIONS/BENEFITS:

anti-inflammatory, antimicrobial, antiviral, antimycotic, analgesic and cicatrisant.

EFFECTIVE FOR:

pharyngitis, laryngitis, tonsillitis, respiratory viruses, colds, gingivitis, stomatitis.

INGREDIENTS:

propolis extract 5:1 - 300 mg, buckthorn extract 5:1 - 150 mg, echinacea extract 5:1 - 50 mg, mint essential oil 1 mg, pine essential oil 0,6 mg, compressible sugar.

BIOACTIVE SUBSTANCES:

flavonoids, polyholosides.

WARNINGS:

contains **propolis** and **sugar**.

FITOSENIN

60 tabs

Psycho-emotive protector

ACTIONS/BENEFITS:

psycho-emotional regulator, slightly sedative, antidepressant, anxiolytic, psychically regenerating, antispastic.

EFFECTIVE FOR:

depression, seasonal affective disorder, anxiety, restlessness, irritability, stress.

INGREDIENTS:

st. John's wort - hydroalcoholic extract with 0.3% hypericin from aerial parts (90 mg); verbena - 10: 1 hydroalcoholic extract from the aerial parts (90 mg); angelica - 10: 1 extract from roots (40 mg); basil - aerial parts (40 mg); gentian - 5: 1 root extract (40 mg); calamus - roots (40 mg); passiflora - 4: 1 hydroalcoholic extract of flowers (40 mg); lemon balm - hydroalcoholic extract with 5% rosemary acid from aerial parts (40 mg); fenugreek - seeds (40 mg); valerian - 12:1 alcoholic extract with 0.8% valerian acid from roots (40 mg); essential oils [lavender (5 mg); cinnamon (5 mg)].

BIOACTIVE SUBSTANCES:

essential oils (citronellal, geraniol, limonene, menthone), hypericin.

WARNINGS:

contains **lactose**.

GANODERMA

60 tabs

Regenerating

ACTIONS/BENEFITS:

antitumor (induces apoptosis of tumor cells and inhibits angiogenesis), antiandrogenic (by inhibiting 5- α -reductase and blocking androgen receptors), immunomodulator, antiviral, hepatoprotective.

EFFECTIVE FOR:

tumors of various location, BPH (benign prostatic hypertrophy), viral hepatitis, immunodeficiency.

INGREDIENTS:

ganoderma extract with 20% polysaccharides - 405 mg.

BIOACTIVE SUBSTANCES:

triterpenic lanostanoids, organic germanium, polysaccharides.

GASTROCALM

60 tabs

Gastric patch

ACTIONS/BENEFITS:

gastric dressing.

EFFECTIVE FOR:

hyperacid gastritis, peptic and duodenal ulcer, reflux esophagitis.

INGREDIENTS:

calcium carbonate DC (300 mg); marigold - flowers (50 mg); acacia - flowers (50 mg); licorice - roots (50 mg); calamus - roots (50 mg); raspberry tree - hidroalcoholic extract 4:1 from sprouts (15 mg); essential oils [mint (6 mg); lemon balm (2 mg); cinnamon (2 mg)].

BIOACTIVE SUBSTANCES:

glycyrrhizin, glycyrrhetic acid, flavonoids.

WARNINGS:

contains **lactose**.

GINGER

60 tabs

Easy digestion

ACTIONS/BENEFITS:

increases digestive capacity and reduces bloating, increases appetite, antiemetic and antiviral.

EFFECTIVE FOR:

difficult digestion, bloating, anorexia, nausea and vomiting, motion sickness.

INGREDIENTS:

ginger 400 mg; mint essential oil 0,5 mg; lemon balm essential oil 0,5 mg.

BIOACTIVE SUBSTANCES:

essential oil (consisting of zingiberene, zingerone, gingerol, shogaol).

GINKGO BILOBA

60 tabs

Brain tonic

ACTIONS/BENEFITS:

brain tonic, stimulant of cerebral circulation, mental stimulant, activates energy metabolism at the cortical level.

EFFECTIVE FOR:

cerebral and peripheral circulatory insufficiency, memory disorders at any age, hearing loss, vertigo, sequelae after strokes, head trauma, vascular fragility, geriatrics.

INGREDIENTS:

ginkgo biloba extract with 24% flavone glycosides and 6% terpene lactones - 100 mg, garden angelica 100 mg, basil 50 mg, mint 50 mg, lemon balm 50 mg.

BIOACTIVE SUBSTANCES:

flavonoids, diterpene, sesquiterpene lactones.

GINSENMAX

60 tabs

Maximum energy

ACTIONS/BENEFITS:

vitalizer, vitaminizing, remineralizing, gonadotropic, fertilizing.

EFFECTIVE FOR:

asthenia, anaemia, convalescence, physical debility, diseases of malnutrition, physical or intellectual effort.

INGREDIENTS:

ginseng extract 5% - 250 mg, buckthorn extract 10:1 - 150 mg, pollen 100 mg.

BIOACTIVE SUBSTANCES:

ginsenosides, polyholosides, panaxinol, panaxidol, ginsenoinele A-K, vitamins, minerals, proteins.

WARNINGS:

contains **lactose**.

GLICEMONORM

60 tabs

Glycemia within limits

ACTIONS/BENEFITS:

decreases hepatic gluconeogenesis, increases hepatic glycogen synthesis, increases insulin secretion, enhances glucose uptake and utilization at the cellular level, produces regeneration of pancreatic β -cells and improves pancreatic function.

EFFECTIVE FOR:

hyperglycemia, type II & I diabetes mellitus, complications of diabetes (diabetic retinopathy, diabetic arteritis, diabetic polyneuropathy, renal failure).

INGREDIENTS:

bitter cucumber extract 10:1 - 150 mg, bilberry extract with 25% antocianosides - 100 mg, gudmar extract 5:1 - 100 mg.

BIOACTIVE SUBSTANCES:

myrtilloside A and B, charantin, substance P, gymnemic acids I-VII, gurmamarin, gymnemosides A-F.

GREEN TEA

60 tabs

Body weight control

ACTIONS/BENEFITS:

antioxidant, mildly hypocholesterolemic, helps maintain body weight within normal limits, conducive to elimination of excess fluids retained in the body.

EFFECTIVE FOR:

weight loss diets, edema.

INGREDIENTS:

green tea - extract with 90% polyphenols from leaves (500 mg).

BIOACTIVE SUBSTANCES:

polyphenolic acids (caffeic and chlorogenic acid), gallic, catechic and mixed tannins, polyphenols with tropolonic structure, flavonoids, proanthocyanidols.

HARPAGOPHYTUM

60 tabs

Osteoarticular health

ACTIONS/BENEFITS:

anti-inflammatory, analgesic.

EFFECTIVE FOR:

rheumatism, osteoarthritis, spondylosis, rheumatoid polyarthritis, neuralgia, muscle pains, sprains, dislocations.

INGREDIENTS:

harpagophytum extract 4:1 - 500 mg.

BIOACTIVE SUBSTANCES:

iridoids (harpagoside, procumbide and harpagide).

HEART TONIC

60 tabs

Strong heart

ACTIONS/BENEFITS:

cardiotonic, vasodilator, coronary dilator, antiarrhythmic, antihypertensive, β -blocker, sedative.

EFFECTIVE FOR:

ischemic heart disease, angina pectoris, post myocardial infarction, cardiac arrhythmias (tachycardia, palpitations, extrasistols), heart failure, hypertension, cardiovascular disorders that appear on the nervous background.

INGREDIENTS:

hawthorn - fruits powder 450 mg, arjuna - bark powder 37 mg, rose - petal extract 12,5 mg, mint essential oil 0,5 mg.

BIOACTIVE SUBSTANCES:

flavonoids, proanthocyanidins, triterpenic acids, amines and coumarins.

WARNINGS:

contains **lactose**.

HERBOPROSTAL

60 tabs

Healthy prostate

ACTIONS/BENEFITS:

5- α -reductase inhibitor, decongestant at the prostate level, diuretic.

EFFECTIVE FOR:

prostatitis and prostate adenoma.

INGREDIENTS:

saw palmetto - fruits (100 mg); saw palmetto - hydroalcoholic fruit extract (100 mg); nettle roots (100 mg); ganoderma mycelium extract (75 mg); smallflower hairy willowherb aerial parts (75 mg); african plum tree - hydroalcoholic extract from bark (50 mg).

BIOACTIVE SUBSTANCES:

sesquiterpene lactones (xanthatin, xanthinine), flavones, steroidal and triterpenic saponins, triterpenic acids, phytosterols.

HERBOTENSIN

60 tabs

Normal blood pressure

ACTIONS/BENEFITS:

vasodilator, antihypertensive, antiarrhythmic, heart tonic.

EFFECTIVE FOR:

high blood pressure, ischemic heart disease, angina, post-heart attack recovery, cardiac arrhythmia and cardiac insufficiency.

INGREDIENTS:

hawthorn - 10: 1 hydroalcoholic extract with minimum 3% fruit flavones (70 mg); hawthorn - flowers and leaves (70 mg); motherwort - 10: 1 hydroalcoholic extract from aerial parts (70 mg); motherwort - aerial parts (70 mg); elderberry - flowers (43 mg); shepherd's purse - 4: 1 hydroalcoholic extract from aerial parts (40 mg); shepherd's purse aerial parts (40 mg); garlic - bulbs (40 mg); horsetail - aerial parts (25 mg); hibiscus - flowers (20 mg); valerian - 4: 1 hydroalcoholic extract from roots (20 mg); mistletoe - 4:1 hydroalcoholic extract from leafy branches (20 mg); mistletoe - leafy branches (20 mg); rosemary essential oil (2 mg).

BIOACTIVE SUBSTANCES:

flavonoids, triterpenic acids, amines (choline, acetylcholine).

LAXEN

60 tabs

Helps you go

ACTIONS/BENEFITS:

contact laxative (due to senosides) and volume laxative (due to vegetable fibers).

EFFECTIVE FOR:

acute and chronic constipation.

INGREDIENTS:

senna 250 mg, wheat bran 250 mg, sage essential oil 5 mg.

BIOACTIVE SUBSTANCES:

senosides A and B, vegetal fibers.

WARNINGS:

contains **lactose**.

120
TABLETS
AT THE PRICE OF 60

LIVER DRAINER

60 tabs

Natural bile flow

ACTIONS/BENEFITS:

choleric, cholagogue, hepatoprotective, regenerates the liver cells, depurative, antispasmodic and anti-inflammatory.

EFFECTIVE FOR:

biliary dyskinesia, acute and chronic cholecystitis, angiolocolitis, liver failure, chronic hepatitis, hepatobiliary colic.

INGREDIENTS:

artichoke extract 5:1 - 125 mg, gentian extract 4:1 - 125 mg, greater celandine 125 mg, centaury 125 mg, mint essential oil 1 mg.

BIOACTIVE SUBSTANCES:

cynaropicrin, cynarine, secoiridoids-type bitter principles, alkaloids.

LIVER TONIC

60 tabs

Body plant

ACTIONS/BENEFITS:

liver rejuvenator, hepatoprotective, stimulates the hepatic functions, prevents hepatotoxicity, choleric, cholagogue, triggers the contractions of the gallbladder, biliary antilithiatic, anti-inflammatory, antispasmodic, lowers cholesterol levels, digestive tonic.

EFFECTIVE FOR:

acute and chronic hepatitis, hepatic cirrhosis, hepatic insufficiency, gallbladder disorder, chronic cholecystitis, dyspepsia, slow digestion, digestive atony, bile-caused constipation, bloating, states of fatigue and overexertion, medication abuse.

INGREDIENTS:

milk thistle - extract with 80% silymarin from fruits (100 mg), schisandra - 10:1 extract with 2% schizandrin from fruits (100 mg), artichoke - 4:1 extract from aerial parts 100 mg, dandelion leaves (25 mg), black currant 5:1 bud extract (25 mg), 20:1 aloe extract from aerial parts (20 mg), elecampane roots (15 mg), 10:1 fenugreek seed extract (15 mg), celandine aerial parts (10 mg), wild mint essential oil (5 mg), thyme essential oil (5 mg), lemon essential oil (5 mg).

BIOACTIVE SUBSTANCES:

silymarin, schizandrin.

MACCA 69+

60 tabs

Erectile function support

ACTIONS/BENEFITS:

stimulates sexual function, increases libido, increases spermatogenesis and fertility, improves erectile function, enhances ovulation and sexual appetite, revitalizing, regenerating, adaptogenic.

EFFECTIVE FOR:

sexual dysfunction, increased libido in both sexes, sterility, devitalization, to increase sports performance.

INGREDIENTS:

maca 500 mg.

BIOACTIVE SUBSTANCES:

methoxybenzyl isothiocyanate, alkaloids (macaines 1-4).

MILK THISTLE

60 tabs

Hepatic protection

ACTIONS/BENEFITS:

prevents hepatotoxicity, regenerates the liver cells, hepatoprotective.

EFFECTIVE FOR:

hepatitis, hepatic cirrhosis, hepatic insufficiency and liver tumors. To be used preventively in treatments that include potentially hepatotoxic medication.

INGREDIENTS:

milk thistle fruits (150 mg); 40:1 milk thistle hydroethanolic extract with 80% silymarin (on 10% maltodextrin support) from fruits (75 mg).

BIOACTIVE SUBSTANCES:

silymarin (a mixture of silibinin, silydianin and silychristin).

NATURAL CORTISONE

60 tabs

Low inflammation in allergies

ACTIONS/BENEFITS:
stimulates the adrenal glands, increasing the secretion of corticosteroids (cortisone-like action).

EFFECTIVE FOR:
acute and chronic allergic syndromes, allergic rhinitis and conjunctivitis, bronchial asthma, allergic bronchitis, urticaria, allergic dermatitis, lupus eritematos, chronic degenerative rheumatism, Addison's disease.

INGREDIENTS:
black currant buds extract 5:1 - 450 mg.

BIOACTIVE SUBSTANCES:
diterpenic acids, essential oil, glycosides.

NONI

60 tabs

Immune system fortifier

ACTIONS/BENEFITS:
immunostimulant, antitumor, antioxidant, anti-inflammatory, analgesic, remineralizing and vitaminizing.

EFFECTIVE FOR:
low immunity, joint and muscle pains, toothaches, minerals and vitamins deficiency, hyperglycemia, reduces oxidative stress.

INGREDIENTS:
noni extract 10:1 - 500 mg.

BIOACTIVE SUBSTANCES:
polysaccharides, anthraquinone derivatives, iridoids, scopoletin, minerals, flavonoids.

NORMOCHOLESTEROL

60 tabs

Flexible arteries

ACTIONS/BENEFITS:
lowers cholesterol levels, hypolipemiant.

EFFECTIVE FOR:
hypercholesterolemia, hypertriglyceridemia and atherosclerosis.

INGREDIENTS:
burdock - root (100 mg); chicory - root (100mg); dandelion - root (100 mg); ginger - root (50 mg); guggul - resin (50 mg); birch - leaves (50 mg); turmeric - root (50 mg); coriander essential oil (5 mg).

BIOACTIVE SUBSTANCES:
lactucopicrin, guggulsterones E and Z, saponins.

WARNINGS:
contains **lactose**.

NORMOCHOLESTEROL FORTE

60 tabs

Natural statin

ACTIONS/BENEFITS:
hypocholesterolemic, hypolipidemic, HMG CoA-reductase inhibitor.

EFFECTIVE FOR:
hypercholesterolemia, hypertriglyceridemia, atherosclerosis, obliterant arteriopathy, overweight and obesity.

INGREDIENTS:
red yeast rice – powder with 0,4% monacolins (300 mg); artichoke – hydroalcoholic extract with 2,5% cinarin from leaves (200 mg); milk thistle – hydroalcoholic extract with 80% silymarin from fruit (50 mg). One tablet contains 1,2 mg vegetal statins (monacolins).

BIOACTIVE SUBSTANCES:
monacolin, cinarin, silymarin.

PASSIFLORA

60 tabs

Calm and peaceful

ACTIONS/BENEFITS:

mild sedative, anxiolytic, antidepressant, papaverine-type antispasmodic.

EFFECTIVE FOR:

anxiety, depression, irritability, mental tension, stress, muscle spasms and cardiovascular disease on a nervous background.

INGREDIENTS:

passiflora 500 mg.

BIOACTIVE SUBSTANCES:

flavones, coumarins, essential oil, alkaloids (harmaline, harmine, harmol), maltol.

PROPOVIR

30 tabs

Green propolis, Zinc and D3

ACTIONS/BENEFITS:

antimicrobial, antiviral, anti-inflammatory, immunomodulatory, vitaminizing.

EFFECTIVE FOR:

cold, influenza, bacterial and viral respiratory infections, weak immune system and to increase body's resistance.

INGREDIENTS:

green **propolis** - extract with min. 5% polyphenols expressed as artemillin (400 mg); amalaki - 12:1 ratio of aqueous extract with 17% vitamin C from fruits (100 mg); sea buckthorn - fruit extract (100 mg); cordyceps - extract with 20% mycelium polysaccharides (30 mg); 10% zinc bisglycinate chelate (5 mg); essential oils of ravensara (1 mg), tea-tree (1 mg), oregano (1 mg), vitamin D3 (0.025 mg).

BIOACTIVE SUBSTANCES:

polyphenols (artemillin), vitamin C, polysaccharides, zinc.

RED ROBIN

60 tabs

The plant of life

ACTIONS/BENEFITS:

stimulates and regulates the activity of male and female reproductive system, strong aphrodisiac, emmenagogue, antihemorrhagic, antitumor, revitalising, remineralizing, virilising, antidiarrheal, regulates the menstrual cycle, has radioprotective effects.

EFFECTIVE FOR:

male and female sterility, impotence, frigidity, menstrual disorders, uterine fibroids, ovarian cysts, uterine bleeding, tumors, irradiation, sequelae of radiation, asthenia, anaemia, diarrhea, fermentation colitis.

INGREDIENTS:

red robin 300 mg.

BIOACTIVE SUBSTANCES:

geraniin, ellagic acid, caffeic acid, essential oils (linalool, γ-terpinene, limonene, geraniol, α-terpineol), flavonoids (hyperoside, rutoside, isoquercetin, quercetin, kaempferol), vitamins (A,B,C), minerals.

RENOSTIM

60 tabs

Healthy kidneys

ACTIONS/BENEFITS:

diuretic, antilithiatic, urinary antiseptic, anti-inflammatory.

EFFECTIVE FOR:

edemas, urinary lithiasis, urinary infections and entero-renal syndrome.

INGREDIENTS:

juniper - 5: 1 hydroalcoholic extract of fruit (115 mg); cranberry - hydroalcoholic extract with 25% anthocyanidins from fruit (115 mg); spleen - aerial parts (50 mg); yarrow - 4: 1 hydroalcoholic extract from aerial parts (30 mg); boswellia - 10: 1 hydroalcoholic extract from the resin (30 mg); birch - 4: 1 hydroalcoholic extract from the leaves (30 mg); larch - roots (15 mg); anise - essential oil (10 mg); juniper - essential oil (5 mg).

BIOACTIVE SUBSTANCES:

saponine, flavonoids, essential oils, α and β-cedren.

RESPIRAL FORTE

60 masticable tabs

Easy breathing

ACTIONS/BENEFITS:

antiseptic, antimicrobial, antimycotic, light anesthetic, anti-inflammatory, secretolytic, decongestant of the sinuses and respiratory tract, local trophic.

EFFECTIVE FOR:

pharyngitis, tonsillitis, laryngitis, tracheobronchitis, acute and chronic bronchitis, sinusitis, adenoiditis, pneumonia, cough of various etiologies, halitosis.

INGREDIENTS:

poplar buds extract 5:1 (40 mg), propolis extract 2,5% (40 mg), essential oils [mint (12 mg), eucalyptus (6 mg), pine (6 mg), thyme (1 mg), tea-tree (1 mg)], compressible sugar.

BIOACTIVE SUBSTANCES:

essential oils, flavonoids.

WARNINGS:

contains **sugar** and **propolis**.

SALIX 500

60 tabs

Vegetal aspirin

ACTIONS/BENEFITS:

anti-inflammatory and analgesic.

EFFECTIVE FOR:

rheumatic, articular and muscular pains, back pain, neuralgia, headaches, colds, menstrual pain, toothaches and injuries.

INGREDIENTS:

willow extract with 15% salicin (salicine) - 270 mg, essential oils [mint (5 mg); eucalyptus (3 mg); thyme (1 mg), pine (1 mg)].

BIOACTIVE SUBSTANCES:

salicylic alcohol derivatives (salicin, salireposide, salicortozidă, populoside), saligenol (salicylic alcohol), salicylic acid, α and β -pinene, limonene, δ and γ -cadinen, chamazulene.

SPIRULIN

60 tabs

Additional nutrients

ACTIONS/BENEFITS:

tonic, remineralizing, regenerating, rejuvenating, vitalizing, antioxidant.

EFFECTIVE FOR:

convalescence, devitalization lack of mineral salts, weakness and exhaustion, asthenia, anemia, slowing down the aging process, geriatrics.

INGREDIENTS:

spirulina 500 mg.

BIOACTIVE SUBSTANCES:

proteins, vitamin complex A and B, minerals (Fe, Ca, Zn, K, Mg).

SPIRULIN AND SEA-BUCKTHORN

60 tabs

No more fatigue

ACTIONS/BENEFITS:

vitalizer, vitaminizing, remineralizing.

EFFECTIVE FOR:

asthenia, anaemia, convalescence, states of fatigue, prolonged stress, vitamins and minerals deficiency.

INGREDIENTS:

spirulina 350 mg, buckthorn extract 5:1 - 150 mg.

BIOACTIVE SUBSTANCES:

proteins, vitamins (B1, B2, folic acid, C, E, P and PP), carotenoids, provitamin D, minerals (Fe, Ca, Mg, Zn, K).

SPIRULIN AND GANODERMA

60 tabs

Stay young

ACTIONS/BENEFITS:

remineralizing, regenerating, strengthening, rejuvenating, antioxidant, immunostimulant.

EFFECTIVE FOR:

physical and psycho-mental asthenia, lack of mineral salts, premature aging, geriatrics, conditions caused by decreased immunity, chronic viral hepatitis.

INGREDIENTS:

spirulina 350 mg, ganoderma extract with 20% polysaccharides - 150 mg.

BIOACTIVE SUBSTANCES:

triterpenic lanostanoids, organic germanium, polysaccharides, proteins, vitamins, minerals.

ST JOHN'S WORT

60 tabs

Happy every day

ACTIONS/BENEFITS:

anxiolytic, antidepressant, anti-inflammatory, antispasmodic, choleric, cholagogue, hepatic stimulant, antimicrobial.

EFFECTIVE FOR:

depression, anxiety, nighttime dread (fear, horror), biliary dyskinesia, diarrhea, colitis, enterocolitis, cholecystitis, hepatobiliary colic, abdominal colic, hyperacid gastritis, gastric and duodenal ulcer.

INGREDIENTS:

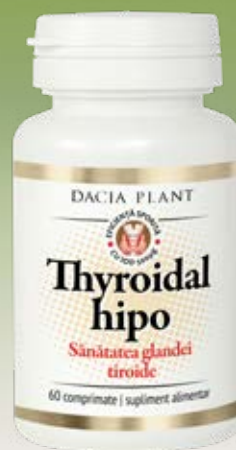

St John's wort 500 mg.

BIOACTIVE SUBSTANCES:

hypericin, pseudohypericin, flavonoids, essential oil, tannins.

WARNINGS:

contains **lactose**.

THYROIDAL HIPO

60 tabs

Thyroid gland health

ACTIONS/BENEFITS:

stimulates the secretion of thyroid hormones, cholesterol-lowering effect, lipid-lowering effect.

EFFECTIVE FOR:

hypothyroidism.

INGREDIENTS:

brown algae - extract with 0.2% iodine (250 mg); guggul - resin (100 mg); brahmi - aerial parts (90 mg); brewer's yeast with selenium and selenomethionine (10 mg); myrtle essential oil (5 mg), myrrh essential oil (5 mg).

BIOACTIVE SUBSTANCES:

iodine, selenium, selenomethionine, ketosteroids.

TRIOMICIN

60 masticable tabs

Respiratory tract protection

ACTIONS/BENEFITS:

antiseptic, antimicrobial, antispasmodic, secretolytic, anti-inflammatory, decongestant of the sinuses and airways.

EFFECTIVE FOR:

pharyngitis, laryngitis, acute and chronic bronchitis, tracheobronchitis, coughs of various causes, halitosis.

INGREDIENTS:

essential oils [mint 12 mg, eucalyptus 6 mg, pine 6 mg; thyme 1 mg, tea-tree 1 mg], compressible sugar - 900 mg.

BIOACTIVE SUBSTANCES:

α and β -pinene, menthol, menthone, cineol, limonene, sabinene, eugenol, β -thujone, sylvestrene, borneol, terpinolene.

WARNINGS:

contains **sugar**.

VISUAL

60 tabs

Better vision

ACTIONS/BENEFITS:
increases visual acuity,
decreases intraocular tension,
stops the evolution of ocular
degenerative processes, trophic
in the retina and crystalline
level, improves the speed of
adaptation of the eye to light
and darkness.

EFFECTIVE FOR:
vision disorders, glaucoma,
degenerative ocular diseases
(cataract, diabetic retinopathy,
macular degeneration),
nocturnal blindness (nictalopia)
and diurnal (hemeralopia),
ocular fatigue.

INGREDIENTS:
french marigold 150 mg,
eyewort 150 mg, bilberry 100
mg, basil 50 mg, fennel 50 mg.

BIOACTIVE SUBSTANCES:
carotenoids, flavones,
flavonosids, tagetone,
proanthocyanidins, tannins,
iridoids.

WARNINGS:
contains **lactose**.

YEAST

60 tabs

Natural B vitamine source

ACTIONS/BENEFITS:
natural source of vitamins B,
antianemic, remineralizing,
vitalizer, antiasthenic.

EFFECTIVE FOR:
hypovitaminosis B,
inflammatory and painful
neurological disorders, anaemia,
asthenia, convalescence and
demineralization, diabetic
polyneuropathy.

INGREDIENTS:
brewer's yeast 500 mg.

BIOACTIVE SUBSTANCES:
B complex vitamins.

**YEAST WITH ORGANIC
SELENIUM**

60 tabs

Slows down aging

ACTIONS/BENEFITS:
remineralizing, vitaminizing,
slows the aging process,
trophic nerve cells, anti-
asthenic, maintains the health
of hair and nails

EFFECTIVE FOR:
selenium deficiency,
hypovitaminosis B,
inflammatory and painful
neurological disorders, states
of fatigue and weakness,
convalescence, overexertion,
anaemia, asthenia,
neurasthenia, diabetic
polyneuropathy.

INGREDIENTS:
brewer's yeast (400 mg),
brewer's yeast with selenium
(100 mg).
One tablet contains 100µg
selenium.

BIOACTIVE SUBSTANCES:
selenium, B complex vitamins,
mineral salts.

DACIA PLANT®
THE HEALTHFUL POWER OF HERBS

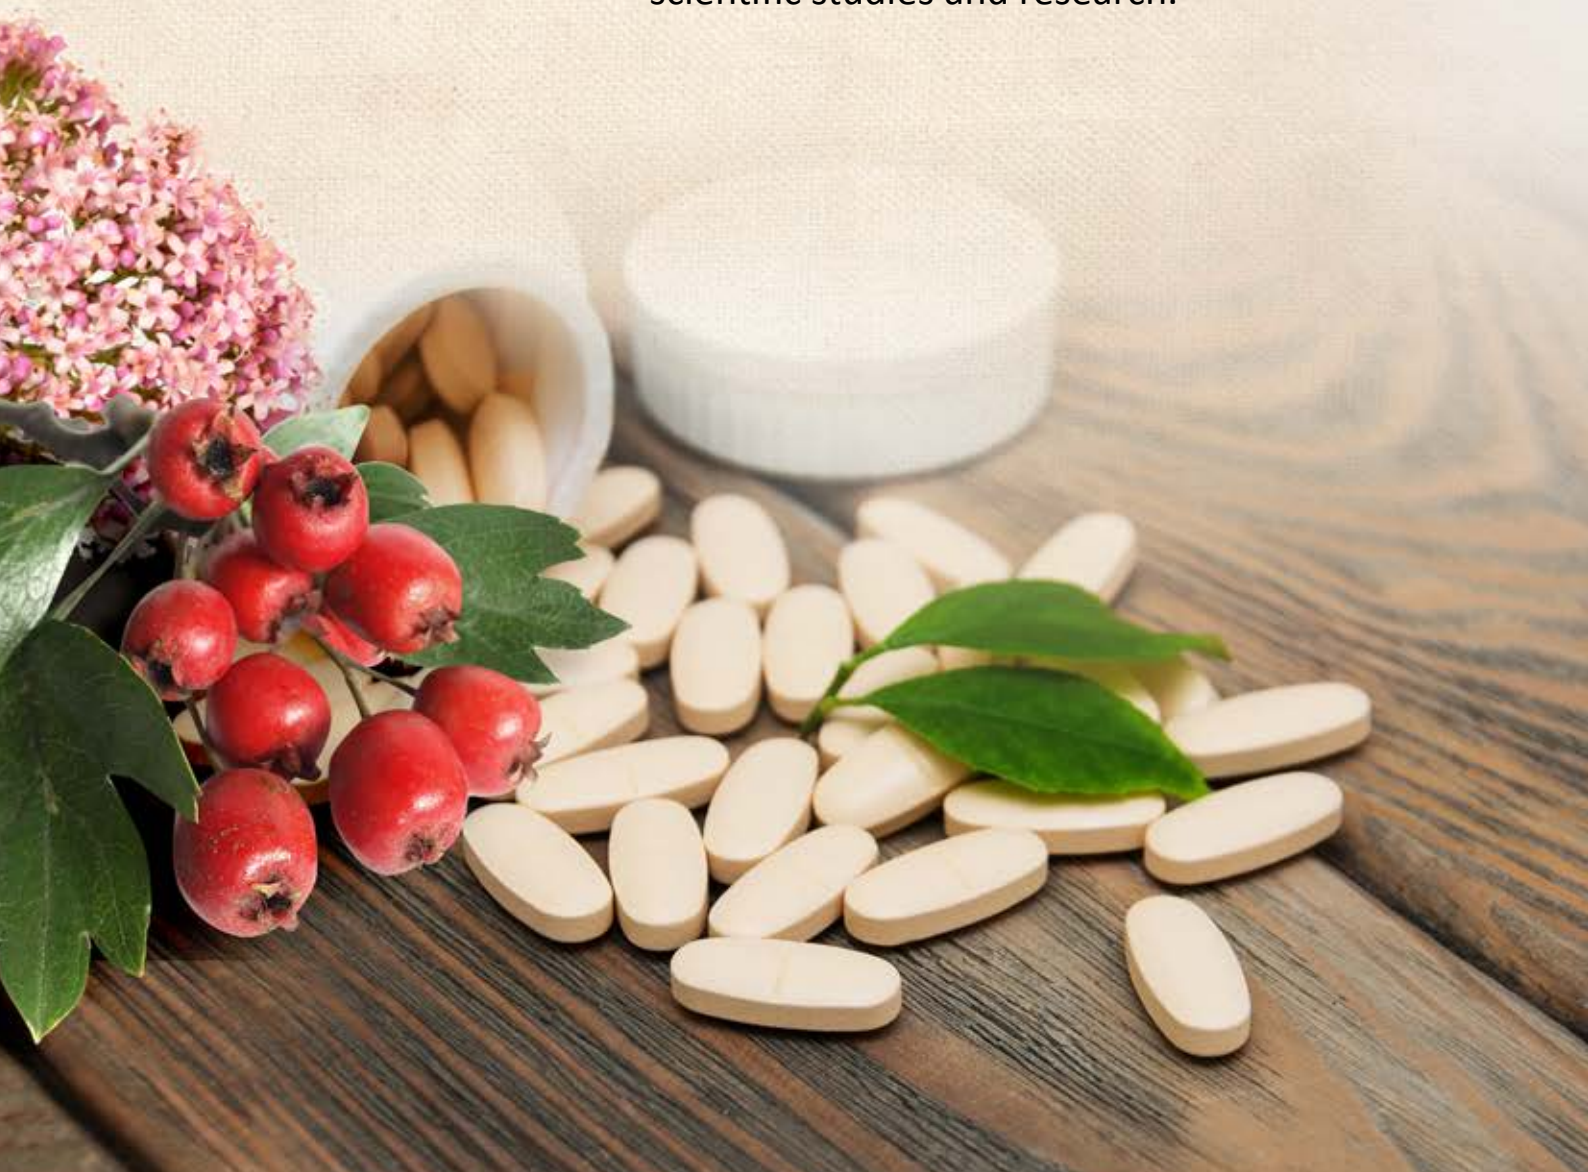

Calmotusin®
Respiratory tract balm

Tablets

These products are currently under the quality control of the Department of Pharmacognosy, University of Medicine and Pharmacy "Gr. T. Popa" in Iași - Romania.

Herbal experts brand

An innovative range in collaboration with pharmacology professor Ursula Stănescu, PhD., a renowned personality in the Romanian pharmaceutical world, expert in pharmacognosy - phytotherapy. These products are based on rigorous scientific studies and research.

L-ARGININE 1000

60 tabs

Essential aminoacid

ACTIONS/BENEFITS:

regenerates the liver and supports the liver function, normalizes the high levels of ammonia, stimulates spermatogenesis and erectile function, promotes muscle growth, increases nitric oxide synthesis and helps maintain vascular tone, inhibits LDL-cholesterol oxidation and platelet aggregation, increases the level of antioxidant enzymes.

EFFECTIVE FOR:

chronic hepatitis, icterus, liver cirrhosis, hyperammonemia, hepatic steatosis; erectile dysfunction, oligospermia, male infertility; increase of sports performance and harmonious development of muscle mass; cardiovascular disease, cachexia, convalescence.

INGREDIENTS:

L-arginine monohydrochloride - 1000 mg.

BIOACTIVE SUBSTANCES:

arginine.

GLICEMONORM FORTE

60 tabs

Glycemia within limits

ACTIONS/BENEFITS:

hypoglycemic, increases endogenous insulin synthesis, decreases hepatic gluconeogenesis, increases hepatic glycogen synthesis, increases peripheral glucose oxidation in erythrocytes and adipose tissue cells.

EFFECTIVE FOR:

diabetes mellitus type 1 & 2, complications of diabetes (diabetic retinopathy, diabetic arteritis, diabetic polyneuropathy, renal failure).

INGREDIENTS:

bitter cucumber extract 10:1 - 300 mg, olive extract with 18% oleuropein - 100 mg, chromium picolinate - with a standardized chromium (3+) content of 12% (equivalent to 48 µg chromium (3+) representing 120 % of the RDI (Recommended Daily Intake) - 0,40 mg.

BIOACTIVE SUBSTANCES:

oleuropein, substance P, charantin, chromium picolinate.

HEPATOESSENTIAL

60 tabs

Liver functions support

ACTIONS/BENEFITS:

hepatoprotector, liver regenerator, prevents hepatotoxicity, stimulant of liver functions, anti-inflammatory, antispastic, choleric, collagen, antioxidant, counteract the adverse effects of drugs with potential hepatotoxic or poisoning with chemicals or fungi.

EFFECTIVE FOR:

acute and chronic hepatitis, hepatic steatosis, hepatic cirrhosis, liver cancer and metastasis, hepatic failure, biliary dyskinesia, chronic cholecystitis, fatigue and overwork, fungal poisoning in combination with drugs with potential hepatotoxicity.

INGREDIENTS:

lecithin with 95% essential phospholipids - 150 mg, artichoke extract 4:1 - 100 mg, milk thistle extract with 80% silymarin - 100 mg, schizandra extract with 2% schisandrins - 50 mg, coriander essential oil 1 mg.

BIOACTIVE SUBSTANCES:

phospholipids essential, cynarine, cynaropicrin, silymarin, schisandrins.

SILYMARIN 14000

60 tabs

Healthy liver

ACTIONS/BENEFITS:

prevents hepatotoxicity, liver regenerator, hepatoprotector, antioxidant, reduces liver fibrosis.

EFFECTIVE FOR:

hepatitis with virus A, B, C, D and E, toxic and metabolic hepatitis, steatosis (fatty liver), cirrhosis and liver tumors, hepatic insufficiency and use of potentially hepatotoxic medication.

INGREDIENTS:

milk thistle extract 40-50:1 with 80% silymarin, of which 30% silibinin - 350 mg (one tablet contain 280 mg silymarin, equivalent to 14 g of milk thistle).

BIOACTIVE SUBSTANCES:

silymarin.

Herbal experts

Phytotherapy appeared to provide the contemporary human with modern solutions for health maintenance, by also keeping a close connection with nature and its benefits. Phytotherapy takes over the tradition of curative plants and carries it on, towards the scientific studies and towards creating products specifically adapted to current needs.

Modern phytotherapy carefully researches the composition of plants and the effects of their components over health, it validates the use of plants for certain disorders or – to the

contrary – it forbids their use or recommends it only in certain combinations.

It is a vast, fascinating field, deeply rooted in modern medical and pharmaceutical researches. Romania boasts a long tradition in using curative plants, but also remarkable specialists in phytotherapy.

Dacia Plant collaborated with some of the most acclaimed experts in pharmacognosy and phytotherapy in view of creating high-scientific-standard products, based on thorough scientific researches.

'Herbal experts' tablets are complex phytotherapeutic solutions, based on rigorous scientific studies. The innovating products are created together with **Prof. Dr. Farm. Ursula Stanescu**, one of the most acclaimed pharmacognosy experts in Romania.

Each product is created to maintain the health of vital organs of the human body, frequently affected by disorders, stress, imbalanced nutrition, and consequently making sure that their use guarantees an optimal operation of the cardiovascular apparatus, the support of the hepatic function, the maintenance of the serum glucose concentration within normal limits, the protection of the body against stress, and the necessary relaxing sleep.

The products contain top-quality plants and standardised extracts and are created based on complex and carefully-studied formulas.

U. Stanescu

FOR SUPERMEN

first brand exclusively dedicated to men

DACIA PLANT®
THE HEALTHFUL POWER OF HERBS

Tablets

A healthy alternative to synthetic vitamins.

Vitamins and Minerals brand

Quality products maintain nutrient integrity and the effectiveness of vitamin substances, which are otherwise very sensitive. Combine the strength of billows and ocean depths - through extracts from seawater and calcium-secreting algae, with the mystery of forests and alpine meadows - through the concentrates of medicinal herbs.

B VITAMIN

60 tabs

B vitamin complex

ACTIONS/BENEFITS:

natural source of vitamin B, strengthens the body.

EFFECTIVE FOR:

hypovitaminosis B, inflammatory and painful neurological disorders, diabetic polyneuropathy.

INGREDIENTS:

yeast enriched with vitamin B complex (250 mg); pollen (250 mg); sage essential oil (2 mg). One tablet provides: vit. B1 (hydrochloric thiamine) - 1.28 mg (116%*); vit. B2 (riboflavin) - 1.53 mg (109%*); vit. B3 / PP (niacin) - 17 mg (106%*); vit. B5 (pantothenic acid) - 6.35 mg (106%*); vit. B6 (hydrochloric pyridoxine) - 1.68 mg (120%*); vit. B8 (biotin) - 55 mcg (110%*); vit. B9 (folic acid) - 225 mcg (113%*); vit. B12 (cyanocobalamin) - 2.75 mcg (110% *). *percentage from NRV (Nutrient Reference Value according to EU Regulation 1169/2011).

BIOACTIVE SUBSTANCES:

vitamin B complex (B1, B2, B3, B5, B6, folic acid, B12).

WARNINGS:

Polen content.

C VITAMIN

60 masticable tabs

Durable and healthy

ACTIONS/BENEFITS:

natural source of vitamin C, immunostimulant and antioxidant effects.

EFFECTIVE FOR:

hypovitaminosis C, scurvy, low immunity and for preventing flu or colds.

INGREDIENTS:

acerola - 11:1 extract with 17% C vitamin from fruits (500 mg); lemon - 4:1 extract from fruits (20 mg); essential oils [lemon (5 mg), orange (5 mg)]; compressible sugar (600 mg). The maximum daily dose (6 tabs) provides 510 mg of vitamin C (637.5% NRV*). *Nutrient Reference Value according to EU Regulation 1169/2011.

BIOACTIVE SUBSTANCES:

ascorbic acid.

WARNINGS:

Sugar content.

CALCIUM AND ORGANIC MAGNESIUM WITH VITAMIN D

60 tabs

Bones and teeth health

ACTIONS/BENEFITS:

remineralizing.

EFFECTIVE FOR:

hypocalcemia, magnesium deficiency, spasmodophilia, tetany, muscle cramps.

INGREDIENTS:

calcareous marine algae aquamin TG (670 mg); marine magnesium 45% (145 mg); shiitake - extract with 30% polysaccharide from mycelium (12 mg); fig - fruits (12 mg); nettle - root extract 10:1 (12 mg); vitamin D3 (cholecalciferol) (1 µg). The maximum daily dose provided (6 tabs) is 1320 mg of elemental calcium (165% of NRV*), 522 mg of elemental magnesium (138% of NRV*) and 6 µg (240 IU) of vitamin D3 (20% of NRV*).

BIOACTIVE SUBSTANCES:

calcium, magnesium and vitamin D3.

ORGANIC MAGNESIUM

60 tabs

health of the muscular and nervous system

ACTIONS/BENEFITS:

remineralizing and antispasmodic.

EFFECTIVE FOR:

muscle cramps, spasmophilia, tetany, magnesium deficiency and stress.

INGREDIENTS:

marine magnesium 45% (667 mg); lemon balm aerial parts (100 mg); passiflora - 4: 1 hydroalcoholic extract (60 mg); lemon balm essential oil (1 mg). The maximum daily dose provided (2 tabs) is 600.3 mg of elemental magnesium (160% of NRV *). * Nutrient Reference Value according to EU Regulation 1169/2011.

BIOACTIVE SUBSTANCES:

magnesium, flavones, essential oils, coumarins.

VITAMIN C from Sea buckthorn and AMALAKI

60 masticable tabs

Healthy and strong

ACTIONS/BENEFITS:

normal functioning of the immune system, reduction of fatigue and exhaustion, cell protection against oxidative stress.

EFFECTIVE FOR:

scurvy, hypovitaminosis, weak immune system, susceptibility to develop infections, asthenia, convalescence, geriatrics.

INGREDIENTS:

amalaki - extract with 17% vitamin C from fruits (300 mg); sea buckthorn - fruit extract (200 mg); lemon essential oil (5 mg); sweet orange essential oil (5 mg); sweetener - compressible sugar. The maximum daily dose provided (9 tablets) is 459 mg of vitamin C.

BIOACTIVE SUBSTANCES:

vitamin C.

WARNINGS:

Sugar content.

VITAMIN C 1000 with ZINC and D3

60 tabs

Strong immunity system

ACTIONS/BENEFITS:

antiscorbutic, vitaminizing, immunostimulant, promotes intestinal absorption of calcium and its fixation in bones, re-mineralizing, strengthening, antiasthenic, antioxidant.

EFFECTIVE FOR:

scurvy, hypovitaminosis, weak immune system, hypocalcemia, rickets prophylaxis, bone formation, bone demineralization, asthenia, convalescence, geriatrics.

INGREDIENTS:

amla - 12:1 ratio extract with 17% vitamin C from fruits (500 mg); sea buckthorn - fruit extract (305 mg), acerola - extract with 17% vitamin C from fruit (235 mg), stevia - extract with 60% rebaudioside A (20 mg), zinc bisglycinate (9 mg), lemon - essential oil (5 mg); sweet orange - essential oil (5 mg); vitamin D3 (cholecalciferol) (400 IU)

The maximum daily dose provided is 1000 mg of vitamin C (1250% NRV*), 3200 IU of vitamin D3 (1600% NRV*) and 7.2 mg of zinc (72% NRV*).

BIOACTIVE SUBSTANCES:

vitamin C, vitamin D3, zinc.

About vitamins and minerals

Magnesium, iron, zinc, vitamins A, B, C, D are valuable allies for our health. Vitamins and minerals play many key roles: some are involved in cell renewal, others in the immune system; antioxidants, fighting against aging. In their absence, imbalances may occur in the body.

Vitamin B12 helps the production of red blood cells and the proper functioning of the nervous system.

Vitamin D3 is essential to have healthy bones. Vitamin D deficiency also leads to muscle weakness, which is the cause of falls in the elderly. In winter, the deficit could be one of the causes of the increase in infectious respiratory diseases. In case of vitamin D deficiency, the risk is higher to develop dementia, especially Alzheimer's disease, high blood pressure, cardiovascular disease and cancers (colorectal, breast, pancreas, prostate). Iron, zinc, chromium, present in the body in small amounts, are essential for performing multiple functions, such as breathing and fighting infections. Low magnesium content causes fatigue, muscle cramps, muscle spasms, high blood pressure, dizziness and nausea, stress, bloating.

Iron is an essential component of hemoglobin, ensuring the transport of oxygen to vital organs. The need for iron is higher in pregnancy. A correct intake of iron helps us get a very good sleep quality and high morale because iron influences the production of dopamine, a neurotransmitter also called the "pleasure chemical".

Vitamin C helps mainly to fight free radicals and strengthen our immune system. Our body does not know how to synthesize or store it. Therefore, it is essential that it be administered regularly to maintain our full health.

First brand of therapeutical creams
from Dacia Plant

dacoderm
health extract

Cosmetics

Natural ingredients, original recipes, no parabens, no artificial flavours, no dyes, high concentration of active substances, no tests on animals.

Dacoderm brand

Phytotherapeutic tradition is enriched by these modern and efficient products, based on helpful effects of the vigorous and healthy romanian herbs. Dacoderm creams contain natural extracts of the best quality, enriched by essential oils.

MARIGOLD CREAM

Health extract

75 ml

ACTIONS/BENEFITS:

- cicatrising, anti-inflammatory, antiseptic, regenerating and nourishing.

EFFECTIVE FOR:

- unaesthetic scars, scratches,
- post-operative wound,
- cracked and rough skin,
- aged skin.

INGREDIENTS:

Aqua, Coco-Caprylate/Caprates, *Calendula officinalis* extract, Glycerin, Ammonium Acryloyldimethyltaurate/VP Copolymer, Benzyl Alcohol, Glycerin, Chlorphenesin.

BIOACTIVE SUBSTANCES:

saponosides (calendulosides A-H), flavonoids (patulinum and patulitrin), triterpenic alcohols (α and β -amirenenol, taraxasterol, calenduladiol, arnidiol), triterpenic acids (ursolic and oleanolic acids) sterols (sitosterol, stigmasterol), carotenoids (α and β -carotene, lycopene, lutein, violaxanthin), coumarins (umbelliferone, aesculetin), polyinyc compounds (calendic acid), polyphenolic acids (caffeic acid, chlorogenic, vanillic acid, syringic acid), polyholosides, tannins.

THUJA CREAM

Health extract

75 ml

ACTIONS/BENEFITS:

- antibacterian, antiviral, antifungal, anti-inflammatory, antitumor.

EFFECTIVE FOR:

eczema, acne, papillomas, warts, tumors.

INGREDIENTS:

Aqua, Coco-Caprylate/Caprates, Thuja occidentalis extract, Ammonium Acryloyldimethyltaurate/VP Copolymer, Benzyl Alcohol, Glycerin, Chlorphenesin.

BIOACTIVE SUBSTANCES:

pinicrin, thuin, tannin, ethereal oil (consisting of α and β -thion, fenchone, pinene).

IRRITATION CREAM

Health extract

75 ml

ACTIONS/BENEFITS:

- ensures skin integrity due to the following effects: antiseptic, tonic, balsamic, healing, soothing, regenerating;
- stimulates local immunity

EFFECTIVE FOR:

- minor burns
- sunburns
- rashes
- sensitive skin

INGREDIENTS:

Aqua, Coco-Caprylate/Caprates, Glycerin, Ammonium Acryloyldimethyltaurate/VP Copolymer, Hippophae rhamnoides seed oil, *Aloe barbadensis* leaf extract, Propolis extract, *Calendula officinalis* flower extract, Propilen glycol, Benzyl Alcohol, Glycerin, Chlorphenesin, Allantoin.

BIOACTIVE SUBSTANCES:

vitamins (A, C, E, PP and B-complex components), provitamins of vitamin D, carotenoids (α and β -carotene, lycopene), flavonoids, phenolic acids, trans-resveratrol, triterpenic acids (ursolic and oleanolic), lipids (glycerides of palmitic, oleic, linolenic acids), oligoelements (Ca, P, Mg, K, Fe, Na), sterols (β -sitosterol), aloin A and B, aloeresin A and B, polysaccharides, auxins, calendulosides, triterpene alcohols, cumin, tannins, flavones, flavonols, flavanones (pinocembrine, pinostrobin), aromatic acids, carbohydrates, resins, balsams and volatile oils.

WARNINGS:

contains propolis.

HEELS CREAM

Health extract

75 ml

ACTIONS/BENEFITS:

- repairs and removes dry and thick skin,
- exfoliating effect,
- cooling effect on the foot skin and eliminates the unpleasant odor,
- soothes itching,
- emollient.

EFFECTIVE FOR:

- for the care of rough, cracked, hardened or thickened skin.

INGREDIENTS:

Aqua, Urea, Coco-Caprylate/Caprates, Glycerin, Cetearyl olivate, Sorbitan olivate, Croton lechleri resin extract, Benzyl Alcohol, Glycerin, Chlorphenesin, *Mentha piperita* oil, Ammonium acryloyldimethyltaurate/VP Copolymer, Tocopherol acetate, Allantoin, Limonene.

BIOACTIVE SUBSTANCES:

alkaloids (solutaridine, taspine, sinoacutine, sparciflorine), procyanidins, catechins (flavan-3-ol monomers), proanthocyanidinic oligomers (catechic tannins). These compounds have antioxidant properties and help to protect and strengthen collagen fibers.

ARTIMOBIL CREAM

"HEAVY LEGS" CREAM

HEMOROVEN GEL

VENVARIS GEL

Health extract

Health extract

Health extract

Health extract

75 ml

75 ml

75 ml

75 ml

ACTIONS/BENEFITS:
 ■ anti-inflammatory and analgesic at the osteoarticular and muscular level.

EFFECTIVE FOR:
 joint discomfort, spasms and muscle stretches, tendinitis, sciatic neuralgia, lumbago, inflammatory joint, muscle and tendon disorders, sprains, contortions.

INGREDIENTS:
 Aqua, Coco Caprylate/Caprato, Glycerin, *Harpagophytum procumbens* root extract, Methyl salicylate, *Juniperus communis* oil, *Cinnamomum camphora* oil, *Dioscorea communis* extract, *Mentha Arvensis* herb oil, Ammonium Acryloyldimethyltaurate/VP Copolymer, Benzyl Alcohol Glycerin Chlorphenesin, *Olea europaea* leaf extract*.
 *extracts with in vivo clinical studies performed by manufacturer.

BIOACTIVE SUBSTANCES:
 camphor, sterolic saponins from diosgenol, sterols (campesterol, β-sitosterol, stigmasterol), phenanthrenic derivatives, clavinated alkaloids, amine polysaccharide complex, tannins, mucilages, harpagosides (iridoid glycosides) and beta sitosterol, communic acid, isocommunic acid, isopimaric acid, xantoperole, flavonoids, biflavonoids, isocupresic acid, α and β-cedren, tannins, bitter principle (juniperine), lactones, pectins, resins.

ACTIONS/BENEFITS:
 ■ it gives a sense of freshness, relaxation and relief for tired legs;
 ■ energizes feet, giving a sense of comfort and moisture;
 ■ relieves tension from muscles and from blocked or rigid joints;
 ■ stimulates venous circulation;
 ■ warms up;

EFFECTIVE FOR:
 tired and heavy legs (due to prolonged standing, long time spent at the office, walking on high heels or due to the high temperatures during the summer).

INGREDIENTS:
 Aqua, Coco-Caprylate/Caprato, Cinnamomum camphora oil, *Capsicum annuum* extract, Ammonium Acryloyldimethyltaurate/VP Copolymer, Benzyl Alcohol, Glycerin, Chlorphenesin.

BIOACTIVE SUBSTANCES:
 camphor, capsaicinoids (capsaicin and dihydrocapsaicin), carotenoids (capsanthin, capsorubin, beta-carotene, viraxanthin, zeaxanthin), diterpenic heterosides (capsianosides).

ACTIONS/BENEFITS:
 ■ maintains the health of hemorrhoidal veins and anal mucosa.

EFFECTIVE FOR:
 ■ hemorrhoids, anal fissures
 ■ after proctological surgery

INGREDIENTS:
 Aqua, Coco-Caprylate/Caprato, *Calendula officinalis* extract, *Symphytum officinale* extract, Propolis extract, Ammonium Acryloyldimethyltaurate/VP Copolymer, Benzyl Alcohol, Glycerin, Chlorphenesin.

BIOACTIVE SUBSTANCES:
 saponosides (calendulosides A-H), flavonoids (patulinum and patulitrin), triterpenic alcohols (α and β- amirenol, calenduladiol), triterpenic acids (ursolic and oleanolic acids), sterols (sitosterol, stigmasterol), carotenoids (α and β-carotene, lycopine, lutein), coumarins, calendic acid, polyphenolic acids (caffeic, chlorogenic, vanilic, siringic), polyholosides, tannins, flavones, flavonols, flavanones, chalcones, aromatic acids, ketones, carbohydrates, resins and balms, volatile oils, vitamins (A, C, E, PP and complex B components), oligoelements (Na, K, Mg, Ca, Al, Zn, Fe, Cr, Mn, Cu).Mg, Ca, Al, Zn, Fe, Cr, Mn, Cu).

ACTIONS/BENEFITS:
 ■ anti-inflammatory;
 ■ reduces irritation and bruising.

EFFECTIVE FOR:
 ■ varicose veins, swollen and / or broken veins.

INGREDIENTS:
 Aqua, Coco-Caprylate/Caprato, Ammonium Acryloyldimethyltaurate/VP Copolymer, *Ruscus aculeatus* root extract*, *Citrus lemon* peel extract*, *Solidago virgaurea* extract*, Camphor essential oil, *Aesculus hippocastanum* seed extract, Benzyl Alcohol, Glycerin, Chlorphenesin, *Juniperus communis* fruit oil, Limonene.
 *extracts with in vivo clinical trials performed by the manufacturer.

BIOACTIVE SUBSTANCES:
 coumarins (esculoside, esculetol, fraxoside, fraxetol), proanthocyanidol A2, saponosides, catechin tannins flavones (citrine, limocitrine, diosmin, quercetol, isoramnetol), furanocoumarins, ruscogenin, neoruscogenin, oils, tannins, bitter substances, saponosides, azulene.

HAND SANITISER GEL

Quick sanitizer

100 ml

ACTIONS/BENEFITS:

Sanitizes quickly by acting on germs, moisturizes, prevents the appearance of dry skin patches.

INGREDIENTS:

Alcohol, Aqua, Glycerin, Colloidal Silver, Ammonium Acryloyldimethyltaurate / VP Copolymer, Aloe vera gel, Benzyl Alcohol Glycerin Chlorphenesin, Perfume, Vitamin E.

BIOACTIVE SUBSTANCES:

sterols, auxins, gibberellins, lignin, saponins, silver ions.

HAND SANITISER GEL

Quick sanitizer

75 ml

ACTIONS/BENEFITS:

Sanitizes quickly by acting on germs, moisturizes, prevents the appearance of dry skin patches.

INGREDIENTS:

Alcohol, Aqua, Glycerin, Colloidal Silver, Ammonium Acryloyldimethyltaurate / VP Copolymer, Aloe vera gel, Benzyl Alcohol Glycerin Chlorphenesin, Perfume, Vitamin E.

BIOACTIVE SUBSTANCES:

sterols, auxins, gibberellins, lignin, saponins, silver ions.

dacoderm

health extract

Dacoderm therapeutic cream line is relying on the beneficial effects of Romanian medicinal herbs full of vigour and health. The Romanian phytotherapeutic tradition is enriched nowadays by these modern, effective and scientifically studied products for optimum results. Dacoderm creams contain top quality natural extracts, essential oils and other natural ingredients. They are produced with care for the environment and have not been tested on animals.

Over 92% of the ingredients are natural: they contain extracts and natural ingredients from medicinal herbs.

Original recipes: they are produced based on scientific studies and researches made by Dacia Plant experts

No parabens: parabens can mimic the body hormones and may interfere with the functions of the endocrine system

No synthetic fragrance: they keep the natural fragrance of medicinal herbs and do not pose any risk of toxicity, allergies or irritation

No artificial dyes: natural and pleasant, just like the plants they are made of

High concentration of active ingredient: each Dacoderm product has an optimal amount of active ingredients for excellent results.

Alcohol-free extracts

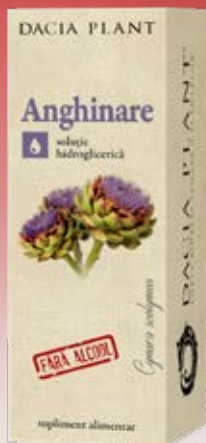

Suitable for persons with alcohol interdiction. Sweet and tasty - a joy for children as well!

Dacia Plant brand

Liquid concentrates based on natural plant extracts, without the side effects of alcohol. Dacia Plant extracts are obtained through a special method of extraction and concentration in vacuum, method that does produces no alterations in the plant's bioactive ingredients.

ALCOHOL FREE

ARTICHOKE

Alcohol-free extract 50ml

ACTIONS/BENEFITS:

- choleric and cholagogue,
- hepatoprotective,
- lowers cholesterol levels
- liver detoxifier.

EFFECTIVE FOR:

biliary dyskinesia, cholecystitis, angiocholitis, chronic hepatitis, steatosis (fatty liver), intoxications.

INGREDIENTS:

artichoke - leaves soft extract (30%), vegetable glycerin (70%).

BIOACTIVE SUBSTANCES:

cynarine, cynaropicrin, grosheimin, cynarotriol.

COMMON HOGWEED

Alcohol-free extract 50ml

ACTIONS/BENEFITS:

- aphrodisiac,
- stimulates the secretory activity of the sexual glands,
- eliminates sterility in both women and men,
- eliminates impotence and frigidity,
- increases vitality, exercise capacity and mental tone.

EFFECTIVE FOR:

sexual dysfunction, male and female sterility, impotence, frigidity, ovarian failure, amenorrhea, menopause and premature menopause.

INGREDIENTS:

hogweed - extract of roots and seeds (30%); vegetable glycerin (70%).

BIOACTIVE SUBSTANCES:

essential oil, furanocoumarins (bergapten, isobergapten, pimpineline, isopimpineline).

ECHINACEA

Alcohol-free extract 50ml

ACTIONS/BENEFITS:

- immunostimulant,
- hyaluronidase inhibitor (stops the invasive action of bacteria),
- inhibits virus replication, being active on influenza virus, virus AH5N1 (bird flu virus), AH1N1 virus (swine flu virus), herpes simplex viruses type 1 and type 2.

EFFECTIVE FOR:

immune deficiencies, respiratory and urinary tract infections, antibiotic-resistant or recurrent infections, infections with AH5N1 and AH1N1 viruses, herpes, shingles.

INGREDIENTS:

echinacea - soft extract from aerial parts (30%), vegetable glycerin.

BIOACTIVE SUBSTANCES:

cichoric acid, polyphenols, essential oil, glycinebetaine, echinacein, echinolone.

HAWTHORN

Alcohol-free extract 50ml

ACTIONS/BENEFITS:

- antiarrhythmic,
- cardiotonic,
- coronary vasodilator,
- improves the cardiac irrigation,
- has the capacity to restore blood circulation in necrotic areas after myocardial infarction,
- antihypertensive,
- slightly sedative.

EFFECTIVE FOR:

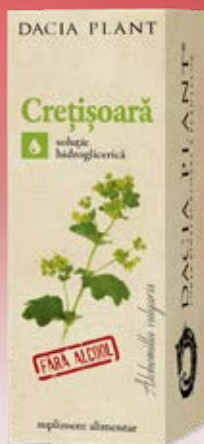

heart rhythm disorders (tachycardia, palpitations, extrasystoles), heart failure, ischemic heart disease, angina pectoris, myocardial infarction, hypertension, cardiovascular diseases that occur on a nervous background.

INGREDIENTS:

hawthorn - leaves and flowers soft extract (30%), vegetable glycerin.

BIOACTIVE SUBSTANCES:

flavonoids (hyperoside, rutoside, kaempferol, vitexin), proanthocyanidins, catechic tannins (catechol and epicatechol), phlobaphenes, triterpenic acids (ursolic, oleanolic, crategolic), coumarins, phenolic acids (caffeic and chlorogenic), amines, aminopurine, β -sitosterol.

LADY'S MANTLE

Alcohol-free extract 50ml

ACTIONS/BENEFITS:

- antihemorrhagic;
- female hormonal regulator.

EFFECTIVE FOR:

hypermenorrhea (increasing amount of menstrual flow), menorrhagia (increase in bleeding period to more than 8 days), metrorrhagia (uterine bleeding outside menstrual period), menometrorrhagia (association of extensive menstrual cycle with bleeding between two periods), polymenorrhea (increased frequency of menstrual cycle, with shorter cycles under 21 days), dysmenorrhea (menstrual pain).

INGREDIENTS:

Lady's Mantle (*Alchemilla vulgaris*) - soft extract of aerial parts (30%); vegetable glycerin (70%).

BIOACTIVE SUBSTANCES:

gallic tannins, flavonoids, ellagic acid, agrimoniin, proanthocyanide.

MILK THISTLE

Alcohol-free extract 50ml

ACTIONS/BENEFITS:

- hepatoprotective,
- liver cell regenerator,
- antihepatotoxic.

EFFECTIVE FOR:

liver disease; combination with hepatotoxic potential drugs.

INGREDIENTS:

milk thistle fruit extract (30%); vegetable glycerin (70%).

BIOACTIVE SUBSTANCES:

alanine A and B, aloeresin A and B, sennosides A, B, C and D, anthracenoides (glucofranguloside A and B), coriandron A and B, zingerone, gingerol, shogaol, α -zingiberen, anetol, α and β - mircen, camphen, limonene, anisole, linalol, terpineol.

NORMOCHOLESTEROL

Alcohol-free extract 50ml

ACTIONS/BENEFITS:

reduces blood cholesterol and triglyceride levels, protects the liver tissue from fat accumulation.

EFFECTIVE FOR:

hypercholesterolaemia, hypertriglyceridaemia, atherosclerosis, liver steatosis.

INGREDIENTS:

soft extract from herbal mixture [artichoke - leaves (20%), birch - leaves (15%), burdock - roots (15%), dandelion - leaves (10%), celandine - aerial parts (10%), rosemary - leaves (10%), thistle - fruit (10%), aloe - extract 20:1 of aerial parts (5%), ramson - leaves (3%), ginger - rhizomes (2%)]; (30%) vegetable glycerin (70%).

BIOACTIVE SUBSTANCES:

caffeoylquinic derivatives (chlorogenic acid, cynarin), flavones (cinaroside, scolimoside, luteolin), sesquiterpenic lactone (cinaropicrin, grosheimin, cinarotriol), triterpenic derivatives (taraxerol, taraxasterol, beta-amirenenol, lupeol, betulinol) taraxacin or lactucopicrin, taraxinic acid, alkaloids (chelidonine, homochelidonine, sanguinarine, chelerythrine, coptisine, berberine), aloin A and B, sulphurised compounds (thiosulphonates, ajoen), zingerone, gingerol, shogaol.

PROPOLIS NATURAL EXTRACT SOLUTION

Alcohol-free extract 20ml

ACTIONS/BENEFITS:

- antimicrobial (bacteriostatic and bactericidal both on Gram-positive bacteria and Gram-negative bacteria),
- antimycotic (on *Candida albicans*),
- antiviral (on Herpes simplex),
- analgesic, anti-inflammatory, anesthetic,
- cicatrizing,
- antioxidant.

EFFECTIVE FOR:

pharyngitis, laryngitis, tracheitis, tonsillitis, bronchitis, common colds.

INGREDIENTS:

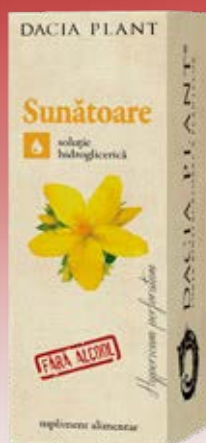

propolis hydroglycerin extract (60%), vegetal glycerin (20%), purified water (20%).

BIOACTIVE SUBSTANCES:

flavones (acacetin, chrysin, apigenin), flavonols (galangin, isalpinin, kaempferol), flavanone (pinocembrin, pinostrobin, pinobaksin), chalcone, aromatic acids, alcohols, ketones, carbohydrates, essential oils, balms, vitamins (A, C, E, PP and complex B compounds), mineral nutrients, amino acids, tannins.

WARNINGS:

contains propolis.

PROPOLIS NATURAL EXTRACT SPRAY

Alcohol-free extract 20ml

ACTIONS/BENEFITS:

- antimicrobial (bacteriostatic and bactericidal both on Gram-positive and Gram-negative bacteria),
- antimycotic (on Candida albicans),
- antiviral (on Herpes simplex),
- analgesic, anti-inflammatory, anesthetic,
- cicatrisant.

EFFECTIVE FOR:

pharyngitis, tonsillitis, diseases of the oral cavity (candidiasis, gingivitis, glossitis, abscesses), herpes, skin diseases (infectious eczema, fungal infections, superficial wounds, mild burns).

INGREDIENTS:

propolis hydroglycerin extract (60%), vegetal glycerin (20%), purified water (20%).

BIOACTIVE SUBSTANCES:

flavones (acacetin, chrysin, apigenin), flavonols (galangin, isalpinin, kaempferol), flavanone (pinocembrin, pinostrobin, pinobaksin), chalcone, aromatic acids, alcohols, ketones, carbohydrates, essential oils, balms, vitamins (A, C, E, PP and complex B compounds), mineral nutrients, amino acids, tannins.

WARNINGS:

contains **propolis**.

ST. JOHN'S WORT

Alcohol-free extract 50ml

ACTIONS/BENEFITS:

- anxiolytic, antidepressant,
- choleric, cholagogue,
- liver functions stimulant,
- antispasmodic, anti-inflammatory.

EFFECTIVE FOR:

depression, anxiety, nocturnal dread (fear, horror), nightmares, stress, hepatobiliary colic, cholecystitis, abdominal colic, colitis, enterocolitis.

INGREDIENTS:

St. John's-wort - extract of aerial parts (30%); vegetable glycerin (70%).

BIOACTIVE SUBSTANCES:

naphthodiantrone (hypericin, pseudohypericin, protopetin), essential oil (consisting of α -pinen and cadinen), flavonosides (hyperoside, rutoside, isooquercitroside).

SWEET STEVIA NATURAL SWEETENER

Alcohol-free extract 50ml

ACTIONS/BENEFITS:

natural sweetener obtained from Stevia rebaudiana.

EFFECTIVE FOR:

for sweetening drinks and foods. 25 droplets = 1 teaspoon of sugar.

INGREDIENTS:

vegetable glycerin (80%), purified water (17%), stevia natural extract (3%).

BIOACTIVE SUBSTANCES:

stevioside, rebaudioside.

VALERIAN

Alcohol-free extract 50ml

ACTIONS/BENEFITS:

- sedative,
- anxiolytic, antidepressant,
- psycho-emotional stabilizer,
- papaverine-type spasmolytic.

EFFECTIVE FOR:

nervous tension, insomnia, depression and anxiety, emotional and affective disorders, panic attacks, neurosis, nervous tics, spasmodic nervous contractions, cardiovascular diseases on a nervous background (arrhythmias, ischemia and cardiac neurosis, angina pectoris, hypertension), gastrointestinal spasms and hepato-biliary colic, tremors of various etiologies.

INGREDIENTS:

valerian - root extract (30%), vegetable glycerin (70%).

BIOACTIVE SUBSTANCES:

valepotriates (valtrate, isovaltrate, acevaltrate, didrovaltrate), essential oil.

Alcohol-free Propolis Extracts with Echinacea

These are natural products designed to maintain the health of the airways, mouth and skin. Among the orally administered natural products, alcohol-free solutions are the most easily assimilated by the body; the extract can also be administered to children and adults who are not allowed to take in ethyl alcohol.

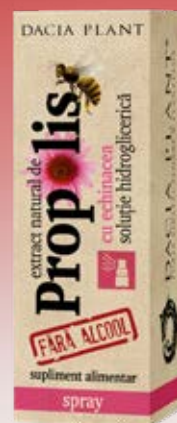

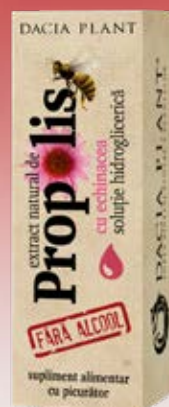

About Echinacea

Echinacea is part of the Asteraceae family, being a perennial plant, whose flowers bloom individually at the top of the stem, having white, pink or red petals and a central red-brown disk. Traditionally used by American Indians to treat infections and snake bites, the plant was taken over by US colonists in 1800 and it was introduced into the U.S. Pharmacopoeia in 1920. Nowadays, Echinacea is a widespread natural remedy both in Europe and on the American continent, being among the top ten plants used for medical purposes. Although more than 10 species of Echinacea are known, only 3 of them are used in the traditional medicine, namely: Echinacea Purpurea, Echinacea Angustifolia and Echinacea Pallida. Due to its strong immunostimulant properties, Echinacea can be deemed as one of the most effective "natural vaccines", being a plant practically free of toxicity or side-effects. The main bioactive substances responsible for plant's pharmacological property are: cicloric acid, polyholosides and essential oils. acidul cicoric, poliholozidele și uleiurile esențiale.

About Propolis

Propolis is a combination of resins and strong-flavoured balms. The name comes from Greek ('pro' – for, 'polis' – fortress) and can thus be translated as a complex product designed to protect the beehive. Considered as 'the bee pharmacy', propolis is an apicultural product obtained especially from poplar bud resin, having been known and used since ancient times.

Propolis has an extremely complex structure, namely: flavones, flavonols, flavanones, chalcones, aromatic acids, alcohols, ketones, carbohydrates, resins and balms, volatile oils, vitamins, minerals (sodium, potassium, magnesium, calcium, aluminium, zinc, iron, chromium, manganese, copper), amino acids, tannins, and pollen.

PROPOLIS with ECHINACEA (solution and spray)

Alcohol-free extract 20ml

ACTIONS/BENEFITS:

- antimicrobial and antiviral,
- respiratory antiseptic,
- anti-inflammatory and cicatrizing,
- immunostimulant,
- oral cavity and skin disinfectant

EFFECTIVE FOR:

INTERNALLY - pharyngitides, laryngitides, amygdalitides, tracheitides, bronchitides, cold, flu, common colds.

EXTERNALLY - pharyngitides, amygdalitides, oral cavity disorders (gingivitides, stomatitides, glossitides, aphtae), halitosis (bad breath), skin disorders (infectious eczemas, mycoses, superficial wounds).

INGREDIENTS:

Echinacea – hydroglyceric extract (68,67%);
propolis – hydroglyceric extract with at least 12 mg/ml polyphenols (30%); essential oil mix [wild mint (28,58%); eucalyptus (28,58%); bitter orange (14,28%); lemon (14,28%); fennel (14,28%)] (1,33%).

BIOACTIVE SUBSTANCES:

polysaccharides, echinacein, flavones (acacetin, chrysin, apigenin), flavonols (galangin, izalpinin, kaempferol), flavanones (pinocembrin, pinostrobin, pinobanksin), chalcone, resins, balms, essential oils.

WARNINGS:

contains **propolis**.

GRAPEFRUIT SEEDS with COLOIDAL ARGENTUM (spray)

Alcohol-free extract 20ml

ACTIONS/BENEFITS:

- oral cavity disinfectant,
- upper respiratory tract disinfectant,
- removes bad breath and refreshes breath.

EFFECTIVE FOR:

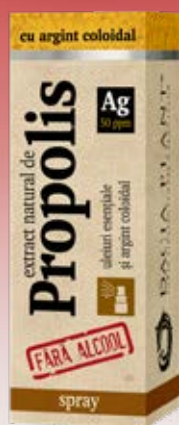

disorders of the oral mucosa (gingivitis, canker sores, stomatitis, glossitis), halena (bad breath), refreshing breath.

INGREDIENTS:

grapefruit - extract hidroglicerice
grapefruit – hydroglyceric extract (79,25%); 250 ppm colloidal silver – watery solution of microparticles with a positive electric charge and 250 ppm concentration (250 mg/l) (20%); essential oil mix [ravensara (60%); tea tree (30%); oregano (10%)] (0,75%).

BIOACTIVE SUBSTANCES:

colloidal silver nanoparticles, flavonoids (narirutin, naringin, hesperidin, neohesperidin), citric acid, essential oils.

PROPOLIS with COLOIDAL ARGENTUM (spray)

Alcohol-free extract 20ml

ACTIONS/BENEFITS:

- antimicrobial (bacteriostatic and bactericidal on both Gram-positive and Gram-negative bacteria),
- antifungal (against Candida albicans),
- antiviral (against Herpes simplex virus),
- analgesic, anti-inflammatory, anesthetic,
- healing.

EFFECTIVE FOR:

pharyngitis, tonsillitis, diseases of the oral cavity (candidiasis, gingivitis, glossitis, abscesses), herpes, halena (bad breath), breath refresher.

INGREDIENTS:

propolis – hydroglyceric extract with at least 12 mg/ml polyphenols (47,55%); 250 ppm colloidal silver – watery solution of microparticles with a positive electric charge and 250 ppm concentration (250 mg/l) (20%); vegetable glycerine (15,85%); purified water (15,85%); essential oil mix [eucalyptus(60%); culture thyme (30%); cloves (10%)](0,75%).

BIOACTIVE SUBSTANCES:

colloidal silver nanoparticles, polyphenols, flavones (acacetin, chrysin, apigenin), flavonols (galangin, izalpinin, kaempferol), flavanones (pinocembrin, pinostrobin, pinobanksin), chalcone, resins, balms, essential oils.

WARNINGS:

contains propolis.

Grapefruit Seed Extract with Colloidal Argentinum and Natural Propolis Extract with Colloidal Argentinum

These are hydroglyceric solutions for oral cavity care. The products contain high quality essential oils extracted by steam distillation, which enables internal use as well. Colloidal silver from their composition is obtained by a state-of-the-art method: by electrolysis and vacuum concentration. Grapefruit seed extract can also be administered to people allergic to propolis.

Among the orally administered natural products, alcohol-free solutions are the most easily assimilated by the body; the extract can also be administered to children and adults who are not allowed to take in ethyl alcohol.

About Grapefruit

A natural hybrid between pomelo and orange, the grapefruit fruit is appreciated for its high enzyme content. The seed extract is antiseptic and antioxidant.

About Colloidal Argentinum

From a scientific point of view, colloidal silver is a liquid dispersion containing positively charged silver particles with dimensions between 1 and 10 nm. Electrically charged silver particles the size specific to colloidal dispersion have a rapid germicidal effect, destroying over 650 types of germs. It has antiviral, antibacterial and antifungal effects.

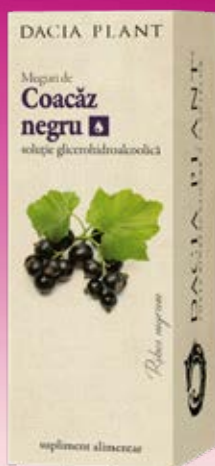

Gemmo derivatives

One of the most complex and profound effects at organic and cellular level is to be found in gemmotherapeutic extracts from fresh buds and sprouts.

Dacia Plant brand

Our gemmo derivatives contain the entire essence of the future herb. They consist of highly concentrated bioactive ingredients (vitamins, mineral nutrients, minerals, nucleic acids and natural growth factors) that have the vital force and vigor of the herb. It stimulates the production and diversification of stem cells.

BLACK CURRANT

Bud extract 50ml

ACTIONS/BENEFITS:

stimulates the adrenal glands, increases the secretion of corticosteroids (cortisone-like action), anti-inflammatory and antiallergic, diuretic, urinary antiseptic.

EFFECTIVE FOR:

INTERNALLY - adrenal insufficiency (Addison's disease), acute and chronic allergic syndromes, allergic rhinitis and conjunctivitis, bronchial asthma, allergic bronchitis, urticaria, allergic dermatitis, autoimmune diseases, chronic skin diseases, chronic degenerative rheumatism (spondylosis, gonarthrosis, coxarthrosis, etc.), rheumatoid polyarthritis, chronic inflammatory conditions (respiratory, digestive, renal, tegumentary, ophthalmologic).

INGREDIENTS:

Black Currant buds (10%), water, glycerin, ethyl alcohol (33,3% vol).

BIOACTIVE SUBSTANCES:

flavonoids, tannins, resins, vitamins, enzyme, minerals, amino acids, protein.

RASPBERRY TREE

Sprout extract 50ml

ACTIONS/BENEFITS:

female hormone regulator, uterine antispasmodic, balances the hypothalamic-pituitary-ovarian axis.

EFFECTIVE FOR:

female hypogonadism, menstrual disorders (amenorrhea, hypomenorrhea, oligomenoree, dysmenorrhea), breast pain, fibrocystic mastopathy, ovarian cysts, female sterility, threatened abortion, frigidity, menopause.

INGREDIENTS:

raspberry sprouts (10%), water, glycerin, ethyl alcohol (33,3% vol).

BIOACTIVE SUBSTANCES:

flavonoids, tannins, resins, vitamins, enzyme, minerals, amino acids, protein.

GEMMOTHERAPY

It is known as "bud therapy". In fact, it is a branch of phytotherapy, which uses meristematic tissues (buds and sprouts). Buds and plant sprouts are plant embryonic tissues that condense the therapeutic properties of leaves and fruits, having wider effects than these.

GEMMODERIVATIVES

DACIA PLANT gemmoderivatives are glycerol hydroalcoholic extracts from buds and/or sprouts. The vegetal tissues in the composition of our products are carefully selected and studied from a medical perspective. The products do not contain preservatives and artificial colouring agents.

BENEFITS

- act mainly on a specific organ (organotropism);
- high concentration of active principles;
- complex composition of bioactive substances;
- they contain certain substances that cannot be subsequently found in the adult plant;
- they are not thermally treated;
- they preserve the vigour and the vital force of the plant;
- they are not toxic;
- they can be prescribed individually and in association;
- they are easy to administer.

PREPARATION

Within 2-3 hours at most from harvesting, we carefully process the sprouts and buds of the plants, in order to enable an optimal extraction of the contained bioactive substances. The vegetal materials harvested are subject to a chopping and dosing process. At the same time, we make a mix including equal parts of alcohol, glycerin, and purified water. The following step is the mixing and maceration of the vegetal materials with the prepared extraction medium. After approximately 7-10 days of maceration, the obtained mixture is squeezed by cold pressing, decanted, filtered, transferred into special vessels, accurately dosed and then packaged.

ACTIONS

Each gemmoderivative is characterised by organotropism (specifically acting on a certain organ or system). The bioactive substances contained in the buds and sprouts have a gentle and non-violent action, designed to adjust the functions of the affected cells.

The meristematic tissues (buds and sprouts), also contain vegetal stem cells, similar to those in the human and animal bodies, with a cellular regeneration role. Also, vegetal growth hormones stimulate cellular detoxification.

DACIA PLANT gemmoderivatives may be used as such or may be combined with other types of natural remedies and methods (homeopathic, apicultural, phytotherapeutic, acupunctural, dietotherapeutic).

Men products

Alfa is the name of the product brand specially created for male health and care.

Alfa brand

The male body needs special products to support its defining features: strong, virile, fertile. ALFA is the first range of food supplements in Romania specifically created for men. ALFA will include efficient products to support male fertility, improve stress, proactively care for the urogenital system, fight harmful substance addictions, or balance potency.

ALFA is the name of the brand addressing men who wish to take care of their body in a natural way, in order to stay strong for themselves and for those beside them.

ALFA INFINITE POTENCY

60 tabs

EFFECTIVE FOR:

sexual dysfunctions, increase of the libido, sterility, devitalisation, tiredness and fatigue following physical and intellectual effort, increase in sports results.

INGREDIENTS:

maca – 4-8:1 watery extract (on a modified starch and silica support) with min. 4% amino acids / min. 2% prolines from the root (150 mg); mix * rich in polyphenols (100 mg); hogweed – 10:1 extract from the root (95 mg); ginseng – powder from the root (75 mg); Q10 coenzyme (50 mg); cinnamon – powder from the bark (25 mg); essential pine oil (5 mg).

* mix of the hydroalcoholic extract from apple peels, watery extract from grape marc and powder from saffron stigmas, with a min. of 45 % polyphenols expressed in gallic acid and a min. of 90% polyphenols expressed in catechins.

BIOACTIVE SUBSTANCES:

polyphenols (gallic acid, catechins), amino acids, prolines, flavonoids, anthocyanins, furanocoumarins (psoralens), carbohydrates.

ALFA MORE FERTILE

60 tabs

ACTIONS/BENEFITS:

increase in spermatogenesis and fertility, stimulates the secretory activity of sexual glands, stimulates the sexual function, revitalising, regenerative, adaptogenic.

EFFECTIVE FOR:

male sterility, impotence, sexual dysfunctions, tiredness and fatigue following physical and intellectual effort, increase in sports results.

INGREDIENTS:

ginseng – powder from the root (100 mg); Siberian Ginseng – 15:1 hydroethanolic extract with a min. of 0,8% eleutherosides from the root (75 mg); maca – powder from the root (75 mg); hogweed – 10:1 watery extract from the root (50 mg); chaste tree – hydroethanolic extract (on a 15% maltodextrin support) with a min. of 0,5% agnusides from fruit (50 mg); oats – 10:1 extract from seeds (50 mg); African cherry – hydroethanolic 10:1 extract from the bark (50 mg); nettle – 10:1 extract from the root (50 mg).

BIOACTIVE SUBSTANCES:

eleutherosides, agnusides, polyphenols (gallic acid, catechins), amino acids, prolines, flavonoids, anthocyanins, furanocoumarins (psoralens), carbohydrates.

ALFA NO ADDICTION

60 tabs

ACTIONS/BENEFITS:

antialcoholic, antismoking, emetic, diuretic, laxative, hepatic tonic, anti-inflammatory, antispastic.

EFFECTIVE FOR:

alcoholism, smoking, other types of addictions.

INGREDIENTS:

L-tyrosine (175 mg); maca – root powder (70 mg); kudzu – 10:1 hydroethanolic extract from the root (60 mg); calamus – 10:1 hydroethanolic extract (60 mg); lycopod – 10:1 hydroethanolic extract from aerial parts (60 mg); valerian – hydroethanolic extract with 0,3% valerianic acids from the root (50 mg); cardamom – seed powder (25 mg).

BIOACTIVE SUBSTANCES:

alkaloids (lycopodine, clavatin, lycoclavine, lycodine, etc.), valepotriates, valerianic acid, flavonosides, tannins, mineral salts.

ALFA PI PROSTATE

60 tabs

ACTIONS/BENEFITS:

5- α -reductase inhibitor, direct inhibitor of androgenic receivers, decongestive on a prostatic level, diuretic, urinary antiseptic (over colon bacilli and over Proteus vulgaris), tissular regenerant on a prostatic level.

EFFECTIVE FOR:

prostatitis, prostatic adenoma.

INGREDIENTS:

ganoderma – watery extract with a min. of 10% polysaccharides (on a 5% maltodextrin support 5%) from the mycelium (100 mg); saw palmetto – powder from fruit (100 mg); pollen – powder (100 mg); propolis – ethanolic extract with 6% total polyphenols expressed as gallic acid (on a support of acacia gum, sucrose, and silica) (75 mg); saw palmetto – 20:1 hydroethanolic extract (on a 10% maltodextrin support) from fruit (50 mg); African cherry – 10:1 hydroethanolic extract from the bark (50 mg); yeast – powder enriched with 10% zinc* (25 mg). *6 tablets provide 15 mg of zinc, namely 150% of DRV** ** Dietary Reference Values according to EU Regulations 1169/2011

BIOACTIVE SUBSTANCES:

polysaccharides, gallic acid, minerals, vitamin B complex, volatile oils, steroidal saponins, flavonoids, fatty acids and polysaccharides.

WARNINGS:

Propolis and pollen content.

ALFA ZERO STRESS

60 TABS

ACTIONS/BENEFITS:

adaptogenic, fights stress, fortifying, vitalizing, increases endurance.

EFFECTIVE FOR:

stress, overwork, fatigue and exhaustion, devitalization, physical and mental asthenia, convalescence, during periods of sustained physical and intellectual effort.

BIOACTIVE SUBSTANCES:

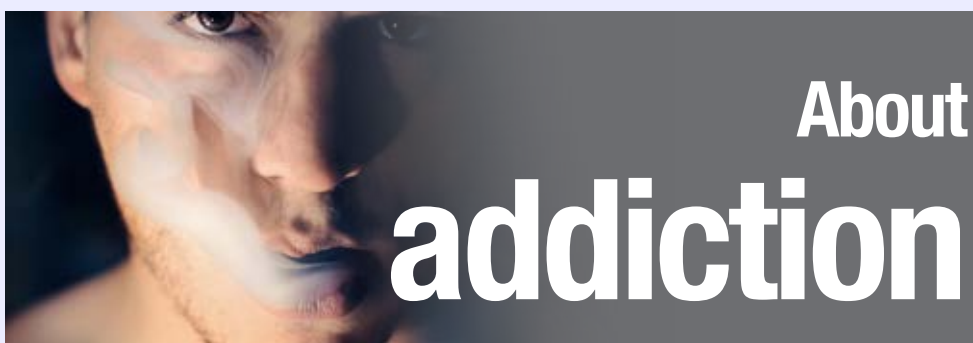

eleutherosides, hypericin, flavonoids and xanthonenes, glycyrrhizin, polyholosides, pollinic alcohol.

About
potency

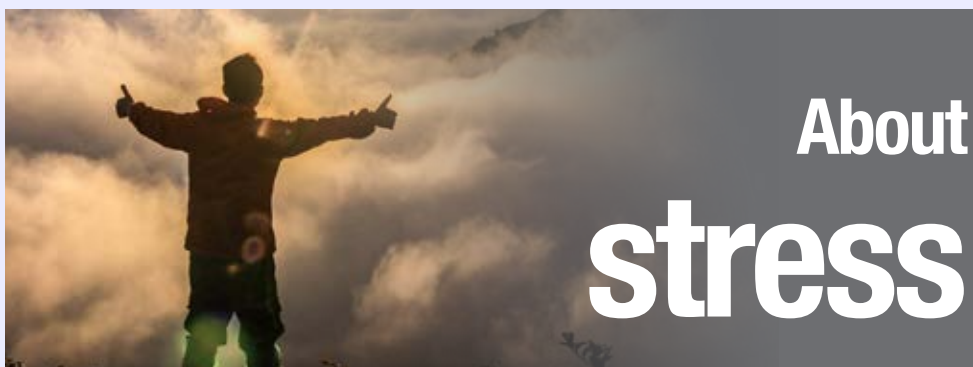

About
fertility

About
addiction

About
prostate

About
stress

Sexual activity is a necessary condition for a healthy and fulfilling life. The main feature of the characteristics defining the virility of a man, potency is seen as the capacity to support a satisfying sexual activity. Erectile health is important not only for physical health, but also for the psychical health of the man, who thus feels fulfilled and strong.

Nowadays, potency is considered more often than ever, because it is strongly threatened by the negative effects of stress and of the modern lifestyle, influencing the lives of men day by day.

ALFA has a 100% natural solution, Alfa Infinit Potență, helping to increase male potency and libido, to support the erectile function, to improve vitality and body tonus.

Reproduction is a simple and natural experience for most couples. In spite of this, for some couples nowadays, infertility is a real problem, and male infertility is as common as female infertility. Male infertility is considered based on the sperm quantity and quality, a low number of spermatozooids or low-quantity spermatozooids, leading to reproduction problems.

It is estimated that one every 20 men has a type of fertility problems, but most of the times, this diagnosis is reached only following analyses.

ALFA has a 100% natural solution, Alfa Mai Fertil, recommended for the maintenance of male fertility at an optimal level and for the support of the spermatozoid secretion.

Addiction is a condition resulting when a person abuses certain substances and continues using them until their consumption interferes with the responsibilities of regular life – namely work, relationships, or health. Physical addiction stands for a state in which the body adapts to the presence of a specific substance, so that it fails to hold the same effect or – to the contrary – there are exaggerated reaction phenomena resulting.

Most of the times, users do not realize that their behaviour is out of control, causing problems for themselves and others. The addictions are turning into an overwhelming problem nowadays, because of stress and social inadaptability resulting from performance pressure.

ALFA has a 100% natural solution, Alfa Fără Dependențe, recommended in cases of alcoholism, smoking, addictions to other natural or synthetic substances.

The prostate is a gland with the size of a nut, located between the urinary bladder and the penis. A healthy prostate weighs approximately 11 grams on average and can be felt during rectal examination. It secretes a liquid that represents approximately 30% of the sperm volume, which embeds and protects spermatozooids, helping to increase their motility.

After a certain age, men often experience prostatic issues. The most common are prostatitis (prostate inflammation caused by infections), increased prostate (prostatic adenoma affecting almost all men over 50 and generating urination problems), prostate cancer.

ALFA has a 100% natural solution, Alfa Pi Prostata, helping to maintain prostate health.

Stress is the way in which our body responds to any external threat. In that moment, the nervous system reacts by releasing a stress hormone flow, including adrenalin and cortisone, to awaken the body. Our heart beats faster, the muscles contract, the arterial tension rises, the respiration increases, and the senses are more acute. These physical modifications increase the body power and strength, shorten the reaction time, and accrue focus. When stress is at a comfortable level, it helps us focus better, be more energetic and alert. Beyond the comfort zone, stress stops being helpful and may lead to major physical and psychical harm.

Under current modern life conditions, when we are continuously exposed to stress, it is necessary to think of solutions able to help our body and to correctly respond to stress, without entering the hyperactivity zone.

ALFA has a 100% natural solution, Alfa Zero Stres, helping to protect the body against stress, harmonise the psychoemotional state, reduce the psychic tensions, while providing a state of tranquillity.

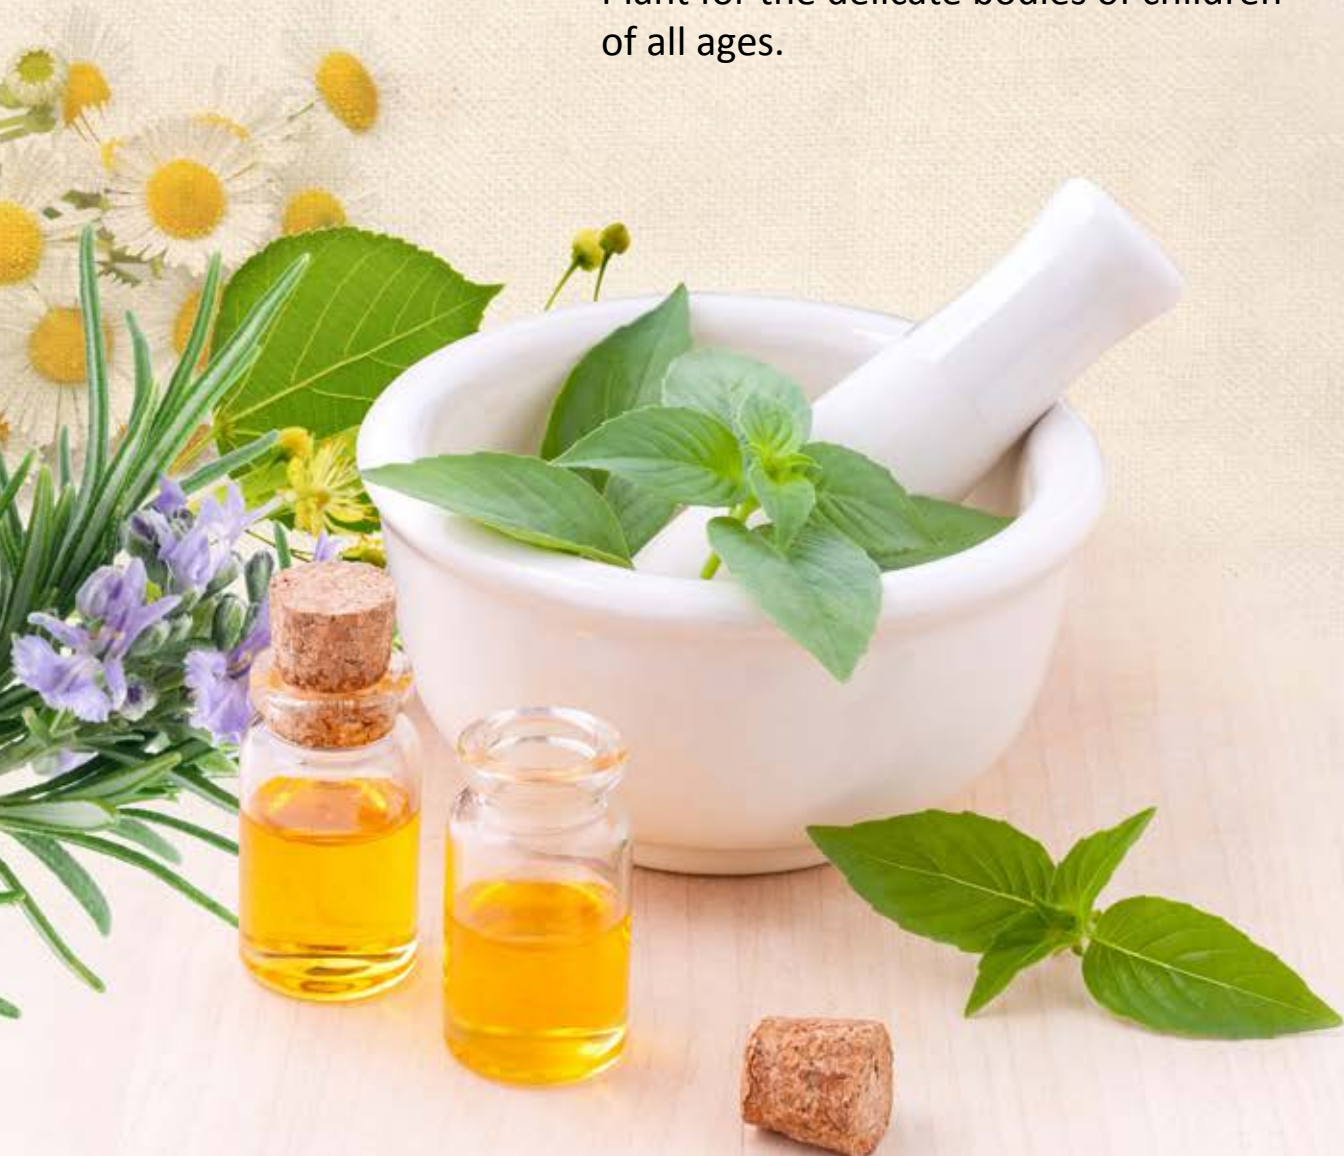

Baby products

INTERNALLY - dry and productive cough, acute and chronic bronchitis, tracheitis and tracheobronchitis, bronchial catarrh, common colds (coughing, sore throat, runny nose, sneezing) and flu-like syndromes.

INGREDIENTS:

melilot - flowers (15%), brotherwort – aerial parts (10%), cowslip – aerial parts (10%), gumweed – aerial parts (10%), hibiscus - flowers (10%), common marshmallow - roots (10%), orange zest (10%), basil – aerial parts (5%), thyme – aerial parts (5%), liquorice - roots (5%), iceland moss - thallus (5%), mint – aerial parts (5%).

BIOACTIVE SUBSTANCES:

triterpenic saponins, mucilages, flavones, tannins, polyholosides, essential oils.

COUGH SYRUP

Syrup 200 ml

Respiratory tract decongestion

ACTIONS/BENEFITS:

INTERNAL - antitussive, fluidifies bronchial secretions, expectorant, secretolytic (decreases secretions), anti-inflammatory, antispasmodic, decongestant of the airways, soothing, antibacterial.

EFFECTIVE FOR:

INTERNALLY - dry or productive coughs of various causes, acute and chronic bronchitis, tracheitis, tracheobronchitis, asthmatic bronchitis, bronchial catarrh, common colds (coughing, sore throat, runny nose, sneezing), flu-like syndromes.

INGREDIENTS:

herbal mix extract [gumweed – aerial parts (35%), plantago – leaves (20%), liquorice – root (15%), ginger – rhizomes (10%), flat sea holly – aerial parts (10%), common marshmallow – root (5%), pippali – fruit (5%)] (30%); essential oils mix [pine (30%), eucalyptus (20%), peppermint (20%), lemon balm (20%), cinnamon (10%)] (0,005%), fructose (69,995%).

BIOACTIVE SUBSTANCES:

triterpenic saponins, mucilages, flavones, tannins, iridoids (aucuboside, asperuloside), essential oils.

IMMUNOSTIMULANT

Syrup 200 ml

Immunity stimulant

ACTIONS/BENEFITS:

INTERNAL - immunostimulant, antiviral, antiseptic, anti-inflammatory, expectorant.

EFFECTIVE FOR:

INTERNALLY - immunodeficiency, influenza, cold, common colds (coughing, sore throat, runny nose, sneezing), acute and chronic bronchitis, tracheitis, tracheobronchitis, tonsillitis, sinusitis, urinary infections (cystitis, urethritis), recurrent infections, herpes, herpes zoster.

INGREDIENTS:

herbal infusion (echinacea - aerial parts extract, astragalus - root extract, elderberry – fruit juice, water) (30%), essential oils (fir tree, lemon, sage) (0,005%), fructose (69,995%).

BIOACTIVE SUBSTANCES:

cichoric acid, essential oil (consisting of alkaloids), nitrogen derivatives (glycinebetaine), echinacein, echinolone, isoflavones, astragalosides I, II and III, polyholosides.

INCREASES THE APPETITE

Syrup 200 ml

Appetite stimulant

ACTIONS/BENEFITS:

INTERNAL - antianorexic (increases the appetite), vitalizer, vitaminizing, stomachic, digestive tonic, stimulates weight gain, increases body strength.

EFFECTIVE FOR:

INTERNAL
anorexia (lack of appetite), anaemia, states of asthenia and weakness, devitalisation.

INGREDIENTS:

herbal mixture extract (buckthorn – fruit (35%), ashwagandha – root (20%), shatavari – root (20%), garden angelica – root (10%), ginger – rhizomes (7,5%), pippali – fruit (7,5%)](30%), lemon essential oil (0,005%), fructose (69,995%).

BIOACTIVE SUBSTANCES:

zingiberene, gingerol, macrocyclic lactones, furanocoumarins, essential oils, vitamins, minerals, phenolic acids.

LAXEN

Syrup 200 ml

Constipation relief

ACTIONS/BENEFITS:

INTERNAL - laxative, anti-colic, antispasmodic, anti-inflammatory, carminative and digestive stimulant.

EFFECTIVE FOR:

INTERNALLY - constipation, bloating, anorexia (lack of appetite) and digestion disorders.

INGREDIENTS:

herbal mixture extract [fennel – fruits (30%), dandelion – leaves (30%), liquorice – root (17%), revent – root (15%), ash – leaves (5%), garden angelica – root (3%)](10%); concentrated fruit juice [grape (10%), pear (8%), plums (7%)], figs – fruits (3%), elderberry – fruit syrup with 70% fructose (2%), fructose (50%), purified water (10%).

BIOACTIVE SUBSTANCES:

taraxerol, taraxasterol, β -amyrenol, lupeol, betulinol, bitter principles sesquiterpenice, triterpenoid saponins (glycyrrhizin, liquiritic acid, glabric acid), flavones (liquiritin, neoliquiritin, glabrol), isoflavones, chalcone.

TUMMY TEA

Herbal mix tea 50 g

Anti-colic formula

ACTIONS/BENEFITS:

INTERNAL - antispasmodic, anti-colic, carminative, stomachic, increases the appetite.

EFFECTIVE FOR:

INTERNALLY - abdominal cramps, indigestion, dyspepsia, bloating, anorexia.

INGREDIENTS:

caraway – fruit (25%), coriander – fruit (20%), brotherwort – aerial parts (15%), basil – aerial parts (10%), fennel – fruit (10%), hibiscus – flowers (10%), chicory – aerial parts (5%), liquorice – roots (5%).

BIOACTIVE SUBSTANCES:

tannins, essential oils, flavonoids, bitter principles (lactucopicrin, lactucin), triterpenoid saponins, furanocoumarins, organic acids.

VERMOLIN

Syrup 200 ml

Antiparasitic

ACTIONS/BENEFITS:

INTERNAL - antiparasitic, antispasmodic, anti-colic, stomachic, increases the appetite.

EFFECTIVE FOR:

INTERNALLY - intestinal parasites, abdominal cramps, anorexia, digestive disorders.

INGREDIENTS:

extract from **Special Mix Vermino** (zucchini – seeds (11%), brotherwort – aerial parts (10%), anise – fruit (9%), fennel – fruit (9%), basil – leaves (8%), thyme – aerial parts (8%), coriander – fruit (7%), pippali – fruit (7%), cloves – buds (5%), dill – fruit (5%), cinnamon – bark (5%), tarragon – leaves (5%), hydrastis – root(3%)] (20%); grapefruit – extract 10:1 din seeds (0,77%), walnut – extract 4:1 din bark (0,77%), **propolis** – extract with 2,5% flavonoids (0,77%), fructose (70%); essential oils [tea-tree (0,005%); coriander (0,005%); thyme (0,005%)]; fructose (70%); purified water (7,675%).

BIOACTIVE SUBSTANCES:

essential oils, furanocoumarins, flavonoids, tannins, triterpenic acids, chalcone, aromatic acids.

WARNINGS:

contains **propolis**.

Îngerașul brand

Îngerașul is Dacia Plant's product brand specially created for children. The products contain top-quality plants and organic minerals that get easily absorbed and are correctly assimilated by the body.

Îngerașul brand brings products for respiratory tract decongestion, intestinal contraction normalisation and intestinal tract acceleration, increase in appetite, maintenance of blood health and immunity stimulation.

The syrups

Children need special products, adapted to their growth stage, from plants beneficial to their frail bodies.

They have a good taste, exclusively given by the plants and the fructose in the composition and do not contain preservatives, colouring agents, or other chemical additives.

The volatile oils added to the syrups are designed to potentiate the effect of plants, turning Îngerașul syrups into efficient solutions, perfectly adapted for children.

Therapeutic teas

Îngerașul teas are plant mixes, with a gentle action on the sensitive bodies of children. They are complex combinations, based on many plants, in small doses, with gentle effects and helping to maintain the health of children.

They can be prepared as an infusion or as a maceration extract and they can be sweetened with honey. Îngerașul brand guarantees healthy and natural products, exclusively designed for the health of children. Îngerașul makes sure that all children grow healthy and harmoniously develop psychically and physically.

PUFYPUF PROPOLIS AND ECHINACEA

Alcohol-free extract 20 ml

Strong immunity

ACTIONS/BENEFITS:

- antimicrobial (bacteriostatic and bactericidal on both Gram positive and Gram negative bacteria),
- antimycotic (against *Candida albicans*),
- antiseptic,
- immunostimulatory,
- anti-inflammatory,
- cicatrising.

EFFECTIVE FOR:

- respiratory diseases,
- immune deficiencies,
- recurrent infections,
- pharyngitis, tonsillitis.

INGREDIENTS:

echinacea - hydroglycerate extract (70%);
propolis - hydroglycerate extract with at least 12 mg / ml polyphenols (30%).

ACTIVE SUBSTANCES:

flavones (acacetin, crizin, apigenin), flavonoids (galangin, isalpinin, kaempferol), flavanone (pinocembrine, pinostrobin, pinobacsine), chalcones, aromatic acids, cioric acid, polyholosides, alkamides, glycine betaine, echinacin, echinolone.

WARNINGS:

contains **propolis**.

PUFYPUF PROPOLIS AND CHAMOMILE

Alcohol-free extract 20 ml

Natural disinfectant

ACTIONS/BENEFITS:

- antimicrobial (bacteriostatic and bactericidal on both Gram positive and Gram negative bacteria),
- antimycotic (against *Candida albicans*),
- antiseptic and emollient,
- anti-inflammatory and antispasmodic,
- cicatrising and epithelizing.

dysmenorrhea (menstrual pain) and premenstrual syndrome, menstrual disorders due to deficit (amenorrhea, hypomenorrhea, oligomenorrhea), infertility in women.

INGREDIENTS:

dong quai – 10:1 hydroalcoholic extract from roots (150 mg); vitex – hydroalcoholic extract with 0.5% agnuside from fruit (150 mg); boswellia – 10:1 hydroalcoholic extract from resin (100 mg); lady's mantle – aerial parts (50 mg); black cohosh – 10:1 hydroalcoholic extract from roots (25 mg); raspberry – 4:1 hydroalcoholic extract from sprouts (25 mg); kudzu – 10:1 hydroalcoholic extract from roots (10 mg); chamomile – flowers (10 mg); garden angelica – roots (10 mg); yarrow – aerial parts (10 mg); fennel – fruit (10 mg); lemon balm – essential oil (5 mg).

BIOACTIVE SUBSTANCES:

phytoestrogens, iridoids (aucuboside and agnuside), flavonoids (casticin, orientin and isovitexin), 3-ketosteroids, α and β -boswellic acids, tannins, flavonosides.

NATURAL ESTROGEN

60 tabs

Hormonal support for women

ACTIONS/BENEFITS:

- corrects hormonal deficiencies in women by increasing estrogen levels.

EFFECTIVE FOR:

menstrual disorders due to deficit (amenorrhea, hypomenorrhea, oligomenorrhea), dysmenorrhea (menstrual pain), premenstrual syndrome, menopause and premature menopause, infertility in women, hirsutism, breast hypoplasia.

INGREDIENTS:

dong quai – root (300 mg), dong quai - root hydroalcoholic extract 10 :1 (200 mg).

BIOACTIVE SUBSTANCES:

phytoestrogens.

NATURAL PROGESTERONE

60 tabs

Progesteron secretion aid

ACTIONS/BENEFITS:

- stimulates the progesterone secretion,
- inhibits prolactin secretion.

EFFECTIVE FOR:

breast pains and inflammations, menstrual disorders caused by progesterone deficit, infertility in women, repeated miscarriages, ovary and mammary cysts, premenstrual syndrome, luteal-type deficiency, hyperprolactinaemia.

INGREDIENTS:

vitex – hydroalcoholic extract with 0.5% agnuside from fruit (400 mg).

BIOACTIVE SUBSTANCES:

iridoids (aucuboside and agnuside), flavonoids (casticin, orientin and isovitexin), essential oil (including α -pinene, limonene, sabinene, 1,8-cineole), fatty acids (oleic, linoleic, palmitic, stearic), 3-ketosteroids.

SILUETH 90-60-90

60 tabs

Body wellness and fitness

ACTIONS/BENEFITS:

- reduction of adipose tissue.

EFFECTIVE FOR:

adjuvant in obesity and weight loss diets.

INGREDIENTS:

artichoke - 4: 1 hydroethanolic extract from the leaves (150 mg); tar- 5: 1 hydroethanolic extract from leaves (150 mg); senna - leaf powder (100 mg); ginger - root powder (50 mg); green tea - hydroethanolic extract with 90% leaf polyphenols (50 mg); cinnamon - bark powder (45 mg); rosemary essential oil (5 mg)

BIOACTIVE SUBSTANCES:

cinnarine, triterpene saponins of oleanan type (gymnemic acids I-VIII and gymnemasaponine) and damaran type (gymnemosides A-F), ginger, gingerols, shogaol, α -zingiberene, senosides, polyphenols, chromium picolinate.

**URI**

60 tabs

Urinary tract health

ACTIONS/BENEFITS:

- urinary antiseptic,
- diuretic,
- anti-inflammatory.

EFFECTIVE FOR:

urinary infections.

INGREDIENTS:

cranberry – hydroalcoholic extract with 25% anthocyanidin from fruit (100 mg); bearberry – 10:1 hydroalcoholic extract from leaves (100 mg); juniper – 5:1 hydroalcoholic extract from fruit (100 mg); restharrow – roots (60 mg); field horsetail – 4:1 hydroalcoholic extract from aerial parts (30 mg); cherry – cherry tails (25 mg); corn – tassel (25 mg); couch grass – rhizomes (25 mg); common knotgrass – aerial parts (25 mg); essential aniseed oil (10 mg).

BIOACTIVE SUBSTANCES:

hydroquinone derivatives (arbutin, methyl arbutin, piceoside), flavonoids, anthocyanidin, phenolic acids, tannins, terpenic derivatives (β -amyrenol, lupeol, uvaol, ursolic acid, oleanolic acid, onocerin), isoflavonoids (ononin).

**URI**

Alcohol-free extract 50 ml

Urinary tract health

ACTIONS/BENEFITS:

- urinary antiseptic,
- mild diuretic.

EFFECTIVE FOR:

urinary infections.

INGREDIENTS:

cranberry – soft leaf extract (30%), vegetable glycerine (70%).

BIOACTIVE SUBSTANCES:

arbutin, methyl arbutin, vaccinine, flavone (hyperoside, isoquercitroside), catechic and ellagic acid, quinic acid.

**URI**

Herbal tea 50 g

Urinary tract health

ACTIONS/BENEFITS:

- urinary antiseptic,
- diuretic,
- anti-inflammatory.

EFFECTIVE FOR:

urinary infections, edema (water accumulation in the tissues), heavy or swollen feet, urinary stones, gout.

INGREDIENTS:

cranberry – leaves and sprouts (40%); juniper – fruit (20%); restharrow – roots (10%); corn – tassel (10%); field horsetail – aerial parts (10%); cherry – cherry tails (10%).

BIOACTIVE SUBSTANCES:

arbutin, methyl arbutin, diterpene, isocupressic acid, α and β -cedrene, tannins, juniperin, lactone, isoflavonoids (ononin), triterpenic derivatives (onocerin), sterols.

CONFORT GYN

Herbal tea 50 g

Vaginal cleansing tea

ACTIONS/BENEFITS:

- reduces the discomfort that occurs in the genitals by balancing flora and vaginal pH;
- general vaginal hygiene;
- vaginal hygiene in case of abnormal secretions, itching, irritation and burning sensation;
- after the menstrual cycle, to regenerate intimate areas;
- after unprotected sex, to remove secretions or contraceptive substances;
- vaginal hygiene for menopausal women.

EFFECTIVE FOR:

Maintains the hygiene of female intimate areas.

INGREDIENTS:

wild thyme aerial parts (24%); chamomile aerial parts (20%); yarrow aerial parts (18%); marigold flowers (10%); celandine aerial parts (10%); sage aerial parts (10%); jasmine flowers (8%).

BIOACTIVE SUBSTANCES:

volatile oil, flavonoids, flavones, triterpene compounds (ursolic and oleanolic acids), glucosides and galactosides of timol and carvacrol, polyphenolcarboxylic acids (chlorogenic and rosmarinic), proazulines (matricin, matricarin), coumarins (flavonoids, apigenin, luteolin), phenolic acids (caffeic, chlorogenic, anisic, salicylic, vanilic).

SILUETH 90-60-90

Herbal tea 50 g

Body wellness and fitness

ACTIONS/BENEFITS:

- diuretic,
- mild laxative,
- mild hypocholesterolemic.

EFFECTIVE FOR:

adjuvant in weight loss cures.

INGREDIENTS:

green tea - leaves (35%); mint - leaves (25%); senna - leaves (15%); chicory - roots (10%); hibiscus - flowers (10%); lovage - leaves (5%).

BIOACTIVE SUBSTANCES:

α and β -pinen, menthol, menthone, cineol, limonene, β -thujone and sabinene, polyphenolic acids (caffeic and chlorogenic acid), gallic tannins, catechist and mixed, tropolone structured polyphenols, MSM (methylsulfonylethane), flavonoids, proanthocyanidine.

Sublima brand

Sublima is the name of the product brand specifically created for female health and care.

Women need special solutions, adapted to the physiology and appearance of their bodies.

We have products for the hormonal balancing of female bodies, for the fight against nuisances caused by menstruation and menopause, for the maintenance of genital and urinary apparatus health, as well as for silhouette maintenance.

Sublima is the name including efficient products, based on vegetal phytoestrogens and plants with intense beneficial effects on female bodies, as well as products designed to maintain the ideal weight and a beautiful silhouette.

Sublima is the brand addressing women who wish to care for their bodies in a natural way.

Cough remedies

Traditional recipes, 100% natural, effective in both dry coughs and productive coughs. Synergistic blend of plants and essential oils with a complex cough soothing effect.

Calmotusin brand

Calmotusin brand contains a wide range of products with different forms of usage: syrup, tablets, tea, spray and sweets, specially dedicated to natural and effective treatment of respiratory conditions. The natural plant mix of Calmotusin acts on both dry, irritating cough, as well as on productive cough by its expectorant, antitussive, emollient, anti-inflammatory and soothing properties, effectively protecting the respiratory system.

CALMOTUSIN TEA

Herbal mixture tea 50g

For all types of coughs

ACTIONS/BENEFITS:

- respiratory antiseptic,
- fluidifies bronchial secretions,
- expectorant,
- secretolytic (decreases bronchial secretions),
- anti-inflammatory,
- antispastic,
- bronchodilator.

EFFECTIVE FOR:

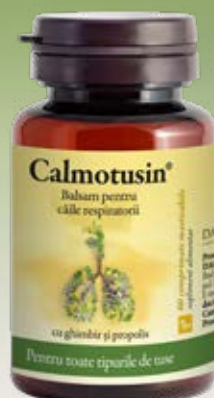

cough of different etiologies, acute and chronic bronchitis, bronchial asthma, asthmatic bronchitis, bronchial catarrh, common colds, flu-like syndromes.

INGREDIENTS:

pine – buds (15%); thyme – aerial parts (15%); anise-star – fruits (15%); cowslip – aerial parts (10%); hyssop – aerial parts (10%); liquorice – roots (10%); iceland moss – leaf (10%); lady's bedstraw – aerial parts (5%); lady's mantle – aerial parts (5%); calamus – roots (5%).

BIOACTIVE SUBSTANCES:

flavonoids, tannins, caffeic acid, thymol, carvacrol, triterpene acids.

CALMOTUSIN TABS

60 tabs

For all types of cough

ACTIONS/BENEFITS:

- antitussive,
- fluidifies bronchial secretions,
- expectorant,
- respiratory tract decongestant,
- bronchodilator,
- antispasmodic,
- antimicrobial and soothing.

EFFECTIVE FOR:

cough of different etiologies, bronchitis, tracheitis, laryngitis, pharyngitis, bronchial catarrh, pneumonia and asthmatic bronchitis.

INGREDIENTS:

cowslip – aerial parts (25 mg); licorice – root (25 mg); ginger – root (15 mg); propolis extract 2:1 (15 mg); essential oils [mint (12 mg); eucalyptus (6 mg); pine (6 mg); thyme (1 mg); lemon balm (1 mg)].

BIOACTIVE SUBSTANCES:

flavonoids, glycyrrhetic acid, glycyrrhizin, saponins, essential oils.

WARNINGS:

contains propolis.

CALMOTUSIN SYRUP

200 ml

For all types of cough

ACTIONS/BENEFITS:

- antitussive,
- fluidifies bronchial secretions,
- expectorant,
- bronchodilator,
- secretolytic,
- respiratory tract decongestant
- antispasmodic,
- anti-inflammatory,
- soothing and antimicrobial.

EFFECTIVE FOR:

productive cough, dry cough, spasmodic cough, acute and chronic bronchitis, asthmatic bronchitis, bronchial catarrh, common colds, flu-like syndromes.

INGREDIENTS:

raw sugar (64%), herbal mix extract* (35,93%), citric acid (0,04%), essential oil mix** (0,03%).

*herbal mix extract: [plantago – leaves (30%), hyssop – aerial parts (20%), marsh-mallow (althaea) – roots (20%), cowslip – flowers (10%), blue eryngo – aerial parts (10%), liquorice – roots (5%), ginger – rhizome extract (5%)] (35,97%).

**essential oils: (peppermint (70%), eucalyptus (15%), thyme (5%), lemon balm (5%), pine (5%),

BIOACTIVE SUBSTANCES:

mucilages, triterpenoid saponins, marubbin, essential oils.

WARNINGS:

contains sugar.

CALMOTUSIN SYRUP WITH HONEY

100 ml

For all types of coughs

ACTIONS/BENEFITS:

- expectorant
- emollient
- decongestant of the respiratory tract.

EFFECTIVE FOR:

cough of various etiologies, acute and chronic bronchitis, tracheitis, bronchial catarrh, respiratory viral infections, influenza.

INGREDIENTS:

acacia honey (89.8%), herbal mix extract* (10%) and essential oils** (0.2%).

***herbal mix:** plantain leaves (30%); hyssop aerial parts (20%); marsh-mallow roots (20%); cowslip aerial parts (10%); blue eryngo aerial parts (10%); licorice roots (5%); ginger roots (5%).

****essential oils:** eucalyptus (38.16%); anise (24.16%); mint (12.56%); sweet orange (12.56%); lemons (12.56%).

BIOACTIVE SUBSTANCES:

flavonoids, glycyrrhetic acid, glycyrrhizin, saponosides, volatile oils, vitamins (A, B1, B2, B3, B6, C, PP), pantothenic acid, folic acid, minerals (Fe, Ca, K, Na, Mg, Cu, Zn, Mn, Si, P), amino acids, proteins, enzymes (invertase, amylase, catalase), organic acids, flavonoids (pinocembrin) and dextrans.

CALMOTUSIN SPRAY WITH COLOIDAL ARGENTUM

20 ml

Respiratory protective shield

ACTIONS/BENEFITS:

- expectorant,
- respiratory tract antiseptic,
- antimicrobial,
- anti-inflammatory,
- disinfectant of the oral cavity.

EFFECTIVE FOR:

cough of various etiologies, tracheitis, acute and chronic bronchitis, bacterial infections in the ENT sphere, dysphonia (hoarseness), bronchial catarrh, respiratory viruses, influenza, diseases of the oral cavity (stomatitis, glossitis, gingivitis), pharyngitis, laryngitis.

INGREDIENTS:

soft extract of plant mixture [plantain leaves (30%); hyssop aerial parts (20%); marsh-mallow roots (20%); cowslip aerial parts (10%); blue eryngo aerial parts (10%); licorice roots (5%); ginger roots (5%)] (20%); **propolis** - hydroglyceric extract with at least 12 mg / ml polyphenols (10%); colloidal silver - aqueous solution with silver microparticles loaded with positive electrical charge with 50 ppm concentration (10%); mix of essential oils [sweet orange (30.2%); eucalyptus (30.2%); wild mint (19.8%); lemons (19.8%)] (0.76%); vegetable glycerin (59.24%).

BIOACTIVE SUBSTANCES:

silver microparticles, flavonoids, glycyrrhetic acid, glycyrrhizin, saponosides, volatile oils.

WARNINGS:

contains **propolis**.

CALMOTUSIN SPRAY WITH PROPOLIS AND MINT

20 ml

For all types of coughs

ACTIONS/BENEFITS:

- expectorant,
- decongestant in the respiratory tract,
- respiratory antiseptic,
- anti-inflammatory,
- antibacterial.

EFFECTIVE FOR:

cough of various etiologies, pharyngitis, laryngitis, tracheitis, acute and chronic bronchitis, respiratory viruses, influenza, dysphonia (hoarseness).

INGREDIENTS:

soft extract of plant mixture [ribwort leaves (30%); hyssop aerial parts (20%); marsh-mallow roots (20%); cowslip aerial parts (10%); blue eryngo aerial parts (10%); licorice roots (5%); ginger roots (5%)] (30%); **propolis** - hydroglyceric extract with at least 12 mg / ml polyphenols (10%); mix of essential oils [wild mint (28.57%); lemons (28.57%); sweet orange (28.57%); eucalyptus (14.29%)] (1.3%); vegetable glycerin (58.7%).

BIOACTIVE SUBSTANCES:

flavonoids, glycyrrhetic acid, glycyrrhizin, saponosides, volatile oils.

WARNINGS:

contains **propolis**.

CALMOTUSIN LOZENGES

100g

For all types of coughs

ACTIONS/BENEFITS:

- helps clear the upper respiratory tract and maintain normal secretions;
- has a calming, soothing and pleasant effect on the throat, pharynx and vocal cords;
- supports breathing and gives respiratory comfort.

EFFECTIVE FOR:

respiratory tract decongestion, inflammation of the throat, pharynx and vocal cords, soothing the respiratory system.

INGREDIENTS:

glucose (54.64%); crystallized nectar from coconut flowers (36.43%); acacia honey (7.29%); extract from herbal mixture* (0.73%); Eucalyptus-menthol (0.62%); essential oils** (0.29%).

* **herbal mixture:** plantago leaves (30%); hyssop aerial parts (20%); marsh-mallow roots (20%); cowslip aerial parts (10%); blue eryngo aerial parts (10%); licorice roots (5%); ginger roots (5%).

** **essential oils:** eucalyptus (38.16%); anise (24.16%); wild mint (12.56%); sweet orange (12.56%); lemons (12.56%).

BIOACTIVE SUBSTANCES:

glycyrrhetic acid, glycyrrhizin, saponosides, volatile oils, vitamins (A, B1, B2, B3, B6, C, PP), pantothenic acid, folic acid, minerals (Fe, Ca, K, Na, Mg, Cu, Zn, Mn, Si, P), amino acids, proteins, enzymes (invertase, amylase, catalase), organic acids, flavonoids (pinocembrin) and dextrans.

CALMOTUSIN JUNIOR SYRUP WITH CHERRY

100 ml

Respiratory tract balm

ACTIONS/BENEFITS:

antitussive, thinner of bronchial secretions, expectorant, bronchodilator, airway decongestant, anti-inflammatory, antispasmodic, calming, antibacterial (studies show that ginger has greater activity against *Staphylococcus aureus* and *Streptococcus pyogenes* than other antibiotics such as chloramphenicol, ampicillin and tetracycline).

EFFECTIVE FOR:

dry-type cough of various etiologies (dry cough) or wet (productive cough), whooping cough, spasmodic cough, acute and chronic bronchitis, tracheitis, tracheobronchitis, asthmatic bronchitis, bronchial catarrh, respiratory viruses, influenza.

INGREDIENTS:

herbal mixture extract [plantain - leaves (30%); hyssop - aerial parts (20%); mallow - roots (20%); primrose - aerial parts (10%); blue eryngo - aerial parts (10%); licorice - roots (5%); ginger - roots (5%)] 11.95%; natural cherry flavor (8%); essential oils [sweet orange (45%); lemon (35%); wild mint (10%); eucalyptus (10%)] 0.05%; acacia honey (80%).

BIOACTIVE SUBSTANCES:

triterpene saponins, iridoids, polyphenols, sterols, tannins.

CALMOTUSIN JUNIOR SYRUP WITH ORANGES

100 ml

Respiratory tract balm

ACTIONS/BENEFITS:

antitussive, thinner of bronchial secretions, expectorant, bronchodilator, airway decongestant, anti-inflammatory, antispasmodic, calming, antibacterial (studies show that ginger has greater activity against *Staphylococcus aureus* and *Streptococcus pyogenes* than other antibiotics such as chloramphenicol, ampicillin and tetracycline).

EFFECTIVE FOR:

dry-type cough of various etiologies (dry cough) or wet (productive cough), whooping cough, spasmodic cough, acute and chronic bronchitis, tracheitis, tracheobronchitis, asthmatic bronchitis, bronchial catarrh, respiratory viruses, influenza.

INGREDIENTS:

herbal mixture extract [plantain - leaves (30%); hyssop - aerial parts (20%); mallow - roots (20%); primrose - aerial parts (10%); blue eryngo - aerial parts (10%); licorice - roots (5%); ginger - roots (5%)] 16.95%; natural orange flavor (3%); essential oils [sweet orange (45%); lemon (35%); wild mint (10%); eucalyptus (10%)] 0.05%; acacia honey (80%).

BIOACTIVE SUBSTANCES:

triterpene saponins, iridoids, polyphenols, sterols, tannins.

Colon cleansing and detox

Powders can be administered with water, juices, yogurts, milk, rice, almonds or soya milk, as such or sweetened with honey.

Detoxicolon brand

Easy to take formulas that base their effects on the synergic action of the herbal ingredients.

DETOXICOLON POWDER

Detox and intestinal cleansing

Fibers 450g

ACTIONS/BENEFITS:

detoxifies the gastrointestinal tract, regulates the intestinal transit, volume and contact laxative, intestinal antiseptic, increases the feeling of satiety, increases the intestinal excretion of biliary acids and cholesterol, decreases the intestinal absorption of carbohydrates.

EFFECTIVE FOR:

constipation, defective intestinal transit, enterocolitis, fermentative colitis, putrefactive colitis, meteorism (bloating), intestinal parasitosis, obesity and in weight loss or detox diets.

INGREDIENTS:

flax seeds (37%), psyllium seeds (30%), blue clay (9%), licorice roots (3%), anise fruits (2%), artichoke leaves (2%), caraway fruits (2%), coriander fruits (2%), buckthorn bark (2%), fennel fruit (2%), rosemary aerial parts (2%), senna aerial parts (2%), aloe - 20:1 extract from aerial parts (2%), blueberry 5:1 fruits extract (1%), ginger rhizome (1%), cranberry 5:1 fruits extract (1%).

BIOACTIVE SUBSTANCES:

hemicellulose, mucilage, omega-3 and omega-6 fatty acids, aloin A and B, anthraquinone glycosides, cynarine, essential oils, furanocoumarins.

DETOXICOLON TABS

Detox and intestinal cleansing

60 tabs

ACTIONS/BENEFITS:

- laxative,
- detoxifier in the gastrointestinal tract,
- intestinal antiseptic.

EFFECTIVE FOR:

constipation, defective intestinal transit, gastrointestinal tract detox, fermentation and putrefaction colitis, overweight.

INGREDIENTS:

aloe 20:1 hydroalcoholic extract from aerial parts (150 mg); psyllium seeds (100 mg); senna leaves (100 mg); alder buckthorn bark (100 mg); coriander fruit (30 mg); fennel fruit (30 mg); ginger rhizomes (30 mg); essential anise oil (5 mg).

BIOACTIVE SUBSTANCES:

alanine A and B, aloerezin A and B, senozides A, B, C and D, anthracenozides (glucofrangulosides A and B), coriandron A and B, zingerone, gingeroli, shogaol, a- zingiberen, anetol, α and β - myrcene, camphen, limonene, anisole, linalool, terpineol.

What is Detox?

Detox means the process that enables elimination of various toxins from the body. Their accumulation process takes place over time, as a result of the consumption of processed foods, drugs, alcohol, smoking, atmospheric pollution, chronic diseases, sedentary lifestyle and obesity. Detoxification reduces the incidence of chronic fatigue, constipation, bloating, indigestion, headaches and skin diseases.

Detox is required when:

- there is a persistent feeling of heaviness throughout the entire body;
- the diet is rich in meat, animal fats and sweets, but poor in fruits, vegetables and cereals;
- nausea often occurs due to inappropriate consumption of food or medication;
- frequent indigestion occurs or digestion is slow, heavy;
- thick, whitish or yellowish deposits are noticed on the tongue in the morning;
- sweat and breathing have a bad and penetrating smell;
- overweight or obesity have developed;
- lifestyle is predominantly sedentary.

Respiratory tract health

Natural products obtained by combining herbal extracts with methylene blue and bee products (propolis and honey)

brand *BiSeptol*

The products contain methylene blue and colloidal silver, compounds with strong antimicrobial activity that enhances herbal extracts' antiviral, antibacterial, antipyretic and decongestant properties, standing out as a side effect-free alternative to the synthetic therapy.

BISEPTOL ARTEMISININE AND QUININE

60 comprimate

Antiviral and antipyretic

ACTIONS/BENEFITS:

immunostimulant, tonic, antiviral, antibacterial, anti-inflammatory, antimalarial, antiparasitic, antitumor.

EFFECTIVE FOR:

viral and bacterial respiratory infections, other viral infections (HIV, human cytomegalovirus, dengue virus, chikungunya virus, Ebola virus, Covid 19), bacterial infections (Bacillus subtilis, Enterococcus hirae, Enterococcus faecalis, Escherichia coli, Haemophilus influenzae, Pseudomonas aeruginosa) and fungal infections (Candida krusei), fever-associated conditions, antibiotic-resistant or recurrent infections, parasitosis, immune deficiencies, malignant tumors.

INGREDIENTS:

echinacea - 5:1 extract from aerial parts (250mg); quinine - standardized extract with 5% quinine from bark (150mg); wormwood - extract with 98% artemisinin from leaves (100mg); zinc bisglycinate (5mg); clove essential oils (1mg), tea-tree (1mg), eucalyptus (1mg), pine tree (1mg); vitamin D3 (0.025mg / 1000IU).

BIOACTIVE SUBSTANCES:

artemisinin, quinine, polyphenols, chicoric acid, vitamin D3.

BISEPTOL DROPS

100g

For respiratory comfort

ACTIONS/BENEFITS:

helps clear the airways; sustains breathing and helps respiratory comfort; maintains the health of the respiratory tract.

EFFECTIVE FOR:

pharyngitis, laryngitis, tracheitis, bronchial catarrh, cold and influenza.

INGREDIENTS:

glucose syrup (54.05%); coconut - crystallized flower nectar (36.05%); honey (7.2%); soft extract from herbal mixture and bee products* (1%); methylene blue aqueous solution 1% (1%); eucalyptus / menthol (0.4%); essential oils** (0.3%).

* herbal mixture and bee products: echinacea - aerial parts (70%); **propolis** (30%).

** essential oils: wild mint (40%) eucalyptus (20%); anise (20%); tea tree (20%).

BIOACTIVE SUBSTANCES:

methylene blue, eucalyptus / menthol, essential oils.

BISEPTOL WITH COLLOIDAL ARGENTUM - SPRAY

20 ml

Antimicrobial and healing

ACTIONS/BENEFITS:

antimicrobial (antibacterial, antiviral, antifungal), anti-inflammatory, analgesic (soothes pain), wound-healing, disinfectant of the oral cavity and upper respiratory tract, breath refresher.

EFFECTIVE FOR:

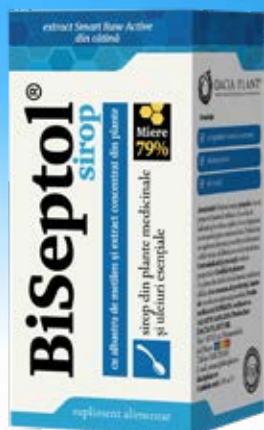

respiratory diseases, pharyngitis, tonsillitis, laryngitis, oral cavity diseases (gingivitis, stomatitis, glossitis, canker sores, oral candidiasis), halitosis.

INGREDIENTS:

vegetable glycerin (67.25%); propolis - hydroglyceric extract with a minimum of 12 mg / ml polyphenols (20%); colloidal silver - aqueous solution with Ag microparticles charged with positive electric charge with a concentration of 50 ppm (10%); methylene blue 1% solution (2%); mixture of essential oils (ravensara (Ravensara aromatica) (60%); tea-tree (Melaleuca alternifolia) (30%); oregano (Origanum vulgare) (10%)) (0.75%).

BIOACTIVE SUBSTANCES:

resins, balms, essential oils, iron, copper, zinc, manganese, cobalt, flavonoids, methylthionine chloride, silver ions.

BISEPTOL SYRUP

100 / 200 ml

Respiratory antiseptic

ACTIONS/BENEFITS:

immunostimulant, anti-inflammatory, antibacterial, respiratory decongestant, expectorant, emollient and soothing to the throat and pharynx.

EFFECTIVE FOR:

influenza, cold, respiratory infections, bronchitis, laryngitis, tracheitis, cough, laryngotracheobronchitis, bronchial catarrh.

INGREDIENTS:

acacia honey (78.99); soft herbal extract, fruit juice and bee products (sea buckthorn (*Hippophae rhamnoides*) - fruit juice (25%); olive tree leaves (20%), echinacea aerial parts (20%); star anise fruit (10%), **propolis** - alcoholic solution (10%), astragalus roots (8%), ginger roots (7%)] (20%); methylene blue 1% (1%); mixture of essential oils [juniper (25%), pine tree (25%), tea-tree (25%), lemon tree (25%)] (0.01%).

BIOACTIVE SUBSTANCES:

methylene blue, polyholosides, A, B and C astragalucans, flavones (acacetin, chrysin, apigenin), flavonols (galangin, isalpinin, kaempferol), flavanones (pinocembrin, pinostrobin, pinobaksin).

BISEPTOL

480 ml

Mouth wash

ACTIONS/BENEFITS:

antibacterial; removes unpleasant odors from the mouth; refreshes the breath.

EFFECTIVE FOR:

Halitosis (bad breath), stomatitis, pharyngitis, canker sores, gingivitis, white tongue, after tooth extractions.

INGREDIENTS:

purified water; Stevia rebaudiana extract with 60% rebaudioside A; ionic silver 5 ppm; soldoc PG410; eucalyptus-menthol; methylene blue solution 1%; peppermint essential oil; eucalyptus essential oil.

BIOACTIVE SUBSTANCES:

mono- and sesquiterpenes, alcohols, aldehydes, ketones, esters, methylthionine chloride, silver ions, menthol, menthone, isomentone, menthyl acetate, menthofuran, limonene, pulegone, 1,8-cineole, carvone, isomenthol, neomenthol, pinene derivatives, caryophyllene, bisabolene, trans-sabinene hydrate, eucalyptol (1,8-cineole), monoterpenes and sesquiterpenes (α - and β -pinene, camphene, linalool, limonene, γ -terpinene, terpinen-4-ol, α -terpineol, trans-pinocarveol, eudesmol, aromadendrene, ledol, copaen.

Methylene blue

Methylene blue was first prepared in 1876. The substance was used as an antibacterial agent in the treatment of psoriasis wounds and other diseases, in cases of cyanide poisoning. In 1891, the 1908 Nobel prize winner in medicine, Paul Ehrlich, discovered that methylene blue could be an effective antimalarial treatment. It has a moderate and long-lasting antiseptic action, penetrating the affected tissues on which it acts as disinfectant.

Colloidal silver

Scientifically, colloidal silver is a liquid dispersion containing positively charged silver particles with dimensions between 1 and 10 nm. The electrically charged silver particles at the specific size of the colloidal dispersion have a rapid germicidal effect, destroying more than 650 types of germs (bacteria, viruses, fungi). The antimicrobial properties of silver have been known since ancient times, when silver vessels were used to store drinking water.

The ancient Greeks used silver cutlery and vessels, which protected them from many diseases and epidemics. Even today, the water kept in silver pots is known to be purified of microorganisms, thus, giving it the necessary properties to be safely consumed.

BiSeptol®

Maximum and effective
protection

DACIA PLANT®
THE HEALTHFUL POWER OF HERBS

Syrups

These delicious, healthy, natural and effective products are based on traditional medicinal recipes.

Dacia Plant brand

Dacia Plant syrups are sweet and savory, easy to take by anyone at any time through the day. Made from natural concentrate ingredients, they contain essential oils that increase the speed of action and render them more efficient in therapy.

BRAIN TONIC

Syrup 200 ml

Memory and focus

ACTIONS/BENEFITS:

- mental stimulant,
- cerebral circulation stimulant,
- memory and the cognitive processes improvement,
- activates the energetic cellular metabolism at the level of the cortex,
- increases the psychic tonus,
- psycho-emotional regulator.

EFFECTIVE FOR:

cognitive impairments, mental and intellectual overwork, mental fatigue, migraines.

INGREDIENTS:

plant extract [basil aerial parts (20%); ginkgo biloba extract with 24% ginkgo flavone and 6% lactic terpenes from the leaves (20%); mint leaves (20%); rosemary leaves (20%); green tea hydroalcoholic extract from leaves (10%); melissa aerial parts (10%)] (35.97%); citric acid (0.02%); mixture of essential oils [melissa (60%), mint (20%), basil (20%)] (0.01%); raw sugar (64%).

BIOACTIVE SUBSTANCES:

flavonoids, ginkgolide, rosmarinic acid, menthol, menthone, essential oils.

WARNINGS:

contains **sugar**.

FIR BUDS

Syrup 200 ml

Respiratory tract tonic

ACTIONS/BENEFITS:

- respiratory antiseptic
- fluidifying bronchial secretions and expectorant
- anti-inflammatory and antispasmodic
- respiratory tract decongestant

EFFECTIVE FOR:

acute and chronic bronchitis, tracheitis and traheobronchitis, pneumonia, cough of various etiologies.

INGREDIENTS:

fir tree soft bud extract (30%); essential fir oil (0.005%); fructose (69.995%).

BIOACTIVE SUBSTANCES:

α -pinene, limonene, bornyl acetate, lauric aldehyde and sesquiterpenes.

IMMUNOSTIMULANT

Syrup 200 ml

Strong immune system

ACTIONS/BENEFITS:

- immunostimulant,
- antiviral,
- fluidifies bronchial secretions,
- expectorant,
- respiratory and urinary antiseptic,
- anti-inflammatory and depurative.

EFFECTIVE FOR:

influenza, common colds (coughing, sore throat, runny nose, sneezing), acute and chronic bronchitis, tracheitis, tracheobronchitis, tonsillitis, sinusitis, urinary infections (cystitis, urethritis), recurrent infections, herpes, herpes zoster.

INGREDIENTS:

extract from plants and bee products [echinacea – aerial parts (39%), buckthorn – fruit extract (20%), burdock – roots (20%), hyssop – aerial parts (20%), black poplar – sprout hydroalcoholic extract (0,5%), **propolis** – hydroalcoholic extract (0,5%)] (35,97%), citric acid (0,02%), essential oils [lemon (30%), fir tree (30%), juniper (25%), tea-tree (25%), thyme(5%)] (0,01%), raw sugar (64%).

BIOACTIVE SUBSTANCES:

polyholosides, alkamides, cichoric acid, ascorbic acid, essential oils.

PINE BUDS

Syrup 200 ml

Respiratory tract emollient

ACTIONS/BENEFITS:

- respiratory antiseptic
- fluidifying bronchial secretions and expectorant
- anti-inflammatory and antispasmodic
- respiratory tract decongestant

EFFECTIVE FOR:

acute and chronic bronchitis, tracheitis and traheobronchitis, pneumonia, cough of various etiologies.

INGREDIENTS:

pine soft bud extract (30%); essential pine oil (0.005%); fructose (69.995%).

BIOACTIVE SUBSTANCES:

α și β -pinene, limonene, silvestrene, borneol și terpinolene.

PLANTAGO

Syrup 200 ml

Respiratory tract health

ACTIONS/BENEFITS:

- antitussive,
- emollient and expectorant,
- upper respiratory tract decongestant,
- anti-inflammatory,
- antispasmodic.

EFFECTIVE FOR:

various coughs, acute and chronic bronchitides, tracheitides, tracheobronchitides, bronchial catarrh.

INGREDIENTS:

plantago soft leaf extract (30%); garden thyme essential oil (0.005%); fructose (69.995%).

BIOACTIVE SUBSTANCES:

mucilages, iridoids (aucuboside, asperuloside), triterpenic acids (ursolic and oleanolic), tannins, flavones, β -sitosterol, proteolytic enzymes.

The advantages in using Dacia Plant syrups

- they contain vegetal bioactive substances resulting in various therapeutic effects, lacking adverse reactions, inside the body;
- they contain essential oil mixes that potentiate the therapeutic properties of the plants, but also provide the natural preservation of syrups, completely lacking toxicity;
- of all the vegetal products administered orally, they are most easily assimilated by the body due to the fast absorption of active principles, the effect being noted within a short period,
- due to their high sugar or fructose content, they allow the preservation of the dissolved substances over time and can also conceal the unpleasant taste of certain ingredients, which allows an easy administration;
- they can also be administered to people with swallowing difficulties;
- they can be used successfully in paediatrics,
- they have good bioavailability.

The cough

Coughing is a reflex act, composed of forced, fast, and explosive exhales. The coughing mechanism is described as follows: when pressure rises in the respiratory tract, the glottis suddenly opens and the respiratory muscles contract; subsequently, the air gets rapidly discharged from the lungs, resulting in the expelling of the foreign bodies or the secretions in the respiratory tract (mucus, pus, blood).

According to its manifestation manner, the cough can be wet or productive (including phlegm) and dry. Productive cough is useful because it discharges pathological secretions, preventing the infection extension and maintaining the permeability of the respiratory tract. For these reasons, it should not be totally suppressed. The dry cough is damaging because, at high intensity, it leads to pains, prevents rests, aggravates the congestive state of the respiratory apparatus, increases bronchial spasm, favours haemoptysis, strains the cardiovascular apparatus (in case of persons with cardiovascular disorders).

The common cold

The cold is a disorder manifested on the entire body level, frequently noted during the cold season. The symptoms registered are: fever, headaches, muscle pains, coughing, which can be accompanied also by nasal obstructions, chills, throat aches, sneezing, as well as other manifestations. As the immunity drops, the influence of viruses and bacteria can be added, which may prolong and aggravate the disease. In case of complications by bacterial infections, antibiotics are recommended. The antibiotics, however, do not have any action on viruses; consequently, the treatment of viroses is symptomatic.

The immunity

The immunity represents the ability of the body to resist pathogens. The immunity can be classified as: natural (innate) and acquired, of two types: passive and active. Passive immunity is obtained by:

- the transfer of antibodies from the mother's blood to the newborn (the baby is born with anti-infectious immunity),
 - breast feeding (the mother's antibodies are transmitted by milk, the breast feeding process consequently contributing to the anti-infectious resistance of the baby),
 - the administration of immune serums and/or human immunoglobulins; the duration of the immunity obtained as such is temporary (14-21 days).
- Active immunity is naturally obtained (following an infectious disease).

Stimulating immunity via natural products is an active method to increase immunity for all lines: cellular, humoral, specific, and non-specific (for example: complement, lysozyme, interferon).

The dysfunctions registered on the immunity system level may be of two types: of deficit (immunity deficiencies) or of excess (allergies and self-immune disorders). The immunity deficiencies decrease the body resistance to infections, which can be contracted more easily this way. The immunity decrease, in general, leaves the body vulnerable faced with disorders; it can consequently be invaded by pathogenic microorganisms (bacteria, viruses, fungi), which leads to the need to stimulate natural defence mechanisms.

The expectoration

The expectoration is the process to discharge secretions resulting from the lower respiratory tract (trachea, bronchia, pulmonary alveoli). Expectoration is not a disease, but a symptom, with a beneficial role in most of the cases. In bronchopulmonary disorders (bronchitides, tracheobronchitides, bronchial catarrh, pneumonia, tuberculosis, etc.) and bronchial modifications caused by smoking, there is an accumulation of secretions on the respiratory tract level, naturally discharged by coughing. Thus, productive coughing must not be prevented because it leads to the discharge of pathological secretions, blocking the infection extension and maintaining the permeability of the respiratory tract. In chronic respiratory disorders or in the case of smokers, it can become disturbing due to the accumulation of viscous or too-thick secretions, difficult to discharge in a natural way. The sputum amount varies from a few ml to several hundred ml, depending on the type and seriousness of the disease. It can be whitish (in case of bronchitides or tracheobronchitides), green-yellowish (in pulmonary suppurations), rubiginous (in pneumonia), red (in haemoptysis), or black (in the case of miners, due to coal particles). In the case of serious diseases, like tuberculoses, a bacteriological examination of the sputum is needed to determine the presence of Koch's bacillus.

The brain and its functions

The brain is the main coordinator and control centre of the body, including over 10 million neurons. The cerebral activity integrates cognitive functions, through which the person is aware of the reality, namely: attention, memory, thinking, and learning. The information to be memorised produces the modification of the electric membrane on the neuron level, being temporarily retained as electrical activity; depending on the intensity, the information may be 'impregnated' on a longer or shorter period.

Syrups

Beeo syrups are 100% natural products, containing SMART RAW ACTIVE extract, inspired by the spagyric (alchemical) method of obtaining plant extracts.

Beeo brand

The SMART RAW ACTIVE extract is produced at ambient temperatures ($\leq 40^{\circ}\text{C}$), which guarantees that all plant properties are maintained unaltered. One of the secrets of the immediate beneficial effects of the Beeo syrups is actually the thermally-unprocessed honey, thus, maintaining its antifungal, antibacterial and antiviral properties, as well as many of its vitamins and minerals.

SEA BUCKTHORN AND HONEY SYRUP

200 ml

With **SMART RAW ACTIVE** extract from sea buckthorn

ACTIONS/BENEFITS:

- antioxidant,
- inflammatory,
- immunostimulatory,
- vitamin supplement,
- supports and improves energy level,
- improves the functioning of the digestive system.

EFFECTIVE FOR:

asthenia, avitaminosis, anemia, liver diseases.

INGREDIENTS:

thermally unprocessed acacia honey (80%), **Smart Raw Active** concentrated extract of sea buckthorn, originating from a culture undergoing conversion to organic culture 1:5 equivalent to 270 g of fruit (20%).

BIOACTIVE SUBSTANCES:

vitamin C, vitamins B1, B2, E, P, PP, provitamins D, carotenoids (α and β-carotene, lycopene, zeaxanthin), folic acid, flavonoids, trace elements (Ca, P, Mg, K, Fe, Na), propolis, pollen, mineral salts (sodium, potassium, phosphorus, magnesium, iron), provitamins A, vitamin K, fermentes (enzymes or diastases): invertase and sucrose (sucrose), amylase.

WARNINGS:

The product contains honey.

daciaplant.ro

REGENERATING SYRUP

100 ml

With **SMART RAW ACTIVE** extract

ACTIONS/BENEFITS:

- tonic,
- vitamin supplement,
- digestive,
- slows down the aging process, helps in normal airway and lung functioning.

EFFECTIVE FOR:

asthenia, anemia, fatigue and weakness, exhaustion, to increase the body's resistance, convalescence, geriatrics.

INGREDIENTS:

Thermally-untreated Acacia honey (90%) and **Smart Raw Active** extract* (10%).

** concentrated extract from a mixture of 92 medicinal herbs.*

BIOACTIVE SUBSTANCES:

propolis, pollen, mineral salts (sodium, potassium, phosphorus, magnesium, iron), provitamins A, vitamin K, starters (enzymes or diastases): invertase and sucrose (sucrase), amylase, coumarins, polysaccharides, phytosterols, organic acids (ferulic, angelic, folic), trace elements (Co, Cu, Mn, Ca, Mg, Fe, K), flavonoids, resins, silicon, provitamins D, carotenoids (α and β-carotene, lycopene, zeaxanthin), folic acid, anthocyanidins, phenolic acids, tannins, resveratrol, mineral salts (K, Ca, Mg, P), flavones, vitamins (A, B2, B5, B6, B8, B9, B12, C, PP, D3, E), myrtillolides, beta-carotene, lycopene, volatile oil (linalool, geraniol, citronellol), polyphenolcarboxylic acids (caffeine, chlorogenic, rosmarinic), triterpenic acids (ursolic and oleanolic), flavonoids.

WARNINGS:

The product contains **honey** and **celery**.

About sea buckthorn and honey

The mixture of sea buckthorn and honey is considered an elixir of health, a remedy for the treatment and prevention of many diseases and conditions, due to the benefits that these two items bring to the body, both separately, but, especially, jointly: antioxidant, anti-inflammatory, immunostimulant, vitamin supplement.

Acacia honey is renowned for its multiple benefits to the body. Among the many types of honey, each with its specific qualities, acacia honey is a general tonic, which has antiseptic properties and can also be used successfully to strengthen body immunity. The honey stimulates, inter alia, the production of antibodies, thus, helping to prevent diseases of any kind and helping the body to fight against pathogenic organisms.

Sea buckthorn is also called the "Romanian ginseng", due to its revitalizing properties. Sea buckthorn fruits are very rich in vitamin C. The fruits also contain vitamin A, vitamin B complex (B1, B2, B6, B9, choline, inositol), vitamins E, K, P and F. Sea buckthorn brings numerous benefits to the human body.

It is vitaminizing, remineralizing, antiasthenic, antianemic, strong antioxidant (produces neutralization of free radicals). It is recommended for people with vitamin and mineral deficiencies, in states of fatigue, weakness and exhaustion as well as people in convalescence or suffering from various types of asthenia. or anemia. Children, women, men and the elderly who want to strengthen their bodies can take treatment for at least one month.

Compound tinctures

Quickly absorbed in the body and breaking down faster in the blood, our compound tinctures ensure a better conservation of the active ingredients and thus retain the healing power of the herbs for years. The herbal ingredients are carefully selected and medically researched.

brand *Dacia Plant*

Our compound tinctures contain high concentration of herbal extracts, obtained by a method of double or triple extraction. Therefore, the therapeutic effect is greatly amplified by the synergic action of the herbal ingredients.

BITTER 50 HERBS AND GANODERMA

200/500 ml

Hydroalcoholic extract from 50 herbs

ACTIONS/BENEFITS:

INTERNAL - bitter tonic, liver tonic, digestive tonic, hepatoprotective, choleric, chologogue, anti-inflammatory, antispasmodic, antimicrobial, antimycotic, detoxifier, diuretic, depurative, light laxative, immunostimulant, lowers cholesterol levels, hypolipemiant, digestive, urinary, and respiratory antiseptic, revitalising.

EXTERNAL - antiseptic, antimycotic, anti-inflammatory, anti-acne, cicatrisant, capillary tonic.

EFFECTIVE FOR:

INTERNAL - asthenia, anaemia, convalescence, anorexia, indigestion, difficult digestion, gallbladder disorder (biliary dyskinesia), cholecystitis, hypoacid gastritis, constipation, hypercholesterolemia, hyperlipidemia, obesity, intestinal and urinary infections, gout, flu-like syndromes, common colds (coughing, sore throat, runny nose, sneezing), headaches, chronic intoxication, acne, skin diseases, states of fatigue, devitalization, geriatrics.

EXTERNAL - superficial wounds, superficial (1st degree) burns, skin infections, acne, mycosis, eczema, dermatitis, psoriasis, cervical lymphadenopathy (swollen lymph nodes in the neck), rheumatism, contusions, dislocations, sprains, dandruff, alopecia, hair loss, Bitter 50 with Ganoderma can also be used for body massage.

INGREDIENTS:

herbs mix [bilberry, aloe, garden angelica, milk thistle, burdock, basil, cardamom, buckthorn, caraway, chicory, thyme, coriander, lady's mantle, cloves, bay laurel, echinacea, fennel, ash, calendula officinalis, ganoderma, gentian, ginger, spiny cocklebur, lemongrass, juniper, hyssop, lavender, southernwood, Iceland moss, marjoram, dill, chamomile, hawthorn, dandelion, absinthe, black poplar, orange, hairy willowherb, lemon balm, greater celandine, rosemary, sage, cinnamon, senna, elderberry, yellow melilot, celery, centaury, common knotgrass, nettle, water, ethyl alcohol] (40%), hydroalcoholic solution (ethyl alcohol/water – 30/70 by mass) (60%).

BIOACTIVE SUBSTANCES:

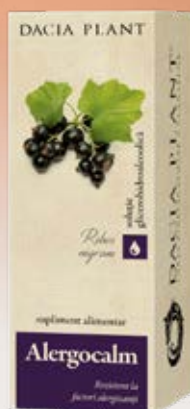

triterpenic lanostanoids, flavonoids, catechin tannins, aloine A and B, aloerzine A and B, polysaccharides, sterols, polypeptides, saponine, glycoproteins, triterpenic acids, essential oils, mineral salts, vitamins.

Bitter 50 herbs with Ganoderma

The product is a bitter tonic prepared according to an original recipe selected by Dacia Plant specialists. Although this bitter's main feature is the tonic effect on digestion and liver (due to bitter plants), the synergy of its composition makes this 100% natural product have much more complex effects, being recommended in reducing fatigue, improving the general condition and body resilience, normal functioning of the digestive, hepatobiliary, respiratory and urinary systems. The product is also effective in maintaining the health of skin, hair and joints.

Bitter is a mixture of healing herbs which are usually soaked in alcohol. Its ingredients vary from one remedy to another depending on the recipe used. In ancient times, Swedish bitter used to be a home-made remedy highly prized for its digestive, detoxifying and rejuvenating effects.

Ganoderma (*Ganoderma lucidum*) is a fungus in the class of Basidiomycetes used in the Chinese traditional medicine for more than 4000 years. Ganoderma was deemed in ancient China and Japan to be an "elixir of immortality", being used by the Shamans to prolong their lives and maintain their state of calmness during meditation. In the XVI-th century, the Ben Cao Gang Mu Pharmacopoeia mentioned that Ganoderma influences heart's Qi energy, being recommended to treat chest conditions, enhance intellectual capacity and improve memory. In traditional Chinese medicine, the fungus was used to increase longevity, improve liver and respiratory functions, treat tumors and heart conditions, enhance body immunity and resilience, lower blood pressure and cholesterol level, eliminate fatigue and boost vitality.

ALERGOCALM

Allergen resistant

Glycero-hydro-alcoholic solution 50 ml

ACTIONS/BENEFITS:

INTERNAL - antiallergic, antiasthmatic, anti-inflammatory, antipruritic, depurative and diaphoretic.

EFFECTIVE FOR:

allergies, allergic rhinitis, allergodermia, bronchial asthma, asthmatic bronchitis.

INGREDIENTS:

hydroalcoholic extract from viola tricolor flowers (40%); hydroalcoholic extract from lavender flowers (20%); glycerin extract from blackcurrant buds and sprouts (20%); sea buckthorn juice preserved in alcohol (10%); lemon fruit juice (10%).

BIOACTIVE SUBSTANCES:

triterpenic saponins, alkaloids (violin), diterpenic acids, essential oils.

HERBOTENSIN

Blood pressure within normal range

Concentrated formula of natural tinctures 50/200 ml

ACTIONS/BENEFITS:

INTERNAL - vasodilator, antihypertensive, antiarrhythmic, cardiac tonic.

EFFECTIVE FOR:

high blood pressure, ischemic heart disease, angina, post-heart attack recovery, cardiac arrhythmia and cardiac insufficiency.

INGREDIENTS:

1: 3.75 extract in hydroalcoholic solution (ethyl alcohol / water - 45/55 as a percentage by mass) of the following mixture of plants: hawthorn fruit (20%), motherwort aerial parts (20%), young mistletoe leaves and branches (20%), Shepherd's purse aerial parts (10%), St John's wort aerial parts (10%), rosemary aerial parts (10%), butterbur leaves (10%).

BIOACTIVE SUBSTANCES:

flavonoids, triterpenic acids, amines (choline, acetylcholine).

CAPILLARY TONIC

Hair regeneration and dandruff removal

Concentrated formula of natural tinctures 50/200 ml

ACTIONS/BENEFITS:

EXTERNAL - capillary tonic, stimulates peripheral circulation, stimulates hair growth, antiseborrheic, antimicrobial, antipruritic, soothing.

EFFECTIVE FOR:

alopecia, seborrheic dermatitis, dandruff, hair loss and degradation, mycosis and eczemas at the level of the scalp.

INGREDIENTS:

1: 5 extract in hydroethanolic solution from the following mixture of plants: birch leaves (3.57%), burdock roots (2.68%), nettle aerial parts (2.68%), lavender flowers (1.79%), chamomile flowers (1.79%), black poplar buds (1.79%); hydroethanol solution of hot peppers (14.28%); propolis alcoholic solution (3.57%).

BIOACTIVE SUBSTANCES:

flavonoids (pinocembrin, galangin, pinobanksin), matricin, matricarin, carotenoids, tannins, vitamins and minerals.

DERMOGENT

Skin natural protection

Concentrated formula of natural tinctures 50 ml

ACTIONS/BENEFITS:

EXTERNAL - cicatrizant, antiseptic, anti-inflammatory, astringent, soothing.

EFFECTIVE FOR:

EXTERNAL - superficial wounds, mild burns (1st degree), acne, infectious eczema, rash.

INGREDIENTS:

1: 5 extract in hydroethanolic solution from the following mixture of plants: greater celandine aerial parts (4.31%), common comfrey roots (4.31%), yarrow aerial parts (3.45%), chamomile flowers (1.72%), black poplar buds (1.72%); **propolis** - alcoholic solution (6.9%).

BIOACTIVE SUBSTANCES:

matricin, matricarin, allantoin, tannins, alkaloids (chelerythrine, sanguinarine, berberine), flavonoids (pinocembrin, galangin, pinobanksin).

DETOXIFIER

Maximum detox

Concentrated formula of natural tinctures 200 ml

ACTIONS/BENEFITS:

INTERNAL - diuretic, depurative, antiseptic, cholagogue, liver tonic, lowers cholesterol levels, hypolipemiant, digestive tonic, stomachic, carminative, antispasmodic, anti-inflammatory, expectorant, antitoxic, antioxidant.

EFFECTIVE FOR:

INTERNAL - constipation, edemas, gout, skin disorders (acne, psoriasis, dermatitis, eczema), chronic intoxication, Weight loss and detox diets in case of overweight and obesity.

INGREDIENTS:

1:5 extract in hydro-ethanol solution (ratio of 96° ethyl alcohol / water: 33.75 / 41.25); from the following mixture of plants: artichokes - leaves (4.44%); wild pansy - aerial parts (4.44%); wild celery - roots (2.23%); cardamom - seeds (2.23%); danewort - roots (2.23%); juniper - fruit (1.1%); elderflower juice (20.83%).

BIOACTIVE SUBSTANCES:

flavones, saponins, polyholosides, cynarine, cynaropicrin, terpene esters.

ELDERBERRY FRUIT ELIXIR

Lose weight naturally

Concentrated formula of natural tinctures 200 ml

ACTIONS/BENEFITS:

INTERNAL - diuretic, diaphoretic, depurative, mild laxative.

EFFECTIVE FOR:

weight loss cure, edemas, gout, chronic intoxications, skin diseases, detoxification cures.

INGREDIENTS:

elder fruit juice (66.98%); 96° ethyl alcohol; purified water.

BIOACTIVE SUBSTANCES:

sambunigraside, prunasoside, flavones (rutoside), saponins, polyholosides.

GLICEMONORM

Glycemy within normal range

Concentrated formula of natural tinctures 200 ml

ACTIONS/BENEFITS:

INTERNAL - hypoglycemic, regulates and stimulates the function of the pancreas, increases insulin secretion, decreases postprandial glycemia, antioxidant.

EFFECTIVE FOR:

INTERNAL - hyperglycemia, diabetes mellitus, complications of diabetes.

INGREDIENTS:

bilberry fruit juice (30%), bilberry leaves (5%), bitter cucumber fruit extract (5%), gurmur leaves extract (3%), mulberry sprouts (2%), walnut buds (2%), purified water (32%), glycerin (7%), ethyl alcohol (12%).

BIOACTIVE SUBSTANCES:

myrtilloside A and B, charantin, polipeptid P, gymnemic acids I-VII, gurmurmarin, gymnomosides A-F.

HERBOPROSTAL

Healthy prostate

Concentrated formula of natural tinctures 200 ml

ACTIONS/BENEFITS:

INTERNAL - anti-inflammatory and decongestant at the level of the prostate, diuretic, urinary antiseptic (acts against colibacillus and Proteus vulgaris), regenerates the tissues at the level of the prostate, liver and kidneys.

EFFECTIVE FOR:

prostatitis and prostate adenoma, urinary infections with colibacillus and Proteus vulgaris, urinary disorders.

INGREDIENTS:

spiny cocklebur aerial parts hydroalcoholic extract (50%), smallflower hairy willowherb aerial parts hydroalcoholic extract (50%).

BIOACTIVE SUBSTANCES:

sesquiterpene lactones (xanthatin, xanthinine), flavones, steroidal saponin and triterpenic, triterpenic acids.

RENOSTIM

Healthy kidneys

Concentrated formula of natural tinctures 50/200 ml

ACTIONS/BENEFITS:

INTERNAL - urinary antiseptic, lithotriptic, diuretic (by increasing the amount of uric acid eliminated), anti-inflammatory, antispasmodic, haemostatic, analgesic.

EFFECTIVE FOR:

INTERNAL - edema, urinary stones, urinary tract infections and inflammation (cystitis, pyelonephritis, glomerulonephritis), anuria, oliguria, hematuria (presence of blood in the urine), gout, entero-renal syndrome (global infection of the intestine and kidneys, with inflammatory manifestations).

INGREDIENTS:

extract 1: 5 in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 67.5 / 32.5); from the following mixture of plants: juniper fruit (5%); birch leaves (3.33%); yarrow aerial parts (3.33%); onion bulbs (1.67%); spiny cocklebur aerial parts (1.67%); horsetail aerial parts (1.67%).

BIOACTIVE SUBSTANCES:

saponine, flavonoids, α and β -cedren.

VEIN TONIC

Healthy veins

Concentrated formula of natural tinctures 50 ml

ACTIONS/BENEFITS:

INTERNAL - decreases permeability and increases the resistance of capillaries, vasoprotectants, mild diuretic.

EFFECTIVE FOR:

capillary fragility, venous insufficiency, varicose veins and hemorrhoids.

INGREDIENTS:

extract 1: 3.75 in hydroethanolic solution (ratio 96° ethyl alcohol / water: 45/55) from the following mixture of plants: lemon fruits (4.21%); orange fruit (4.21%); grapefruit (4.21%); birch leaves (2.11%); hawthorn leaves and flowers (2.11%); hyssop aerial parts (2.11%); artichokes leaves (2.11%).

BIOACTIVE SUBSTANCES:

flavonoids (diosmin, hesperidin), triterpenic acids (ursolic and oleanolic), anthocyanosides.

Bitter

of 50 herbs
with Ganoderma

- premature aging prevention;
- strengthens the body's immunity;
- hepatic protection;
- general tonic;
- antioxidant, anti-inflammatory, antitumor, detoxifying;
- memory aid;
- cerebral circulation improvement.

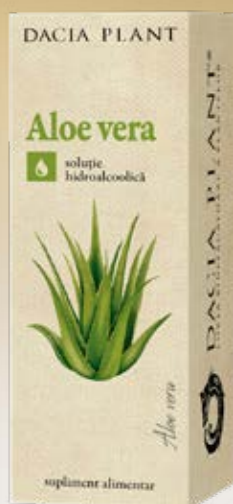

Simple tinctures

Our simple tinctures have an increased efficiency and are easily assimilated by the body, breaking down faster in the blood and having a faster response time compared to other types of food supplements. They can be stored for many years without losing their effectiveness.

brand *Dacia Plant*

Dacia Plant tinctures are hydro-alcoholic solutions obtained through a modern percolation process, which allows obtaining quality products.

ALOE VERA

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - anti-inflammatory, detoxifier, laxative, rebalances the intestinal flora, hepatoprotective, immunostimulant, antioxidant, antibacterial, antifungal, antiviral, lowers cholesterol levels, hypoglycemic (in diabetes mellitus type 2), anthelmintic, emmenagogue, analgesic, remineralizing, cellular regenerative, antitumor, stimulate secretion of interferon, cicatrizing, antirheumatic, vitaminizing, has radioprotective effects (for radiotherapy patients).
EXTERNAL - anti-inflammatory, analgesic, antiseptic, cicatrizing.

EFFECTIVE FOR:

INTERNAL - constipation, gallbladder disorder (biliary dyskinesia), gastrointestinal tract detoxification, immune deficiencies, anemia, tumors.
EXTERNAL - contusions, sprains, dislocations, bone fractures, tendinitis, arthritis, rheumatism, skin rashes, eczemas.

INGREDIENTS:

1: 2.25 extract in hydroalcoholic solution (ethyl alcohol / water - 45/55 by mass) from aloe leaves.

BIOACTIVE SUBSTANCES:

aloin A and B, aloerazine A and B, polysaccharides, sterols, aloemodin, aloe-lectin, polypeptides, saponine, glycoproteins, salicylic acid, vitamins (A, B1, B2, B6, B12, C, E), minerals, amino acids, enzymes.

ARTICHOKE

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - cholagogue, hepatoprotective, regenerates the liver cells, lowers cholesterol levels, hypolipemiant, hypertriglyceridemic, diuretic, vasodilator, cardioprotective, bacteriostatic (against Salmonella, Staphylococcus and Proteus), antiallergic (serum complement inhibition), laxative, bitter tonic, digestive tonic, prevents the development of atherosclerotic plaques, promotes renal excretion of uric acid, amplifies the liver's detox capacity, appetite stimulant.

EFFECTIVE FOR:

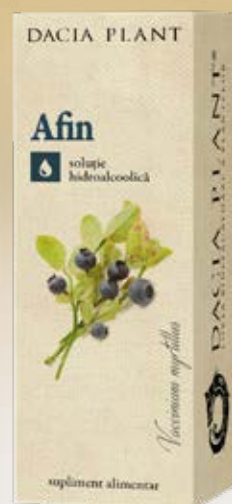

hepatic and renal insufficiency, acute and chronic cholecystitis, gallbladder disorder (biliary dyskinesia), angiocholitis (bacterial infections of biliary tract), hypercholesterolemia, hyperlipidemia, obesity, atherosclerosis, gout, anorexia, liver allergies, constipation, asthenia, overwork, intoxication.

INGREDIENTS:

1:5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from artichoke leaves (16.67%).

BIOACTIVE SUBSTANCES:

china cafeoil derivatives (acid chlorogenic acid, cynarin), flavones (cinarozid, skolymsoside, luteolin), sesquiterpene lactones.

BLUEBERRY

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - astringent, antidiarrheal, antihemorrhagic, intestinal and urinary antiseptic, hypoglycemic, capillary protector, anti-inflammatory.
EXTERNAL: astringent, antiseptic.

EFFECTIVE FOR:

INTERNAL - hyperglycemia, diarrhea, enteritis, enterocolitis, fermentation colitis, putrefaction colitis, capillary fragility, hemorrhoids, diabetes mellitus, diabetic retinopathy, urinary infections, gout, rheumatism, hyperuricemia.
EXTERNAL: hemorrhoids.

INGREDIENTS:

1: 3.75 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65); from blueberry aerial parts (21.08%).

BIOACTIVE SUBSTANCES:

flavones (hyperoside, quercitroside), catechin tannins (catechol, epicatechol), arbutin, erycholine, organic acids.

BIRCH

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - diuretic (with elimination of uric acid), antilithiatic (dissolve urinary calculi), antibacterial, diaphoretic, antipyretic, lowers cholesterol levels, anti-inflammatory.
EXTERNAL - anti-inflammatory, antiseptic, capillary tonic, stimulates hair growth.

EFFECTIVE FOR:

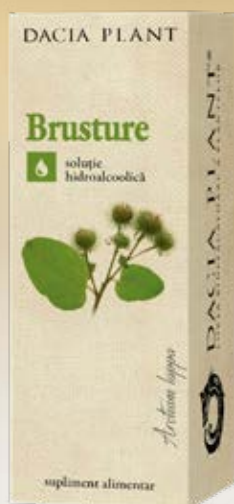

INTERNAL - edemas, urinary lithiasis, gout, urinary infections (chronic cystitis and nephritis), hypercholesterolemia, febrile conditions, rheumatism, arthritis.
EXTERNAL - dandruff and hair loss.

INGREDIENTS:

extract 1: 5 in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from birch leaves (16.67%).

BIOACTIVE SUBSTANCES:

triterpenic saponins of the lupeolic type (betulinol, betulinic acid, platanic acid, betulinic aldehyde), tannins, flavones, betulalboside A and B, essential oil (consisting of α-copaen, δ-cadinen, α and β-betulinol, α and β-caryophyllene, methyl salicylate), phenolic acids (caffeic and chlorogenic), phenolic glycosides (monotropitoid and betuloside), sterols, fatty acids (linoleic and linolenic), vitamin C, mineral nutrients (Na, K, Cu, Ca, Mn, Fe).

BURDOCK

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - diuretic, depurative, sudorific, bitter tonic, antimicrobial, antifungal, hypoglycemic, choleretic, antitumor, mild laxative.
EXTERNAL - antiseborrheic, stimulates hair growth.

EFFECTIVE FOR:

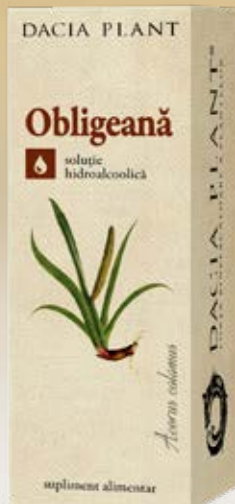

INTERNAL - detox cures, skin disorders (acne, seborrhea, furunculosis, dermatitis), urinary infections (cystitis), hepatobiliary disorders (cholecystitis, biliary lithiasis), diabetes mellitus type 2, gout.
EXTERNAL - seborrhea of the face and scalp and hair loss.

INGREDIENTS:

1: 3.75 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65); from burdock roots (21.08%).

BIOACTIVE SUBSTANCES:

inulin, polyenic compound and linear polyenic (arctiin, arctiol, arctinal, arctic acid) or cyclic polyenic, bitter principles sesquiterpenic (arctiopicrin), polysaccharides, sterols (sitosterol, stigmasterol), caffeic acid.

CALAMUS

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - antispasmodic, bitter tonic, stimulates gastrointestinal secretions, choleretic, eupeptic, nervous tonic, antiepileptic, memory aid.

EFFECTIVE FOR:

INTERNAL - anorexia nervosa, hypoacid gastritis, spasmodic colitis and enterocolitis, gastrointestinal colics, biliary dyskinesia, slow digestion, neurovegetative disturbances.

INGREDIENTS:

1: 4.6 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65); from calamus roots (17.83%).

BIOACTIVE SUBSTANCES:

essential oil (consisting of β -asarone, isoeugenol, shiobunone, calamen, camphene), bitter principles (acorone), resins, tannins, vitamins (B1 and C), minerals.

CELERY

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - stimulates the sexual function; aphrodisiac; emenagogue; galactagogue; oxytocic; biliary drain; stomachic; diuretic; diaphoretic; depurative; carminative; tonic on the central nervous system, adrenal glands and gonads.
EXTERNAL - cicatrisant, it helps restore normal skin pigmentation (administered both internally and externally).

EFFECTIVE FOR:

INTERNAL - impotence, frigidity, amenorrhea, hypomenorrhea, edemas, gout, asthenia, weakness and exhaustion conditions, convalescence, anorexia, slow digestion, meteorism (bloating), cholecystitis, vitiligo (abnormal skin pigmentation).
EXTERNAL - superficial wounds, vitiligo.

INGREDIENTS:

1: 2.25 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 45/55) from celery roots (30.77%).

BIOACTIVE SUBSTANCES:

essential oil (consisting of sedanolide, bergapten, α -santalol, β -pinene, limonene, α and β -selinene, β -caryophyllene), vitamins (A, B1, B2, C and PP).

COMMON COMFREY

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

EXTERNAL - anti-inflammatory, cicatrisant, haemostatic.

EFFECTIVE FOR:

contusions, sprains, dislocations, bone fractures, tendinitis, arthritis, rheumatism, eczemas.

INGREDIENTS:

1: 5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 67.5 / 32.5) from common comfrey roots (16.67%).

BIOACTIVE SUBSTANCES:

allantoin, polyholosides, tannins, pyrrolizidine alkaloids, triterpenic saponins, lithospermic acid, amino acids, asparagine.

COMMON HOGWEED

Hydroalcoholic extract
50/200 ml

ACTIONS/BENEFITS:

INTERNAL - stimulates the secretory activity of the sex glands, aphrodisiac, general tonic, digestive and nervous tonic, vitalizing, strengthening, increases the body's resistance.

EFFECTIVE FOR:

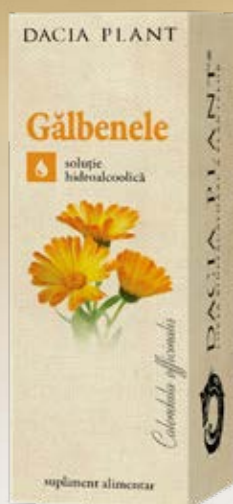

male and female infertility, sexual dysfunction, impotence, frigidity, ovarian failure, menstrual disorders due to deficiency (amenorrhea, hypomenorrhea, oligomenorrhea), premature menopause, fatigue and exhaustion.

INGREDIENTS:

1: 6.7 extract in hydroalcoholic solution (ethyl alcohol / water - 52/48 by mass) from common hogweed roots and seeds.

BIOACTIVE SUBSTANCES:

essential oil (1,5-2%), furanocoumarins (bergapten, isobergapten, pimpinellin, isopimpinellin).

COMMON MARIGOLD

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - anti-inflammatory, antispasmodic, choleric, antibacterial, antimycotic, relieves menstrual pain. EXTERNAL - cicatrizing, anti-inflammatory, antiseptic, antibacterial.

EFFECTIVE FOR:

INTERNAL - gallbladder disorder (biliary dyskinesia), inflammation of the gallbladder (cholecystitis), enterocolitis, dysmenorrhea. EXTERNAL - eczemas, acne, insect bites.

INGREDIENTS:

1: 5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 52/48) from common marigold flowers (16.67%).

BIOACTIVE SUBSTANCES:

saponins (calendulosides A-H), flavonoids (patuletin and patulitrin), triterpenic alcohols (α and β -amyrenol, taraxasterol, arnidiol), triterpenic acids (ursolic and oleanolic), sterols (sitosterol, stigmasterol), carotenoids (α and β -carotene, lycopene, lutein, violaxanthin), coumarins (umbelliferone, esculetin), polyenic compound (calendic acid), polyphenolic acids (caffeic, chlorogenic, vanillic, syringic), polyholosides, tannins, bitter substances.

CRANBERRY

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - urinary antiseptic, anti-inflammatory, diuretic, antioxidant. EXTERNAL - antiseptic for the oral cavity, antibacterial (against bacteria Porphyromonas gingivalis and Prevotella intermedia).

EFFECTIVE FOR:

INTERNAL - infections of the urinary tract (cystitis, urethritis, pyelonephritis). EXTERNAL - sanitizing of the oral cavity.

INGREDIENTS:

1: 5 extract in hydroalcoholic solution (ethyl alcohol / water - 52/48 by mass) from cranberry leaves.

BIOACTIVE SUBSTANCES:

arbutoside, methyl arbutoside, arbutin, fraxin, flavonoids, anthocyanidins and tannins.

DANDELION

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - bitter tonic, choleric and cholagogue, stimulates exocrine secretions (salivary, gastric, pancreatic and intestinal), eupeptic, laxative, diuretic, diaphoretic, depurative, anti-inflammatory, antioxidant, hypoglycemic, increases the appetite.

EFFECTIVE FOR:

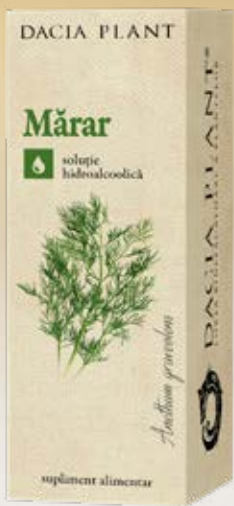

INTERNAL - anorexia, biliary dyskinesia, cholecystitis, stimulation of pancreatic secretions, indigestion, liver failure, hypoacid gastritis, obesity (in diets eliminates edema and accelerates intestinal transit), constipation.

INGREDIENTS:

1: 5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from dandelion leaves (16.67%).

BIOACTIVE SUBSTANCES:

triterpene derivatives (taraxerol, taraxasterol, β -amyrenol, lupeol, betulinol), bitter principles sesquiterpene (taraxacin, taraxinic acid), flavonoids, sterols (stigmasterol, β -sitosterol), organic acids (caffeic, palmitic, oleic, cerotic), vitamins (B1, B2, C and D), minerals.

DILL

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:
INTERNAL - stimulates and balances the female reproductive activity, estrogenic, emmenagogue (triggers menstruation), galactagogue (stimulates milk secretion for breastfeeding mothers), digestive tonic, stomachic, carminative, antispasmodic, diuretic.

EFFECTIVE FOR:
amenorrhea (absence of periods), dysmenorrhea (painful and irregular periods), female infertility, premature menopause, mammary hypoplasia (for growing small breasts), difficult digestion, meteorism (bloating), digestive spasms

INGREDIENTS:
1: 5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 45/55) from dill seeds (16.67%).

BIOACTIVE SUBSTANCES:
essential oil (consisting of carvone, limonene, myristicin, dilapiol), vitamins (A, B1, B2, C, PP), folic acid, mineral nutrients (K, Na, S).

ECHINACEA

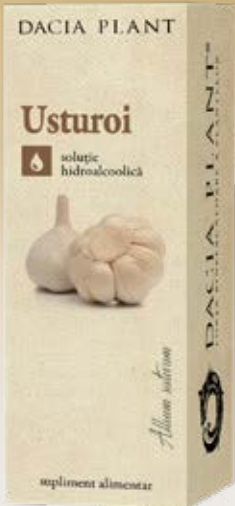

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:
INTERNAL - immunostimulant, anti-inflammatory, hyaluronidase inhibitor (stops the invasive action of bacteria), inhibits virus replication, effective against flu virus, AH5N1 virus (bird flu virus), AH1N1 virus (swine flu virus), Herpes simplex viruses type 1 and 2, decreases the rate of occurrence of species of Candida and Lysteria monocytogenes, stimulates adrenal cortical activity.

EFFECTIVE FOR:
INTERNAL - respiratory infections, urinary tract infections, influenza, recurrent infections, infections with AH5N1 and AH1N1 viruses, herpes.

INGREDIENTS:
1: 3.75 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from aerial parts of echinacea (21.08%).

BIOACTIVE SUBSTANCES:
cichoric acid, polyholosides, essential oil (consisting of alkamides), nitrogen derivatives (glycinebetaine), echinacein, echinolone, inulin, phytosterols, fatty acids (oleic, cerotic, linolic, palmitic).

GARLIC

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:
INTERNAL - antibacterial (both on Gram-positive and Gram-negative bacteria), antimycotic, antiviral, lowers cholesterol levels, hypolipemiant, platelet antiaggregatory, antithrombotic, fibrinolytic, hypoglycemic, anthelmintic, antiamebic (against Giardia lamblia), antihypertensive, bradycardic, stomachic, choleric, carminative, antispasmodic, sedative, expectorant, antidiarrheal, antioxidant, aphrodisiac.
EXTERNAL - antibacterial, antimycotic, rubefiant.

EFFECTIVE FOR:
INTERNAL - catarrhal respiratory infections (acute and chronic bronchitis, cough), influenza, mouth and digestive candidiasis, hypercholesterolemia, hyperlipidemia, atherosclerosis, diabetes mellitus, helminthiasis (intestinal parasites), giardiasis, high blood pressure, diarrhea, dysentery, fermentation dyspepsia, meteorism (bloating).
EXTERNAL - aphtha and oral candidiasis, helminthiasis (make enemas with tea to which 25 ml of tincture is added).

INGREDIENTS:
1: 2.25 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 45/55) from garlic bulbs (30.8%).

BIOACTIVE SUBSTANCES:
sulfur compounds (alliin, allicin, garlicin, cycloalliin, ajoene), saponins (sativozide, eruboside), triterpenes, adenosine, sterols (β-sitosterol, stigmasterol, campesterol), essential oil, enzymes (ribonuclease, lipase, invertase), vitamins (A, B1, B2, C, E, PP), minerals (Ca, Mg, Na, K, Fe, Cu, Mn, Si, Se, P), organic acids, carbohydrates, lipids, protides.

GENTIAN

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:
INTERNAL - stimulates gastric and bile secretions, hepatoprotective, antipyretic, antimalarial, antihelminthic, detoxifier.

EFFECTIVE FOR:
anorexia, hypoacid gastritis, gallbladder disorder (biliary dyskinesia), acute and chronic cholecystitis, indigestion, bloating, fever, intestinal parasites, malaria.

INGREDIENTS:
1:5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from gentian roots (16.67%).

BIOACTIVE SUBSTANCES:
secoiridoids-type bitter principles (gentiopicroside, amarogentin, amaropaniin, amaroswerin), xanthone derivatives (gentisin and isogentisin), monoterpen alkaloids (gentianine, gentianidine and gentioflavine), phytosterols (gentiosterol), tannins, pectins, gentisic acid, enzymes.

GINGER

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - increases digestive capacity, stomachic, antiemetic, anti-vertigo, reduces bronchial secretions, anti-inflammatory (inhibits cyclooxygenases COX-1 and COX-2), hypocholesterolemic, lipid-lowering, antiplatelet, warming, peripheral circulatory stimulant, antioxidant, antibiotic, antibacterial.

EXTERNAL - rubefacient, anti-inflammatory, increases resistance to cold.

EFFECTIVE FOR:

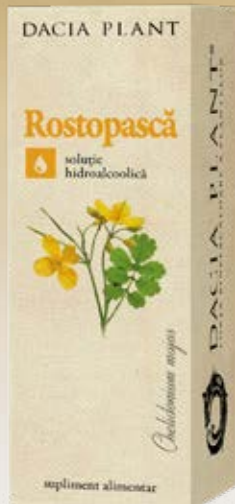

INTERNAL - difficult digestion, indigestion, nausea and vomiting, nausea, motion sickness, bronchitis, cold, respiratory viruses, peripheral circulatory failure, hypercholesterolemia, hyperlipidemia, obliterative arteriopathy, sensitivity to cold. EXTERNAL - rheumatism, cold intolerance.

INGREDIENTS:

1: 2.25 extract in hydroethanolic solution (ratio of ethyl alcohol 96 apă / water: 45/55) from ginger roots (30.8%).

BIOACTIVE SUBSTANCES:

essential oil (consisting of zingiberene, zingerone, gingerol, shogaol, ar-curcumen, β-sesquifelandrene, β-bisabolene and α-farnesene), resins.

GREATER CELANDINE

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - stimulates and regulates hepatic secretion of bile, stimulates the gall bladder tone and peristalsis improving bile flow, normalizes cholesterol and bilirubin levels, antilithiatic, hepatoprotective, hypolipemiant, lowers cholesterol levels, analgesic, antispasmodic, anti-inflammatory, antibacterial, antimycotic, antiviral, antitumor.

EXTERNAL - cicatrizant, antibacterial, antimycotic, antiviral, antitumor.

EFFECTIVE FOR:

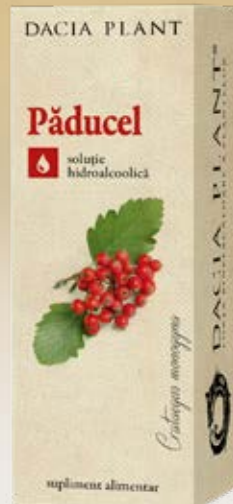

INTERNAL - gallbladder disorder (biliary dyskinesia), acute and chronic cholecystitis, hepatobiliary colics, biliary lithiasis, spasms of the gastrointestinal tract, spasmodic cough, esophageal tumors, pancreas, lungs. EXTERNAL - dermatoses, psoriasis, chronic infections of the skin, warts, calluses, skin tumors

INGREDIENTS:

1: 5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from greater celandine aerial parts (16.67%).

BIOACTIVE SUBSTANCES:

alkaloids (chelidonine, homochelidonine, sanguinarine, chelerythrine, coptisine, berberine), saponins, acid chelidonic, flavonoids, tannins, carotenoids.

HAWTHORN

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - cardi tonic, coronary vasodilator, antiarrhythmic, antihypertensive, β-blocker, sedative, improves the cardiac irrigation, has the capacity to restore blood circulation in necrotic areas after myocardial infarction.

EFFECTIVE FOR:

heart rhythm disorders (tachycardia, palpitations, extrasystoles), cardiac insufficiency, ischemic heart disease, angina, heart attack, high blood pressure, nervous cardiovascular disorders.

INGREDIENTS:

1: 5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from hawthorn leaves and flowers (16.67%).

BIOACTIVE SUBSTANCES:

flavonoids (hyperoside, rutoside, kaempferol, vitexin), proanthocyanidins, catechic tannins (catechol and epicatechin), phlobaphenes, triterpenic acids (ursolic, oleanolic, cratogeolic), coumarins (esculetin), phenolic acids (caffeic and chlorogenic), amines, aminopurine, β-sitosterol.

HORSETAIL

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - diuretic, haemostatic, urinary disinfectant, antimicrobial, anti-inflammatory, expectorant, bronchodilator, remineralizing, stimulates collagen synthesis that strengthens connective tissue.

EXTERNAL - anti-inflammatory, antimicrobial, stimulates hair growth.

EFFECTIVE FOR:

INTERNAL - edemas, urinary infections (nephritis, cystitis, pyelonephritis), bleeding (nosebleed, menorrhagia, metrorrhagia, internal bleeding), acute and chronic bronchitis, osteoporosis, chronic polyarthritis, osteoarthritis, bone fractures, prostate problems. EXTERNAL - contusions (swells, bruises), chronic polyarthritis, osteoarthritis, bone fractures, dandruff, effective against hair loss, excessive sweating.

INGREDIENTS:

1: 3.75 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from horsetail aerial parts (21.08%).

BIOACTIVE SUBSTANCES:

saponine (equisetonin), flavonoids (equisetin, luteolin, kaempferol), alkaloids (nicotine), sterols (β-sitosterol, campesterol), silicon dioxide, potassium salts, essential oil, mineral substances.

HOT PEPPER

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - stimulates gastric secretions, increases the appetite, enhances blood circulation (produce a warming effect in people with poor peripheral circulation), digestive stimulant, antiseptic, antioxidant. EXTERNAL - revulsive, anti-inflammatory, antirheumatic, hyperthermic, stimulates hair growth.

EFFECTIVE FOR:

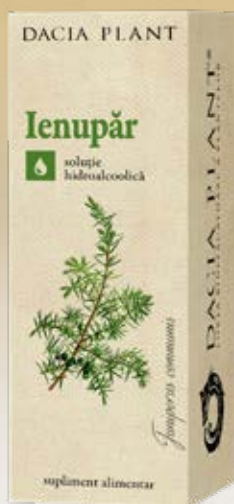

INTERNAL - anorexia, hypoacidic gastritis, slow digestion, influenza, cold, alcoholism. EXTERNAL - rheumatic and articular pains, neuralgia, muscle pains, frostbites, hair loss, alopecia.

INGREDIENTS:

1:10 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 52/48) from hot pepper fruits (9.1%).

BIOACTIVE SUBSTANCES:

capsaicinoids (capsaicin and dihydrocapsaicin), carotenoids (capsanthin, capsorubin, beta-carotene, violaxanthin, zeaxanthin), diterpenic glycosides (capsianozide), mineral nutrients (Ca, Na, Zn, Mn, Cu), vitamins A and C, essential oil, fatty oil.

JUNIPER

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - diuretic; urinary, intestinal and respiratory antiseptic; urinary lithotriptic; anti-inflammatory; analgesic; depurative; bronchodilator; stomachic; carminative.

EFFECTIVE FOR:

edemas, disorders of the urinary tract (urinary infections, renal lithiasis), digestive disorders (gastrointestinal infection, enteritis, enterocolitis, colon fermentation disorders, dyspepsia, flatulence, anorexia), acute and chronic bronchitis, rheumatism, arthritis, gout.

INGREDIENTS:

1: 5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 45/55) from juniper fruits (16.67%).

BIOACTIVE SUBSTANCES:

essential oil (consisting of α and β -pinene, camphene, sabinene, limonene, α -terpineol, geraniol), diterpene (communical acid, isocommunical acid, isopimaric acid), flavonoids (quercetin), bioflavonoids, α and β -cedren, tannins, a bitter principle (juniperina), lactone, pectins, resins.

LADY'S MANTLE

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - antihemorrhagic, female hormonal regulator, tones the uterine muscles, antidiarrheal.

EFFECTIVE FOR:

INTERNAL - uterine hemorrhages, hemorrhages of various origins, heavy menstruation, premenstrual syndrome, dysmenorrhea (menstrual pain), diarrhea.

INGREDIENTS:

1: 6.7 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from lady's mantle aerial parts (13.04%).

BIOACTIVE SUBSTANCES:

gallic tannins, flavonoids, ellagic acid, agrimoniin, proanthocyanins.

LADY'S BEDSTRAW

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - thyroid activity regulator, diuretic, depurative, mild laxative, mild sedative, aphrodisiac. EXTERNAL - antiseptic and cicatrizing.

EFFECTIVE FOR:

INTERNAL - hyper and hypothyroidism, thyroid nodules, vocal cord paralysis, laryngitis, laryngeal tumors, thyroid, parathyroid, neuroses, hysteria, urinary tract disorders (cystitis, pyelonephritis, urinary lithiasis), gout, water retention, rheumatism, impotence. EXTERNAL - eczemas and psoriasis.

INGREDIENTS:

1: 5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from lady's bedstraw aerial parts (16.67%).

BIOACTIVE SUBSTANCES:

iridoids (asperuloside, palustroside), flavonoids, coumarins, tannins, citric acid, acid chlorogenic, mineral substances.

LAVENDER

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - sedative, mild anxiolytic, mild antidepressant, antispasmodic.

EFFECTIVE FOR:

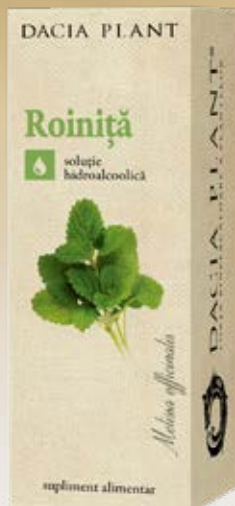

INTERNAL - anxiety, irritability, mental tension, anxiety, panic attacks, insomnia, depression, migraines, headaches, cardiovascular disease and intestinal disorders on a nervous background, diarrhea caused by stress.

INGREDIENTS:

1: 5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from lavender aerial parts (16.67%).

BIOACTIVE SUBSTANCES:

essential oil (consisting of α and β -pinene, camphene, δ -carene, cis and trans-ocimene, geraniol, camphor), triterpenic acids (ursolic and oleanolic), coumarins (coumarin, herniarin, umbelliferone), furanocoumarins, flavones (luteol), rosmarinic acid, resins.

LEMON BALM

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - sedative, psycho-emotional regulator, memory stimulant, antispasmodic, analgesic, stomachic, choleric and cholagogue, carminative, antiseptic, antiemetic, antithyroidal, administered in the evening promotes sleep onset. EXTERNAL - cicatrizing, antiseptic, soothing.

EFFECTIVE FOR:

INTERNAL - nervousness, stress, anxiety, panic attacks, depression, insomnia, heart neurosis, neurovegetative dystonias, memory disorders, headaches, migraines, neuralgia, vertigo (dizziness), hyperthyroidism, biliary dyskinesia, indigestion, gastrointestinal colic, nausea, vomiting. EXTERNAL - eczemas and superficial wounds.

INGREDIENTS:

1: 5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from lemon balm aerial parts (16.67%).

BIOACTIVE SUBSTANCES:

essential oil (consisting of citronellal, geraniol, neral, cis and trans-ocimene, β -caryophyllene), acizi polyphenol carboxylic (caffeic, chlorogenic, rosmarinic).

LICORICE

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - expectorant, antispasmodic, anti-inflammatory of corticosteroid and mineralocorticoid type, estrogenic, analgesic, mild laxative. EXTERNAL - anti-inflammatory, antiseptic, cicatrizing.

EFFECTIVE FOR:

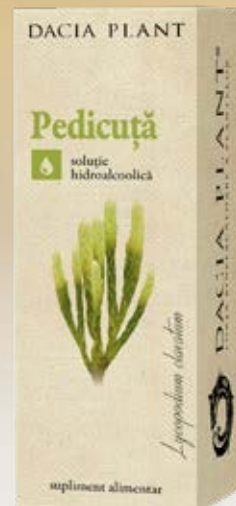

INTERNAL - bronchopulmonary disorders (bronchitis, laryngitis, tracheobronchitis), rheumatoid arthritis, Addison's disease, menstrual disorders (amenorrhea, hypomenorrhea, dysmenorrhea), mammary hypoplasia, constipation. EXTERNAL - seborrheic dermatitis, insect bites, solar erythema.

INGREDIENTS:

1: 5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from licorice roots (16.67%).

BIOACTIVE SUBSTANCES:

triterpenoid saponins (glycyrrhizin, liquiritic acid, glabric acid), flavones (liquiritin, neoliquiritin, glabrol), isoflavones (glabridin), chalcone (isoliquiritigenin), coumarins (umbelliferone, herniarin), phytosterols (β -sitosterol), polyholosides, sugars (glucose, sucrose), resins, proteins, mineral substances.

LYCOPodium

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - anti-alcohol, anti tobacco, emetic, diuretic, laxative, liver tonic.

EFFECTIVE FOR:

INTERNAL - alcoholism, smoking.

INGREDIENTS:

ratio 1: 5 in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from aerial parts of lycopodium (16.67%).

BIOACTIVE SUBSTANCES:

alkaloids (lycopodine, clavatine, lycoclavine, lycodine), flavonoids, triterpenes, caffeic acid, minerals.

MILK THISTLE

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - antihepatotoxic, regenerating liver cells, hepatoprotective, bitter tonic.

EFFECTIVE FOR:

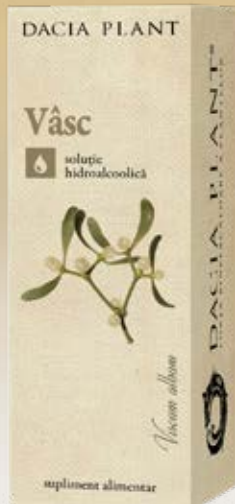

hepatic impairment, fungal poisoning in combination with potentially hepatotoxic drugs.

INGREDIENTS:

1: 3.75 extract in hydroalcoholic solution (ethyl alcohol / water - 35/65 by mass) from milk thistle seeds.

BIOACTIVE SUBSTANCES:

silymarin (a mixture of silibinin, silydianin and silychristin), flavonols (quercetol), amino acids, lipids, fumaric acid.

MISTLETOE

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - antihypertensive, decreases heart rate, peripheral and coronary vasodilator, anti-inflammatory, antispasmodic, antitumor.

EXTERNAL - anti-inflammatory.

EFFECTIVE FOR:

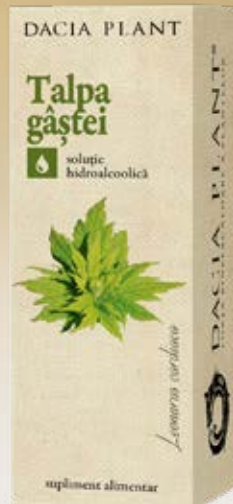

INTERNAL - high blood pressure, cardiac arrhythmias, spasmodic cough, whooping cough (pertussis), tumors.
EXTERNAL - osteoarthritis, spondylosis.

INGREDIENTS:

1:5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from branches with mistletoe leaves (16.67%).

BIOACTIVE SUBSTANCES:

lectine, polypeptides, polyholosides, flavonoids, triterpenic acids (ursolic and oleanolic), sterols.

MOTHERWORT

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - antihypertensive, antiarrhythmic, cardiotonic, sedative, antispasmodic, vasodilator, uterotonic.

EFFECTIVE FOR:

high blood pressure, cardiac arrhythmia, nervous heart disorders, neurovegetative dystonia, gynecologic thrombosis.

INGREDIENTS:

1: 5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65); from motherwort aerial parts (16.67%).

BIOACTIVE SUBSTANCES:

flavonoids (rutoside, hyperoside, quercetin), alkaloids (leonurine, stachydrine), iridoids, diterpene compounds with furanic structure, bufadienolides, cardiotonic heterosides, saponins, sterols, essential oil, vitamins (A, C, E), tannins, mineral substances.

NETTLE

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - antianemic, diuretic (with elimination of uric acid), depurative, hematopoietic (stimulates the formation of red blood cells), astringent, haemostatic, antidiarrheal, anti-inflammatory, hypoglycemic, immunostimulant, 5- α -reductase inhibitor (an enzyme involved in benign prostatic hypertrophy), general tonic, antiseptic.
EXTERNAL - astringent, revulsive, capillary tonic, cicatrissant, haemostatic, antiseptic.

EFFECTIVE FOR:

INTERNAL - light anemia, asthenia (spring asthenia), edemas, urinary lithiasis, gout, uricaemia, benign prostate hypertrophy, prostatitis, bleeding (metrorrhagia, hemoptysis), diarrhea, diabetes mellitus, hypovitaminosis, dermatological disorders (acne, psoriasis, infectious dermatoses), convalescence, geriatrics.
EXTERNAL - skin disorders (acne, seborrhea, eczemas, infectious dermatoses), dandruff, hair loss, alopecia.

INGREDIENTS:

1: 4.2 extract in hydroethanolic solution (ethyl alcohol ratio 96° / water: 35/65) from nettle aerial parts (19.23%).

BIOACTIVE SUBSTANCES:

carotenoids (β -caroten, xanthophyll, violaxanthin), flavones, tannins, coumarins (scopoletol), isoelectine, amines (histamine, serotonin, acetylcholine), organic acids (acetic, butyric, caffeic, chlorogenic, ferulic), minerals (P, K, Ca, Mg, Fe, S), vitamins (A, B1, B2, C, E and K), β -sitosterol, phospholipids (betaine, choline, lecithin), chlorophyll, fatty oil, phytohormones.

PROPOLIS

Hydroalcoholic extract
20 ml

ACTIONS/BENEFITS:

INTERNAL - antimicrobial (bacteriostatic and bactericidal both on Gram-positive bacteria and Gram-negative bacteria), antimycotic (against *Candida albicans*), antiviral (against Herpes simplex virus), analgesic, anti-inflammatory, anesthetic, cicatrissant, immunostimulant, antioxidant, mucolytic.
EXTERNAL - analgesic, anti-inflammatory, antimicrobial, anesthetic, cicatrissant.

EFFECTIVE FOR:

INTERNAL - pharyngitis, laryngitis, tracheitis, tonsillitis, bronchitis, common colds (coughing, sore throat, runny nose, sneezing), sinusitis, colitis, enterocolitis.
EXTERNAL - pharyngitis, tonsillitis, skin disorders (infectious eczemas, mycosis, superficial wounds).

INGREDIENTS:

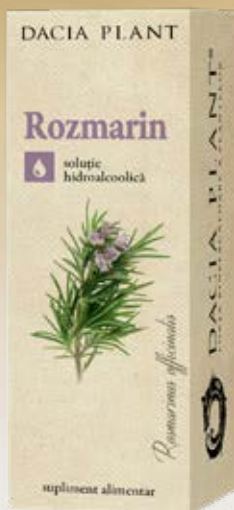

1: 3 alcoholic extract (ethyl alcohol 96°) from **propolis** (24.53%).

BIOACTIVE SUBSTANCES:

flavones (acacetin, chrysin, apigenin), flavonols (galangin, isalpinin, kaempferol), flavanone (pinocembrin, pinostrobin, pinobanksin), chalcone, aromatic acids, alcohols, ketones, carbohydrates, essential oils, balms, vitamins (A, C, E, PP and complex B compounds), mineral nutrients, amino acids, tannins.

WARNINGS:

Propolis content.

ROSEMARY

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - stimulates cerebral and peripheral circulation, adaptogenic (antistress), digestive tonic, cholagogue and cholagogue, lowers cholesterol levels, antispasmodic, diuretic, antirheumatic, antihypertensive, respiratory and intestinal antiseptic, antioxidant, improves memory, increases the capacity for concentration, increases the psychic tonus.
EXTERNAL - rubefacient (revulsive), antirheumatic.

EFFECTIVE FOR:

INTERNAL - peripheral and cerebral circulatory failure, circulatory and memory disorders in the elderly, dizziness (dizziness) and migraines, mental and intellectual overwork, hypercholesterolemia, atherosclerosis, hepatobiliary disorders, indigestion, abdominal colic, gout, rheumatism.
EXTERNAL - rheumatism, osteoarthritis, muscle pains, sciatica.

INGREDIENTS:

1: 4 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 45/55) from rosemary leaves (20%).

BIOACTIVE SUBSTANCES:

essential oil (consisting of 1,8-cineol, limonene, myrcene, p-cimen, camphene, camphor, β-caryophyllene), phenolic diterpenes (carnosic acid, carnosol, rosmanol), triterpenes (α and β-amyrenol, ursolic and oleanolic acid), flavonoids (diosmin, diosmetin, luteolol, hesperidin), acizi polyphenol carboxylic (rosmarinic, caffeic, gentisic, vanillic, syringic), tannins, amino acids, vitamin C.

SAGE

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - stomachic, cholagogue and cholagogue, carminative, anti-inflammatory, antispasmodic, estrogenic, emmenagogue (triggers menstruation cycle), increases the psychic tonus, antiperspirant, antiseptic, hypoglycemic, antineuralgic, haemostatic, reduces menopause symptoms (night sweats and hot flashes), improves memory.
EXTERNAL - anti-inflammatory, antiseptic, cicatrissant, antiperspirant.

EFFECTIVE FOR:

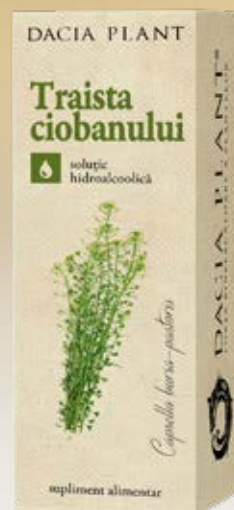

INTERNAL - gallbladder disorder (biliary dyskinesia), gastrointestinal colic, meteorism (bloating), diabetes mellitus, dysmenorrhea, irregular menstruation, menopause, psychic and intellectual exhaustion, chronic bronchitis, common colds, hyperhidrosis (excessive sweating).
EXTERNAL - palmoplantar dyshidrosis (vesicular eruptions on the palms and soles), hyperhidrosis (excessive sweating), gingivitis, stomatitis, superficial wounds, eczemas.

INGREDIENTS:

1: 5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from sage aerial parts (16.67%).

BIOACTIVE SUBSTANCES:

essential oil (consisting of α and β-thujone, 1,8-cineole, camphor, α and β-pinene, camphene, myrcene, limonene), phenolic diterpenes (carnosic acid, carnosol), triterpenes (α and β-amyrenol, ursolic acids, oleanolic, crategolic), rosmarinic acid, flavonoids, catechin tannins, phytosterols (β-sitosterol, stigmasterol), beta-carotene, alpha-tocopherol, acid pantotenic, enzymes.

SHEPHERD'S PURSE

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - antihemorrhagic, anti-diarrheal, anti-inflammatory, blood pressure regulator, mild diuretic, antiseptic.

EFFECTIVE FOR:

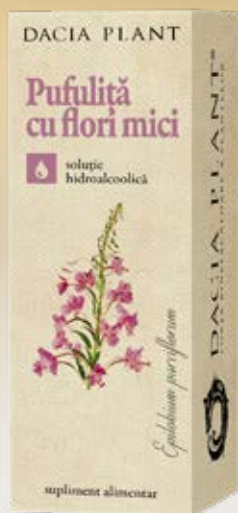

INTERNAL - uterine bleeding (heavy menstruation, metrorrhagia), bleeding of various origins, dysmenorrhea, arterial hypertension and hypotension, diarrhea.

INGREDIENTS:

1: 5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from the aerial parts of the shepherd's purse (16.67%).

BIOACTIVE SUBSTANCES:

flavonoids (rutoside), triterpenic saponins, polyphenolic acids (chlorogenic, vanillic, fumaric), biogenic amines (choline, acetylcholine), tannins, sinigrin, sodium, potassium and calcium salts.

SMALLFLOWER HAIRY WILLOWHERB

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - anti-inflammatory and decongestant at prostate level, diuretic, depurative.

EFFECTIVE FOR:

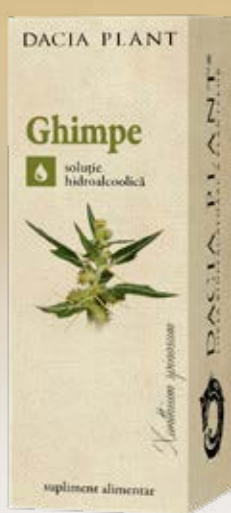

prostatitis, benign prostate hypertrophy (prostate adenoma), urinary disorders.

INGREDIENTS:

1: 4.8 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from smallflower hairy willowherb aerial parts (17.11%).

BIOACTIVE SUBSTANCES:

triterpenic acids (ursolic, oleanolic, hydroxyursolic, hydroxyoleanolic), galotanin hidrolizabil, triterpenoid saponins, steroidal saponin, polyholosides, flavonosids, essential oil, essential amino acids, vitamin C, ellagic acid, caffeic acid, β -sitosterol, pectins.

SPINY COCKLEBUR

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - anti-inflammatory and decongestant at the level of the prostate, cicatrissant, diuretic, urinary antiseptic (acts against colibacillus and Proteus vulgaris).

EFFECTIVE FOR:

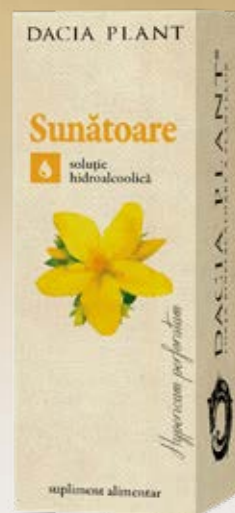

benign prostate hypertrophy (prostate adenoma), prostatitis, urinary infections with colibacillus and Proteus vulgaris.

INGREDIENTS:

1: 5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from spiny cocklebur aerial parts (16.67%).

BIOACTIVE SUBSTANCES:

sesquiterpene lactones (xanthine, xanthinine), flavones, phytosterols (β -sitosterol), catechin tannins, saponins, caffeic acid, acid chlorogenic, carotenoids.

ST. JOHN'S WORT

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - anxiolytic, antidepressant, cholagogue, hepatic functions stimulator, antispasmodic, anti-inflammatory, antimicrobial, antiviral, antidiarrheal. EXTERNAL - cicatrissant, anti-inflammatory, antimicrobial.

EFFECTIVE FOR:

INTERNAL - anxious syndromes, depression, biliary dyskinesia, colitis, enterocolitis, cholecystitis, hepatobiliary colic, abdominal colic, diarrhea, neurovegetative dystonia, nocturnal dread (nightmare), bronchitis, inflammation of the urogenital tract, dysmenorrhea. EXTERNAL - eczemas, irritated facial skin.

INGREDIENTS:

1: 4.4 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from St. John's wort aerial parts (18.5%).

BIOACTIVE SUBSTANCES:

naftodiantrone (hypericin, pseudohypericin, protohypericin), essential oil (consisting of α -pinene and cadinen), flavonosids (hyperoside, rutoside), tannins, cinnamic acids, caffeic acid, chlorogenic acid, hyperforin, xantone, carotenoids, resins, mineral substances.

VALERIAN

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - sedative of the central and vegetative nervous system, anxiolytic, antidepressant, tranquilizer, psycho-emotional stabilizer, papaverine-type spasmolytic, anticonvulsant.

EFFECTIVE FOR:

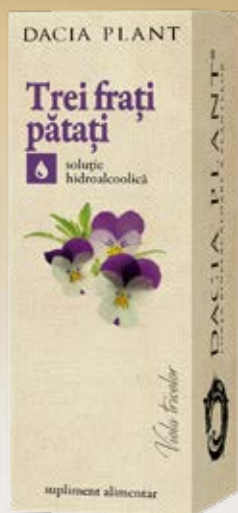

INTERNAL - nervous tension, insomnia, depression, anxiety, emotional disorders, mood disorders, panic attacks, neuroses, nervous tics, febrile seizures, nervous spasm, nervous cardiovascular disorders (arrhythmia, ischemia and cardiac neuroses, angina, high blood pressure), gastrointestinal spasms, biliary colics, dysmenorrhea, menopausal disorders, tremors of various etiologies, asthma attacks, whooping cough.

INGREDIENTS:

1: 3.75 extract in hydroalcoholic solution (ethyl alcohol / water - 35/65 by mass) from valerian roots.

BIOACTIVE SUBSTANCES:

essential oil (consisting of α -pinene, limonene, camphene, valerianol, valeranal, valeranone), valepotriates (valtrate, isovaltrate, acevaltrate, didrovaltrate), actinidin type alkaloids (actinidin, valerianine), flavonoids, organic acids (caffeic, chlorogenic, valeric and isovaleric), tannins, sterols.

VIOLA TRICOLOR

Hydroalcoholic extract
20 ml

ACTIONS/BENEFITS:

INTERNAL - antiallergic, diuretic, depurative, expectorant, mild laxative.

EXTERNAL - anti-inflammatory.

EFFECTIVE FOR:

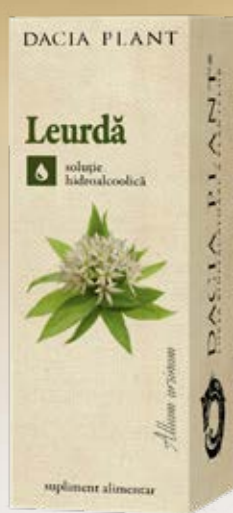

INTERNAL - allergies, allergic rhinitis, bronchial asthma, allergodermia, bronchitis, respiratory tract catarrh accompanied by cough, edemas.
EXTERNAL - eczemas, acne, superficial wounds.

INGREDIENTS:

1: 5 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 52/48) from viola tricolor aerial parts (16.67%).

BIOACTIVE SUBSTANCES:

flavonoids (violantin, orientin, vitexin, isovitexin, vicenin), anthocyanosides (violanine), carotenoids (violaxanthin, zeaxanthin), alkaloids (violin), triterpenic saponins, essential oil.

WILD GARLIC

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - platelet antiaggregation, anticoagulant, antithrombotic, blood thinner, hypocholesterolemic, diuretic (with uric acid elimination), depurative, bacteriostatic, bactericidal, anti-inflammatory (by inhibiting cyclooxygenase and 5-lipoxygenase), radical antioxidant (with free radicals) stomachic, deworming, prevents sclerosis of blood vessels and promotes cerebral circulation.

EFFECTIVE FOR:

INTERNAL - thrombophlebitis, thrombosis, hypercholesterolemia, atherosclerosis, obliterating arteriopathy, sequelae after stroke, varicose veins, hemorrhoids, high blood pressure, intestinal, urinary and respiratory infections, gout, intestinal parasitosis, geriatrics.

INGREDIENTS:

1: 2 extract in hydroalcoholic solution (ethyl alcohol / water - 45/55 by mass) from wild garlic leaves.

BIOACTIVE SUBSTANCES:

sulfur compounds (thiosulfinate, ajoene), flavonoids, steroidal saponin, adenosine, essential oil, minerals, polyphenols.

WILD THYME

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - digestive tonic, stomachic, cholagogue, carminative, intestinal, respiratory and urinary antiseptic, expectorant, antispasmodic, diuretic, antiparasitic (vermicide), peripheral circulation stimulant.
EXTERNAL - antiseptic, antiparasitic, cicatrizing, disinfectant of the oral cavity.

EFFECTIVE FOR:

INTERNAL - digestive disorders (anorexia, slow digestion, gallbladder disorder (biliary dyskinesia), enterocolitis, diarrhea, bloating), respiratory disorders (bronchitis, tracheitis, laryngitis, tracheobronchitis, influenza, whooping cough, spasmodic cough, bronchial asthma), urinary infections (cystitis, nephritis, pyelocystitis, urethritis), intestinal parasites.
EXTERNAL - infective eczemas, scabies (mange), diseases of the mouth (stomatitis, tooth abscess).

INGREDIENTS:

1:4.4 extract in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from aerial parts of thyme (18.5%).

BIOACTIVE SUBSTANCES:

essential oil (consisting of thymol, carvacrol, α -pinene, γ -terpinene, geraniol, borneol), flavonoids, tannins, triterpenic acids (ursolic and oleanolic).

YARROW

Hydroalcoholic extract
50 ml

ACTIONS/BENEFITS:

INTERNAL - antimicrobial, digestive tonic, stomachic, anti-inflammatory, antispasmodic, cholagogue, hemostatic, immunomodulatory.
EXTERNAL - anti-inflammatory, cicatrizing, haemostatic, antimicrobial, antipruritic.

EFFECTIVE FOR:

INTERNAL - anorexia, dyspeptic syndrome, to stimulate liver and digestive function, biliary dyskinesia, gastrointestinal disorders with spastic component (abdominal cramps, biliary colic), colitis, enterocolitis, flatulence (bloating), epistaxis, internal bleeding, metrorrhagia, dysmenorrhea (menstrual pain), metroanoxitis, cystitis.
EXTERNAL - skin rashes, superficial (1st degree) burns, vulvar itching, superficial wounds (cuts, scratches), insect bites.

INGREDIENTS:

extract 1: 3.75 in hydroethanolic solution (ratio of ethyl alcohol 96° / water: 35/65) from yarrow aerial parts (21.08%).

BIOACTIVE SUBSTANCES:

essential oil (consisting of α and β -pinene, sabinene, camphene, chamazulene and terpene oxides), proazulene guaianolides (achillin, achillicin, matricin, milefin).
